

causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires that OSHA obtain such information with minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of effort in obtaining information (29 U.S.C. 657).

The following sections describe who uses the information collected under each requirement, as well as how they use it.

The EtO Standard (29 CFR 1910.1047) specifies a number of paperwork requirements. The following is a brief description of the collection of information requirements contained in the standard.

The information collection requirements specified in the EtO Standard protect workers from the adverse health effects that may result from occupational exposure to ethylene oxide. The principal information collection requirements in the EtO Standard include conducting worker exposure monitoring, notifying workers of the exposure, implementing a written compliance program, and implementing medical surveillance of workers. Also, the examining physician must provide specific information to ensure that workers receive a copy of their medical examination results. The employer must maintain exposure-monitoring and medical records for specific periods, and provide access to these records by OSHA, the National Institute for Occupational Safety and Health (NIOSH), the affected workers, and their authorized representatives and other designated parties.

## II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the agency's functions to protect workers, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection, and transmission techniques.

## III. Proposed Actions

There is an overall adjustment decrease in burden hours for this ICR. The burden hours have decreased a total of 1,005 hours (from 31,257 hours to 30,252 hours). The adjusted decrease is primarily due to the estimated number of establishments covered by the standard.

OSHA will summarize the comments submitted in response to this notice and will include this summary in the request to OMB to extend the approval of the information collection requirements.

*Type of Review:* Extension of a currently approved collection.

*Title:* Ethylene Oxide Standard.

*OMB Control Number:* 1218–0108.

*Affected Public:* Business or other for-profits.

*Number of Respondents:* 2,026.

*Number of Responses:* 109,708.

*Frequency of Responses:* Initially, annually, on occasion.

*Average Time per Response:* Various.

*Estimated Total Burden Hours:* 30,252.

*Estimated Cost (Operation and Maintenance):* \$5,129,858.

## NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice: (23–082)]

### NASA Federal Advisory Committees; Notice of Establishment Pursuant to the Federal Advisory Committee Act

**AGENCY:** National Aeronautics and Space Administration.

The Administrator of the National Aeronautics and Space Administration (NASA) has determined that the establishment of the Biological and Physical Sciences Advisory Committee under the Federal Advisory Committee Act (FACA) is necessary and in the public interest in connection with the performance of duties imposed upon NASA by law. This determination follows consultation with the Committee Management Secretariat, General Services Administration.

*Name of Federal Advisory Committee:* Biological and Physical Sciences Advisory Committee.

*Purpose and Objectives:* This committee will advise NASA on scientific matters within the scope of its area of responsibility. Specifically, the scientific matters involve NASA research programs, policies, plans, and priorities pertaining to biological and physical sciences research. It will function solely as an advisory body and will comply fully with the provisions of FACA.

*Membership:* Membership of this committee and any subordinate groups formed under it shall consist of individual subject matter experts who will serve as Special Government Employees, Regular Government Employees, or Representatives. They

will be chosen from among academia, industry and government with demonstrated and well-recognized knowledge, expertise and experience in fields relevant to their respective scientific disciplines. The membership will be fairly balanced in terms of points of view represented and functions to be performed. Diversity shall be considered as well.

*Duration:* This is a discretionary committee and is envisioned to be continuing entity subject to charter renewals every two years.

*Responsible NASA Official:* Dr. Michael Robinson, Designated Federal Officer, Science Mission Directorate, NASA Headquarters, Washington, DC 20546.
