The Commission's Rules of Practice and Procedure require all intervenors filing documents with the Commission to serve a copy of that document on each person whose name appears on the official service list for the project. Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

k. *Description of Request:* On December 3, 2021, the licensee determined it no longer wanted to pursue relicensing of the project and no responses were received on the Commission's December 21, 2021, notice soliciting notices of intent and pre-application documents from other potential applicants. On June 29, 2023, the licensee filed an application to surrender the license. The licensee proposes to leave the facilities in place, including the project dam, power tunnel, powerhouse, and associated facilities. The power canal would be drained and sealed at both ends and the project would be disconnected from the power grid. No ground disturbing activities are proposed with surrender of the project license.
