\* The Standards Council of Canada (SCC) voted to end its Laboratory

Accreditation Program for Substance Abuse (LAPSA) effective May 12, 1998. Laboratories certified through that program were accredited to conduct forensic urine drug testing as required by U.S. Department of Transportation (DOT) regulations. As of that date, the certification of those accredited Canadian laboratories will continue under DOT authority. The responsibility for conducting quarterly performance testing plus periodic on-site inspections of those LAPSA-accredited laboratories was transferred to the U.S. HHS, with the HHS' NLCP contractor continuing to have an active role in the performance testing and laboratory inspection processes. Other Canadian laboratories wishing to be considered for the NLCP may apply directly to the NLCP contractor just as U.S. laboratories do.

Upon finding a Canadian laboratory to be qualified, HHS will recommend that DOT certify the laboratory (**Federal Register**, July 16, 1996) as meeting the minimum standards of the Mandatory Guidelines published in the **Federal Register** on January 23, 2017 (82 FR 7920). After receiving DOT certification, the laboratory will be included in the monthly list of HHS-certified laboratories and participate in the NLCP certification maintenance program.

Copies of available documents submitted to OMB may be obtained from Ms. Pollard.

**SUPPLEMENTARY INFORMATION:** This notice informs the public that HUD is seeking approval from OMB for the information collection described in Section A.

#### A. Overview of Information Collection

*Title of Information Collection:* Green and Resilient Retrofit Program (GRRP) Application Forms.

*OMB Approval Number:* 2502-0624.

*OMB Expiration Date:* 8/31/2023.

*Type of Request:* Revision of a currently approved collection.

*Form Numbers:* 5991, 5992, and 5993.

*Description of the need for the information and proposed use:* The Green and Resilient Retrofit Program (“GRRP”) is newly funding through Title III of the Inflation Reduction Act of 2022, H.R. 5376 (IRA), in section 30002 titled “Improving Energy Efficiency or Water Efficiency or Climate Resilience of Affordable Housing” (the “IRA”), authorizing HUD to make loans, grants to improve energy or water efficiency; enhance indoor air quality or sustainability; implement the use of zero-emission electricity generation, low-emission building materials or processes, energy storage, or building electrification strategies; or address climate resilience of eligible HUD-assisted multifamily properties. The program leverages significant technological advancements in utility efficiency and adds a focus on preparing for climate hazards—both reducing residents’ and properties’ exposure to hazards and protecting life, livability, and property when disaster strikes. With its dual focus, GRRP is the first program to consider, at the national scale, how best to approach both green and energy efficiency upgrades simultaneously with investment in climate resilience strategies in multifamily housing. HUD is taking a multi-faceted approach to deploy these funds multiple funding rounds and for properties at different development stages.

Funding under this program will be made through multiple cohorts under one or multiple Notices of Funding Opportunity (NOFOs) that will detail the application process for eligible applicants. This collection is necessary in order to receive applications requesting funding under this program.

*Respondents:* HUD-assisted multifamily owners.

*Estimated Number of Respondents:* 680.

*Estimated Number of Responses:* 680.

*Frequency of Response:* Once per application.

*Average Hours per Response:* 15 hours.

*Total Estimated Burden:* 10,200.

#### B. Solicitation of Public Comment

This notice is soliciting comments from members of the public and affected parties concerning the collection of information described in Section A on the following:

(1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
