

approach, EPA is not seeking peer review of the 2023 draft revised unreasonable risk determination for the 1,4-dioxane risk evaluation. EPA is, however, seeking peer review as well as public comment on the 2023 Draft Supplement to the 1,4-Dioxane Risk Evaluation, as described in a separate **Federal Register** notice (88 FR 43562, July 10, 2023) (FRL-10798-02-OCSP). EPA will consider changes made to the risk evaluation in response to peer review and public comment on that supplement when developing the final risk determination.

D. What are the next steps for finalizing revisions to the risk determination?

EPA will review and consider public comment received on the draft revised risk determination for the 1,4-dioxane risk evaluation and will review and consider public comment and peer review on the 2023 Draft Supplement to the 1,4-Dioxane Risk Evaluation. After considering those public comments, EPA will issue the revised final 1,4-dioxane risk determination. If finalized as drafted, EPA would also issue a new order to withdraw the TSCA section 6(i)(1) no unreasonable risk order issued in Section 5.4.1 of the 2020 1,4-dioxane risk evaluation. This final revised risk determination would supersede the December 2020 risk determinations of no unreasonable risk. Consistent with the statutory requirements of TSCA, EPA would initiate risk management for 1,4-dioxane either by applying one or more of the requirements under TSCA section 6(a) to the extent necessary so that 1,4-dioxane no longer presents an unreasonable risk or determining pursuant to TSCA sections 9(a) and/or 9(b) that other Federal laws can eliminate or reduce to a sufficient extent the unreasonable risk.

A. Overview of Information Collection

Title of Information Collection: Title I Property Improvement and Manufactured Home Loan Programs.

OMB Control Number, if applicable: 2502–0328.

Type of Request: Extension of currently approved collection.

Description of the need for the information and proposed use: Title I loans are made by private sector lenders and insured by HUD against loss from default. HUD uses information about Title I loan borrowers to evaluate individual loans on their overall program performance. The information collected is used to determine insurance eligibility and claim eligibility. HUD proposes adopting the URLA and amending forms 56001 and 56001–MH to capture Title I Loan program specific information which will simplify the form, avoid unnecessary duplication,

and reduce the burden to the public. This information is necessary for HUD to capture information effective in determining overall program performance, insurance and claim eligibility and risk management.

Agency form numbers, if applicable: HUD–637, 27030, 55013, 55014, 56001, 56001–MH, 56002, 56002–MH, & SF 3881.

Respondents: The respondents are lenders.

Estimation of the total numbers of hours needed to prepare the information collection:

Estimated Number of Respondents: 510.

Estimated Number of Responses: 38,515.

Frequency of Response: On occasion, periodic.

Average Hours per Response: 10.01.

Total Estimated Burdens: 23,180.

B. Solicitation of Public Comment

This notice is soliciting comments from members of the public and affected parties concerning the collection of information described in Section A on the following:

(1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) The accuracy of the agency’s estimate of the burden of the proposed collection of information;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) Ways to minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

(5) This extension recommends adopting the URLA form, an industry standard for loan applications. This will allow use of revised 56001 and 56001 MH forms, which reduces the public burden. The public burden hours have been adjusted to reflect this change. HUD encourages interested parties to submit comment in response to these questions.
