BILLING CODE 6717-01-P

FEDERAL ELECTION COMMISSION

Sunshine Act Meetings

TIME AND DATE: Thursday, August 10, 2023 at 10:30 a.m.

PLACE: Hybrid meeting: 1050 First Street NE, Washington, DC (12th floor) and virtual.

Note: For those attending the meeting in person, current COVID-19 safety protocols for visitors, which are based on the CDC COVID-19 hospital admission level in WASHINGTON, DC, will be updated on the Commission's contact page by the Monday before the meeting. See the contact page at <https://www.ferc.gov/contact/>. If you would like to virtually access the meeting, see the instructions below.

STATUS: this meeting will be open to the public, subject to the above-referenced guidance regarding the COVID-19 hospital admission level and corresponding health and safety procedures. To access the meeting virtually, go to the Commission's website www.ferc.gov and click on the banner to be taken to the meeting page.

MATTERS TO BE CONSIDERED:

REG 2023-02 (Use of Artificial Intelligence in Campaign Ads): Draft Notification of Availability Proposed Final Audit Report on Communications Workers of America—COPE Political Contributions Committee (A21-09) Audit Division Recommendation Memorandum on Steve Daines for Montana (A21-04)

Audit Division Recommendation Memorandum on Citizens for Waters (A21-01) Draft Advisory Opinion 2023-05: Alamo PAC Management and Administrative Matters

CONTACT PERSON FOR MORE INFORMATION: Judith Ingram, Press Officer, Telephone: (202) 694-1220.

Individuals who plan to attend in person and who require special assistance, such as sign language interpretation or other reasonable accommodations, should contact Laura E. Sinram, Secretary and Clerk, at (202) 694-1040, at least 72 hours prior to the meeting date.

(Authority: Government in the Sunshine Act, 5 U.S.C. 552b)

Laura E. Sinram,
Secretary and Clerk of the Commission.

BILLING CODE P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Agency for Toxic Substances and Disease Registry

[30Day-23-0060]

Agency Forms Undergoing Paperwork Reduction Act Review

In accordance with the Paperwork Reduction Act of 1995, the Agency for Toxic Substances and Disease Registry (ATSDR) has submitted the information collection request titled Environmental Health and Land Reuse Certificate Training (formerly "Assessment of Environmental Health and Land Reuse Certification Training") to the Office of Management and Budget (OMB) for review and approval. ATSDR previously published a "Proposed Data Collection Submitted for Public Comment and Recommendations" notice on April 7, 2023, to obtain comments from the public and affected agencies. ATSDR received no comments related to the previous notice. This notice serves to allow an additional 30 days for public and affected agency comments.

ATSDR will accept all comments for this proposed information collection project. The Office of Management and Budget is particularly interested in comments that:

(a) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(b) Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(c) Enhance the quality, utility, and clarity of the information to be collected;

(d) Minimize the burden of the collection of information on those who are to respond, including, through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses; and

(e) Assess information collection costs.

To request additional information on the proposed project or to obtain a copy of the information collection plan and instruments, call (404) 639-7570. Comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function. Direct written comments and/or suggestions regarding the items contained in this notice to the Attention: CDC Desk Officer, Office of Management and Budget, 725 17th Street NW, Washington, DC 20503 or by fax to (202) 395-5806. Provide written comments within 30 days of notice publication.

Proposed Project

Environmental Health and Land Reuse Certificate Training (OMB Control No. 0923-0060)—Reinstatement with Change—Agency for Toxic Substances and Disease Registry (ATSDR).

Background and Brief Description

The Agency for Toxic Substances and Disease Registry (ATSDR) is requesting a three-year Paperwork Reduction Act (PRA) clearance for a Reinstatement with Change information collection request (ICR) titled Environmental Health and Land Reuse Certificate Training (formerly Assessment of Environmental Health and Land Reuse Certification Training) (OMB Control No. 0923-0060).

This certificate program is a collaboration between ATSDR and the National Environmental Health Association (NEHA) under a cooperative agreement. ATSDR and NEHA have a long-standing partnership to build capacity among environmental professionals. The EHLR certification is geared toward NEHA members and

ATSDR stakeholders who are environmental professionals, primarily local and state health agency employees but also planners, environmental consultants, environmental non-profits, and students in environmental science, environmental/public health, and planning. The certification goals and course objectives are:

- To increase participant awareness and knowledge of environmental health and land reuse;
- To increase skills and capacity of participants to engage in environmental health and land reuse work; and
- To assess participant feedback and assessment of their own increased awareness, skills, and knowledge in environmental health and land reuse.

Due to the prevalence of potentially contaminated land reuse sites such as brownfields, the certificate program and training modules focus on increasing skills in land reuse and redevelopment through the integration of epidemiology, risk assessment, risk communication, and toxicology concepts and resources.

The Environmental Health and Land Reuse (EHLR) certificate training includes a 5-module “EHLR Basic” training. The EHLR Basic certificate is offered in two modes. NEHA independently maintains its non-federally sponsored, asynchronous “EHLR Basic” training through its online learning management system (LMS). ATSDR’s National Land Reuse Health Program (Land Reuse Program) maintains its classroom version of the training for learners who prefer virtual/classroom instruction or who may have limited broadband.

Under the previous PRA clearance, ATSDR completed a one-time collection of feedback by survey within 6–12 months after participation. This follow-up survey evaluated the subsequent use of the EHLR Basic certificate program training materials and resources to build capacity and skills in environmental health and land reuse work. Under this current Reinstatement with Change ICR, the follow-up survey is no longer needed because the EHLR Basic training course content has been successfully established based on the feedback. In addition, the EHLR Basic training was to be administered under the CDC Training and Continuing Education Online (TCEO) system (see “Application for Training” [OMB Control No. 0920-0017; Expiration Date 09/30/2025]). ATSDR has moved away from TCEO and will administer its own classroom courses.

