SUPPLEMENTARY INFORMATION: The purpose of this Tribal Consultation is to allow the Department to learn more about the effects, benefits, and costs that may result from changing the definition of *public official* in 20 CFR part 603. This part applies to States and State UC agencies, as defined in § 603.2(f) and (g). The Department is exploring potential

rulemaking changes, to include expanding the definition of *public official* to include Tribal Officials, as well as other potential changes. The Department wants to explore the implications for federally recognized Indian tribes as the Department determines the most appropriate changes to propose. The Department has issued a Request for Information (RFI) that was published in the **Federal Register** on July 25, 2023 (88 FR 47829) as part of its pre-rulemaking activities.

The Department, through this initial Tribal Consultation, is initiating the Tribal Consultation process by announcing the publication of an RFI regarding the Federal UC law concerning confidentiality and disclosure of UC information. In addition, Executive Order 13175, Consultation and Coordination with Indian Tribal Governments (65 FR 67249), and the Department's Tribal Consultation Policy (77 FR 71833) require the Department to solicit input from Tribal officials in the development of Federal policies that have Tribal implications. Accordingly, this Tribal Consultation seeks to provide Tribes with an opportunity to provide input as the Department explores the effects, benefits, and costs of a potential change and/or modification to the definition of a *public official* in § 603.2(d), which could have implications for all federally recognized Indian tribes.

Brent Parton,

Principal Deputy Assistant Secretary for Employment and Training, Labor.

[Docket No. OSHA–2014–0022]

Nucor Steel Connecticut Incorporated; Revocation of Permanent Variance

AGENCY: Occupational Safety and Health Administration (OSHA), Labor.

ACTION: Notice.

SUMMARY: In this notice, OSHA announces the revocation of the April 8, 2016, permanent variance granted to Nucor Steel Connecticut Incorporated (NSCI), from certain provisions of OSHA's standard that regulates the control of hazardous energy (lockout/tagout).

DATES: The revocation of the permanent variance specified by this notice becomes effective on August 9, 2023.

FOR FURTHER INFORMATION CONTACT: Information regarding this notice is available from the following sources:

Press inquiries: Contact Mr. Frank Meilinger, Director, OSHA Office of Communications, U.S. Department of Labor; telephone: (202) 693–1999; email: meilinger.francis@dol.gov.

General and technical information: Contact Mr. Kevin Robinson, Director, Office of Technical Programs and Coordination Activities, Directorate of Technical Support and Emergency Management, Occupational Safety and Health Administration, U.S. Department of Labor; telephone: (202) 693–2110; email: robinson.kevin@dol.gov.

SUPPLEMENTARY INFORMATION:

I. Notice of Revocation of Permanent Variance

On April 8, 2016, OSHA granted NSCI a Permanent Variance (81 FR 20680), which permitted NSCI to comply with alternative conditions instead of complying with certain requirements of OSHA's standard for control of hazardous energy, 29 CFR 1910.147. NSCI notified OSHA by letter dated May 12, 2023 (OSHA–2014–0022–014), that they are no longer performing the work activity described in the permanent variance, and for this reason, are requesting revocation of the permanent variance. NSCI's letter states that no employee at NSCI is performing the activity at issue in the variance and NSCI does not anticipate any employee ever performing this task again. NSCI has certified that they informed affected employees of the requested revocation of the permanent variance by posting a copy of the request letter in the location where notices to employees are normally posted.

Because NSCI has ceased performing the work activity addressed in the permanent variance, OSHA hereby revokes the permanent variance granted to NSCI on April 8, 2016 (86 FR 5253). From the date of publication of this notice, NSCI may no longer utilize the alternative control methods described in the permanent variance and need not comply with any alternative conditions described therein. NSCI must instead comply with all provisions of the control of hazardous energy (lockout/tagout) standard, 29 CFR 1910.147, wherever applicable.

Signed at Washington, DC, on August 3, 2023.
