Abstract of Proposed Collection

The U.S. Government has determined that Afghans paroled under Operation Allies Welcome (OAW), or those paroled and then subsequently granted Temporary Protected Status (TPS), could request U.S. Government-supported family reunification assistance for their spouses and unmarried children under 21 years of age. Use of the Form DS-4317 will enable the Department to build a current picture of how many Afghans may be eligible for relocation and to assist them in departing Afghanistan. This online form helps avoid unstructured requests for assistance, such as those that arrive via email messages, which may not include important information, such as family size and biodata, and which often require entry into other systems to facilitate responses. This form is integrated with other elements of the Department's evolving information technology platform, enhancing the efficient handling of individual cases.

Methodology

Information from applicants is collected through an electronic version of the Form DS-4317. Data from the

application is stored in IRM's ServiceNow platform.

Deputy Director, Office of Directives Management, U.S. Department of State.
