

II. Topics for Discussion at the Listening Session

The listening session will provide the public an opportunity to provide open public comment on the proposed goal areas and help inform development of the final Strategic Plan. After introductions, FDA will begin the listening session with an overview of the development of CTP's Strategic Plan and subsequent proposed goal areas. Then, the registered speakers will have approximately 4 minutes each to share their comments on any topics related to the proposed goal areas.

III. Participating in the Listening Session

Registration: To register to attend the free listening session, please visit the following website: <https://www.fda.gov/tobacco-products/ctp-newsroom/listening-session-developing-fdas-center-tobacco-products-strategic-plan-08222023>. Registration information will be posted soon.

Live closed captioning will be provided during the listening session. Additional information on requests for special accommodations due to a disability will be provided during registration.

Requests to Provide Open Public Comment: During online registration you may indicate if you wish to make open public comments during the listening session. All requests to make open public comment must be received by August 14, 2023, at 11:59 p.m. Eastern Time. We will do our best to accommodate requests to make public comments. We are seeking to have a broad representation of ideas and perspectives presented at the meeting. During the listening session, FDA is especially interested to hear from those individuals or communities who may be less likely or less able to provide written comments. Individuals and organizations with common interests are urged to consolidate or coordinate their comments and request time for a joint presentation. FDA will allow registered speakers 4 minutes to provide their open public comments and will notify all registrants of their approximate time ahead of the listening session if they are selected to make public comment. FDA will not accept presentation materials for the listening session. Instead, any materials can be submitted to the respective docket noted in the "Docket" section of this document before the end of the comment period.

Transcript: Please be advised that as soon as the transcript of the listening session is available, it will be accessible at <https://www.regulations.gov>. It may

be viewed at the Dockets Management Staff (see **ADDRESSES**). A link to the transcript and recording will also be available on the internet at <https://www.fda.gov/tobacco-products/ctp-newsroom/listening-session-developing-fdas-center-tobacco-products-strategic-plan-08222023>.

Dated: July 18, 2023.

Lauren K. Roth,

Associate Commissioner for Policy.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Resources and Services Administration

Agency Information Collection Activities: Submission to OMB for Review and Approval; Public Comment Request; Information Collection Request Title: Evaluation of Programs Supporting the Mental Health of the Health Professions Workforce, OMB No. 0915-xxxx-New

AGENCY: Health Resources and Services Administration (HRSA), Department of Health and Human Services.

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995, HRSA submitted an Information Collection Request (ICR) to the Office of Management and Budget (OMB) for review and approval. Comments submitted during the first public review of this ICR will be provided to OMB. OMB will accept further comments from the public during the review and approval period. OMB may act on HRSA's ICR only after the 30-day comment period for this notice has closed.

DATES: Comments on this ICR should be received no later than August 23, 2023.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under Review—Open for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT: To request a copy of the clearance requests submitted to OMB for review, email Samantha Miller, the HRSA Information Collection Clearance Officer, at paperwork@hrsa.gov or call (301) 594-4394.

SUPPLEMENTARY INFORMATION:

Information Collection Request Title: Evaluation of Programs Supporting the Mental Health of the Health Professions Workforce, OMB No. 0915-xxxx-New.

Abstract: The Public Health Service Act and the American Rescue Plan Act of 2021 authorized three programs administered by HRSA: (1) the Health and Public Safety Workforce Resiliency Training Program (the Training Program); (2) the Promoting Resilience and Mental Health among Health Professional Workforce Program (the Workforce Program); and (3) the Health and Public Safety Workforce Resiliency Technical Assistance Center (the Technical Assistance Center). The Training Program funds resilience training activities for the health workforce in rural and underserved communities. The Workforce Program supports organizations' programs or protocols that foster resilience and wellness among the health workforce in these communities. The Technical Assistance Center provides tailored training and technical assistance to Training Program and Workforce Program awardees. The purpose of the planned evaluation is to assess the three programs with respect to their goals of promoting resiliency and mental health in the health workforce. Data collection efforts will inform HRSA leadership about the progress, costs and benefits, and impact of these efforts to support the delivery of health care in the United States.

Methods of Collection

Quantitative and qualitative de-identified data will be collected from awardees and their health care workforce. Each instrument will be administered twice over the 4-year evaluation period; once mid-way through the project period and once at the end of the project period. There will also be a one-time comparison group survey. To achieve the evaluation, the study will use the following quantitative data collection instruments:

The Healthcare Workforce Survey is a web-based survey intended to collect data on the impact and implementation of the Training Program and the Workforce Program from individuals in both programs' target populations. Respondents will only be asked questions that are relevant to their experience. The Survey includes questions about before and after program participation to assess self-reported change.

The Fielding Tracker is an Excel-based tool that Workforce Program and Training Program awardees will help populate with information on how they

distributed the Healthcare Workforce Survey (e.g., type and frequency of email communications sent to the target populations of grant-funded activities, number of individuals emailed, number of undeliverable emails received, and demographic information). It will also gather aggregated demographic information on the target population required for a non-response bias analysis (this information is not reported to HRSA elsewhere).

