requirements, and deadlines set out in §§ 2.816, 2.817, and 2.819 through 2.821 apply to appeals to the AS–IA under this subpart. Submit your Appeal to: U.S. Department of the Interior, Office of the Assistant Secretary—Indian Affairs, MS 4660, 1849 C Street NW, Washington, DC 20240, as provided in § 2.214.

§ 2.825 When does the Statement of Performance or a Decision become final?

(a) Statements of Performance, and decisions rendered by Department officials under this subpart, are final when the deadline for submitting an Objection to the Statement of Performance or an Appeal has expired and the account holder has not submitted an Objection to the Statement of Performance or an Appeal.

(b) A decision rendered by the AS–IA is a final agency action.

Subpart I—Alternative Dispute Resolution

§ 2.900 Is there a procedure other than a formal appeal for resolving disputes?

Yes. We strongly encourage parties to work together to reach a consensual resolution of disputes whenever possible. Use of an alternative approach to dispute resolution can save time and money, produce more durable and creative solutions, and foster improved relationships. It may be appropriate and beneficial to consider the use of alternative dispute resolution (ADR) processes and techniques at any stage in a dispute. The parties may request information from the decision-maker on the use of an ADR process.

§ 2.901 How do I request alternative dispute resolution?

If you are interested in pursuing alternative dispute resolution, you may contact the reviewing official to make a request to use ADR for a particular issue or dispute.

§ 2.902 When do I initiate alternative dispute resolution?

We will consider a request to use alternative dispute resolution at any time. If you file a Notice of Appeal, you may request the opportunity to use a consensual form of dispute resolution.

§ 2.903 What will Indian Affairs do if I request alternative dispute resolution?

If all interested parties concur, the reviewing official may stay (discontinue consideration of) the appeal while the parties pursue ADR. Where the parties agree to use ADR, Indian Affairs and other interested parties may seek assistance from the Department of the Interior's Office of Collaborative Action

and Dispute Resolution (CADR). CADR can assist in planning and facilitating an effective collaboration or dispute resolution process. Parties are encouraged to consider best practices for engagement, including but not limited to, the use of neutral facilitation and other collaborative problem-solving approaches to promote effective dialogue and conflict resolution.

Electronic Provision of Records During an Audit

AGENCY: Office of Natural Resources Revenue ("ONRR"), Interior.

ACTION: Final rule.

SUMMARY: ONRR is amending its regulations to allow ONRR and other authorized Department of the Interior ("Department") representatives the option to require that an auditee use electronic means to provide records requested during an audit of an auditee's royalty reporting and payment. DATES: This final rule is effective 30 days from the date of publication in the Federal Register.

SUPPLEMENTARY INFORMATION:

I. Explanation of Final Rulemaking

ONRR is responsible for the efficient, timely, and accurate collection and disbursement of revenue originating from the leasing and production of natural resources and energy, including oil, gas, coal, geothermal and other solid minerals, from Federal and Indian lands. See 30 U.S.C. 1711; Sec. Order. 3299, as amended; U.S. Department of the Interior Departmental Manual, 112 DM 34 (Dec. 9, 2020). To verify that lessees and other persons accurately report and pay royalties and other amounts due, ONRR audits royalty and

other reporting and payment. 30 U.S.C. 1711(c).

Various sections of ONRR's regulations, which were adopted in accordance with the Congressional directive found in 30 U.S.C. 1711(a), provide for audits by ONRR and other Department representatives. These sections include:

- (1) 30 CFR 1206.250(c), which addresses audits for Federal coal leases.
- (2) 30 CFR 1206.350(b), which addresses audits for Federal geothermal leases.
- (3) 30 CFR 1206.450(c), which addresses audits for Indian coal leases.
- (4) 30 CFR 1208.15, which addresses audits for Federal royalty oil taken in kind.
- (5) 30 CFR 1217.50, which addresses audits for Federal and Indian oil and gas leases.
- (6) 30 CFR 1217.300, which addresses audits for Federal geothermal leases.
- (7) 30 CFR 1220.033(e), which addresses audits for oil and gas net profit share leases.

States or Indian Tribes sometimes perform the audits authorized by these sections under delegations or cooperative agreements with ONRR. *See* 30 U.S.C. 1732 and 1735; 30 CFR parts 1227 and 1228.