Based on its experience in the past 30 months, ATSDR estimates approximately 100 participants per year will attend “EHLR Basic” classroom learning. For burden hour estimation,

we assume that all participants have completed all modules and self-assessments. In reality, participants who download the “EHLR Basic” course and teach it (e.g., in a college or workplace class) or complete it themselves, may complete these modules on a schedule spread over several months or over more than one year.

For the “EHLR Basic” course, ATSDR will administer the following self-assessments for each of the five modules: Engaging with Your Community, Evaluating Environmental and Health Risks, Communicating Environmental and Health Risks to the Community, Redesigning with Health in Mind, and Measuring Success. NEHA will assist ATSDR by issuing certificates of completion and continuing education credits.

ATSDR is also planning a new mode of instruction for supplemental “EHLR Immersion Training” in three new modules: Community Engagement, Evaluation of Environmental and Health Risks, and Communicating Environmental and Health Risks. This training will be offered as a face-to-face session at environmental conferences to those who have completed the prerequisite EHLR online or classroom certification. Regarding the supplemental immersion training, ATSDR estimates that 125 conference attendees will meet the prerequisite “EHLR Basic” certification requirement and will register for the training through the conference portal. They will be asked to complete a voluntary self-assessment for each module. An additional certificate of completion and continuing education credits will be issued by NEHA for each of the three supplemental immersion trainings.

For both “EHLR Basic” classroom and “EHLR Immersion” conference training, ATSDR estimates a total of 225 registered participants. Some of the registrations will be through conference registration portals and some may be directly with ATSDR. We estimate the time burden per registration will be three minutes. In keeping with Privacy Act requirements, participants will be offered the ability to opt-out of allowing ATSDR to share their names and email addresses with NEHA. Those that opt-out may still take the training but will not receive a completion certificate or continuing education credits. We anticipate this will be a rare event but are still accounting for this possibility.

Participation in this information collection is voluntary. The total time burden is estimated to be 145 hours, which is an increase of 78 hours over the previously approved 67 hours. The addition of registration and self-

assessment forms and the discontinuation of the follow-up survey under the previous ICR, will result in

1,600 annual responses, which is an increase of 1,400 over the previously approved 200 responses for the follow-

up survey alone. There is no cost to respondents other than their time.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondent	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)
Environmental Health Professionals and Affiliates.	EHLR Registration Form (Basic/Immersion) (online)	225	1	3/60
	EHLR Privacy Act Opt-Out Form (Basic/Immersion)	11	1	1/60
	EHLR Basic Course Module 1 Self-assessment (online)	100	1	5/60
	EHLR Basic Course Module 2 Self-assessment (online)	100	1	5/60
	EHLR Basic Course Module 3 Self-assessment (online)	100	1	5/60
	EHLR Basic Course Module 4 Self-assessment (online)	100	1	5/60
	EHLR Basic Course Module 5 Self-assessment (online)	100	1	5/60
	EHLR Immersion Module 1 Self-assessment (online)	125	1	15/60
	EHLR Immersion Module 2 Self-assessment (online)	125	1	15/60
	EHLR Immersion Module 3 Self-assessment (online)	125	1	15/60

Jeffrey M. Zirger,

Lead, Information Collection Review Office, Office of Public Health Ethics and Regulations, Office of Science, Centers for Disease Control and Prevention.

BILLING CODE 4163-18-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[60Day-23-23HD; Docket No. CDC-2023-0067]

Proposed Data Collection Submitted for Public Comment and Recommendations

AGENCY: Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Notice with comment period.

SUMMARY: The Centers for Disease Control and Prevention (CDC), as part of its continuing effort to reduce public burden and maximize the utility of government information, invites the general public and other Federal agencies the opportunity to comment on a proposed information collection, as required by the Paperwork Reduction Act of 1995. This notice invites comment on a proposed information collection project titled Exposures, Health Effects, and Controls of Chemicals from Thermal Spray Coating. The purpose of the proposed data collection is to conduct a survey of thermal spray coating facilities to better understand work practices and controls related to metals, particles, and gases generated during thermal spray coating and to identify areas for potential intervention.

DATES: CDC must receive written comments on or before October 6, 2023.

ADDRESSES: You may submit comments, identified by Docket No. CDC-2023-0067 by either of the following methods:

- *Federal eRulemaking Portal:* www.regulations.gov. Follow the instructions for submitting comments.
- *Mail:* Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE, MS H21-8, Atlanta, Georgia 30329.

Instructions: All submissions received must include the agency name and Docket Number. CDC will post, without change, all relevant comments to www.regulations.gov.

Please note: Submit all comments through the Federal eRulemaking portal (www.regulations.gov) or by U.S. mail to the address listed above.

FOR FURTHER INFORMATION CONTACT: To request more information on the proposed project or to obtain a copy of the information collection plan and instruments, contact Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE, MS H21-8, Atlanta, Georgia 30329; Telephone: 404-639-7570; Email: omb@cdc.gov.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501-3520), Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. In addition, the PRA also requires Federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each new proposed collection, each proposed extension of existing collection of information, and each reinstatement of

previously approved information collection before submitting the collection to the OMB for approval. To comply with this requirement, we are publishing this notice of a proposed data collection as described below.

The OMB is particularly interested in comments that will help:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

3. Enhance the quality, utility, and clarity of the information to be collected;

4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses; and

5. Assess information collection costs.

Proposed Project

Exposures, health effects, and controls of chemicals from thermal spray coating—New—National Institute for Occupational Safety and Health (NIOSH), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

Thermal spray coating (TSC) is a surface treatment process that enables