The Awardee Training and Services Report is an Excel-based tool that will be used to clarify how evaluators can refer to each activity Training Program and the Workforce Program awardees implemented on the Healthcare Workforce Survey so that respondents will recognize the activities. The Awardee Training and Services Report will also request key descriptive information for each activity. Each report will include pre-populated activities or training programs that have been reported to HRSA to reduce burden on the Training Program and Workforce Program awardees, while confirming, revising, or adding details, as needed.

The Health and Public Safety Workforce Resiliency Training Program Comparison Group Survey is a web-based survey intended to assess key outcomes among those in the health workforce who did not have access to Training Program-funded activities. A third-party vendor will provide the health workforce sample. Eligibility for this survey will be assessed using a brief web-based Screener. The purpose of the screener is to identify respondents with similar characteristics as the Training Program participants.

The Awardee Survey about the Technical Assistance Center is a web-based survey intended to assess the Training Program and the Workforce Program awardees' experiences with and perceptions of the impact from technical assistance provided by the Technical Assistance Center. In addition, the Awardee Survey is

designed to gather details about program implementation to inform future programming. The Awardee Cost Workbook is an Excel-based tool that will be used to conduct a cost-benefit analysis. It will be pre-populated with existing data for the Training Program and the Workforce Program awardees to verify and update as needed.

The Awardee Interview Guide and Organizational Assessment Interview Protocol are qualitative data collection instruments the evaluation team will use as semi-structured interview guides to understand the awardees' perspectives on challenges, lessons learned, and organizational change. The Organizational Assessment interviews will be conducted with the Workforce Program awardees, given the grant program's unique focus on organizational change. Questions will be tailored depending on the role of the interviewee, which could include the awardee project director, the manager, an external partner, and up to three workforce team members.

A 60-day notice was published in the **Federal Register** on May 5, 2023, vol. 88, No. 87; pp. 29137–38. There were no public comments.

Need and Proposed Use of the Information: The information collected for this evaluation will enable a comprehensive evaluation of these important HRSA-funded programs to promote resiliency and improve mental health in the health workforce. The proposed data collection efforts are critical to understanding program outcomes and will inform leadership on program progress and inform future programming. Data collection will assist in the development of actionable strategies and methodologies to inform future programs, investment strategies, and ongoing workforce resiliency policy development. Data collection will align with parallel efforts across HRSA, providing previously un-collected or un-verified information critical to understanding factors related to the success of current HRSA programs. All

instruments have been designed to leverage and not duplicate annual performance reporting requirements and data collected by the Technical Assistance Center.

Likely Respondents: For the Healthcare Workforce Survey, all individuals in the target population of the Training Program and Workforce Programs will be invited to complete the survey. For the Training Program Comparison Group Survey, the following types of professionals across the four census regions will be targeted: nurses, physicians, physician assistants, behavioral health providers, nursing students, medical school students and residents, and clinical social work or psychology students. For the Awardee Interviews and Awardee Training and Services Reports Form, the Training Program, Workforce Program, and Technical Assistance Center awardees will be invited to participate. For the Awardee Survey about the Technical Assistance Center, the Fielding Tracker, and the Awardee Cost-Workbook, the Training Program and Workforce Program awardees will be asked to participate. For the Organizational Assessment Interviews, multiple types of staff at each Workforce Program awardee organization will be targeted.

Burden Statement: Burden in this context means the time expended by persons to generate, maintain, retain, disclose, or provide the information requested. This includes the time needed to review instructions; to develop, acquire, install, and utilize technology and systems for the purpose of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information; to search data sources; to complete and review the collection of information; and to transmit or otherwise disclose the information. The total annual burden hours estimated for this ICR are summarized in the table below.

TOTAL ESTIMATED ANNUALIZED BURDEN HOURS

Form name	Number of respondents	Number of responses per respondent	Total responses	Average burden per response (in hours)	Total burden hours
Healthcare workforce survey	29,359	1	29,359	0.25	7,340
The Training Program Comparison Group Screener	180,000	1	180,000	0.05	9,000
The Training Program Comparison Group Survey	2,600	1	2,600	0.17	442
The Training Program Awardee Cost Workbook	34	1	34	6.00	204
Awardee Interview Guide	44	1	44	1.50	66
Awardee Training and Services Report	44	1	44	1.00	44
Fielding Tracker	44	1	44	4.00	176
The Workforce Program Awardee Cost Workbook	10	1	10	6.00	60

TOTAL ESTIMATED ANNUALIZED BURDEN HOURS—Continued

Form name	Number of respondents	Number of responses per respondent	Total responses	Average burden per response (in hours)	Total burden hours
The Workforce Program Organizational Assessment Interview Protocol	50	1	50	1.00	50
Awardee Survey about the Technical Assistance Center ...	44	1	44	1.00	44
Total	212,229	10	212,229	20.97	17,426