Congress and the President mandate that Federal agencies use new technologies to improve Government operations. For example, the Paperwork Reduction Act of 1995, Public Law 104-13, and the Information Technology Management Reform Act of 1996, Public Law 104-106, authorize the use of new technologies to improve the productivity, efficiency, and effectiveness of Government programs. See 44 U.S.C. 3501(10), 44 U.S.C. 3504(a)(1)(B)(vi) and (h), 40 U.S.C. parts 11302 and 11303. In addition, the Office of Management and Budget ("OMB") issued a memorandum on June 28, 2019, entitled "Transition to Electronic Records" (M-19-21), directing Federal agencies to ensure that all Federal records are created, retained, and managed in electronic formats, with appropriate metadata.

To meet these Federal mandates and to take advantage of rapidly improving technologies for the electronic transmission and storage of records, ONRR is amending its regulations to allow ONRR and other Department representatives the option to require that records be provided for an audit by secure electronic means. Because this amendment applies to all oil, gas, geothermal, coal, and other solid mineral royalty audits performed by ONRR or other Department representatives, this final rule:

(1) Adds a new section, 30 CFR 1217.10, under the general provisions to 30 CFR part 1217—Audits and Inspections, to specify the methods by which ONRR or other Department representatives can require an auditee to provide records during an audit.

(2) Adds references to Part 1217 in §§ 1206.250(c), 1206.350(b), 1206.450(c), 1208.15, and 1220.033(e) to clarify that ONRR or an authorized State or Tribe may require an audite to provide records for an audit by one or more of the methods specified in the new 30 CFR 1217.10.

Auditees keep most, if not all, records for natural resources revenue reporting and payment in electronic format and generally prefer, when under audit, to provide the records electronically. For records that an auditee maintains only in electronic form, the electronic production and transmission of these records for an audit avoids printing and other costs of submitting records in paper form. For records an auditee maintains in paper form, technologies exist to readily allow for the conversion of these records to electronic form when needed for an audit. Providing records electronically helps avoid administrative costs and expenses to the Department and auditees for preparing, submitting, processing, and preserving paper records. ONRR or other Department representatives will still sometimes need to inspect paper records or to conduct an entrance or other conference at an auditee's business location. However, the option to require that records be produced and transmitted electronically should shorten or possibly eliminate onsite audit activities in appropriate situations. It will also help ONRR and auditees to better navigate disruptive events that may make onsite inspection of records more burdensome, impractical, or unavailable.

ÔNRR regulations specifically provide that information that "constitutes trade secrets or commercial or financial information that is identified as privileged or confidential, or that is exempt from disclosure under the Freedom of Information Act, 5 U.S.C. 552, shall not be available for inspection or made public or disclosed without the consent of the lessee, except as provided by law or regulation." 30 CFR 1210.207. To preserve the confidentiality of records produced electronically for use in an audit, this final rule allows Department representatives the option to require that records be provided electronically only by means which are secure. A secure means of transmission involves the use of password protection, encryption, or other security measures,

to prevent unauthorized access to the transmission by a third-party. The Department maintains computer systems and updates or replaces software as technology changes, which allows auditees to securely transmit records for an audit. When requesting electronic production and transmission of records, a Department representative will specify the format in which the records are to be transmitted electronically and provide instructions for submitting the records securely. Factors that contribute to what ONRR or a Department representative consider acceptable include the availability and completeness of documentation and the availability of applications that can interpret it.

ONRR published the Electronic Provision of Records During an Audit proposed rule on September 16, 2022 (87 FR 59350). During the proposed rule's 60-day comment period, ONRR received one comment. The commentor stated support for initiatives and technologies to improve government operations. ONRR appreciates the commentor's support for this rulemaking. ONRR received no other comments on the proposed rule.

Following the proposed rule's publication, ONRR published a final rule to amend its regulations pertaining to Federal and Indian coal valuation. (88 FR 47003). Because that final rule amended the paragraph structure in two sections covered by this rulemaking, ONRR revised the amendatory instructions in this final rule from what it had provided in the proposed rule. Specifically, this final rule revises §§ 1206.250(c) and 1206.450(c) in the same manner ONRR's proposed rule had proposed to revise §§ 1206.250(d) and 1206.450(d).

This final rule is published pursuant to authority delegated to ONRR by the Secretary of the Interior. *See* 30 U.S.C. 189; 30 U.S.C. 1751; 43 U.S.C. 1334; 30 U.S.C. 1023; Secretary's Order 3299, sec. 5; and Secretary's Order 3306, sec. 3–4.

II. Procedural Matters

A. Regulatory Planning and Review (Executive Orders 12866, 13563 and 14094)

Executive Order 14094 reaffirms the principles of E.O. 12866 and E.O. 13563 and states that regulatory analysis should facilitate agency efforts to develop regulations that serve the public interest, advance statutory objectives, and are consistent with E.O. 12866, E.O. 13563, and the Presidential Memorandum of January 20, 2021 (Modernizing Regulatory Review). Regulatory analysis, as practicable and

appropriate, shall recognize distributive impacts and equity, to the extent permitted by law. E.O. 13563 emphasizes further that regulations must be based on the best available science and that the rulemaking process must allow for public participation and an open exchange of ideas. ONRR developed this final rule in a manner consistent with these requirements.

E.O. 12866, as reaffirmed by E.O. 13563 and E.O. 14094, provides that the Office of Information and Regulatory Affairs (OIRA) in the Office of Management and Budget (OMB) will review all significant rules. OIRA has determined that this rule is not significant.

B. Regulatory Flexibility Act

ONRR certifies that promulgation of this final rule will not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act (RFA), 5 U.S.C. 601 et seq. because it only requires auditees—when the Department requests—to provide records and files electronically that they are otherwise required to provide in hard copy at their business premises.

C. Congressional Review Act

This final rule is not a major rule under 5 U.S.C. 804(2), the Congressional Review Act.

This final rule:

- (1) Does not have an annual effect on the economy of \$100 million or more.
- (2) Will not cause a major increase in costs or prices for consumers; individual industries; or geographic regions.
- (3) Does not have significant adverse effects on competition, employment, investment, productivity, innovation, or the ability of United States-based enterprises to compete with foreign-based enterprises.

D. Unfunded Mandates Reform Act

This final rule does not impose an unfunded mandate on State, local, or Tribal Governments or the private sector of more than \$100 million per year. This final rule does not have a significant or unique effect on State, local, or Tribal Governments or the private sector. Therefore, ONRR is not required to provide a statement pursuant to the Unfunded Mandates Reform Act (2 U.S.C. 1531 et seq.).

E. Takings (E.O. 12630)

Under the criteria in section 2 of E.O. 12630, this final rule does not have any significant takings implications. This final rule does not impose conditions or limitations on the use of any private

property because the rule only amends how a lessee, operator, payor, and other person must produce and transmit records upon request. This final rule does not require a takings implication assessment.

F. Federalism (E.O. 13132)

Under the criteria in section 1 of E.O. 13132, this final rule does not have sufficient federalism implications to warrant the preparation of a federalism summary impact statement. This final rule does not impose administrative costs on States or local Governments or substantially and directly affect the relationship between the Federal and State Governments. Thus, a federalism summary impact statement is not required.

G. Civil Justice Reform (E.O. 12988)

This final rule complies with the requirements of E.O. 12988. Specifically, the final rule:

- (1) Meets the criteria of Section 3(a), which requires that ONRR review all regulations to eliminate errors and ambiguity in order to minimize litigation.
- (2) Meets the criteria of Section 3(b)(2), which requires that all regulations be written in clear language using clear legal standards.

H. Consultation With Indian Tribal Governments (E.O. 13175)

ONRR strives to strengthen its government-to-government relationship with Indian Tribes through a commitment to consultation with Indian Tribes and in recognition of their right to self-governance and Tribal sovereignty. ONRR evaluated this final rule and the criteria in E.O. 13175 and determined that the final rule will not have substantial direct effects on Federally recognized Indian Tribes. Thus, consultation under ONRR's Tribal consultation policy is not required.

I. Paperwork Reduction Act

This final rule does not contain any new information collection requirements or meet the definition of "collection of information" under 44 U.S.C. 3502(3). A submission to OMB under the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*) is not required.

J. National Environmental Policy Act

This final rule does not constitute a major Federal action significantly affecting the quality of the human environment. A detailed statement under the National Environmental Policy Act of 1969 ("NEPA") is not required because the final rule is categorically excluded. See 43 CFR

46.210(i) and the Department's Departmental Manual, Part 516, section 15.4.D. ONRR has determined that this final rule is not involved in any of the extraordinary circumstances under 43 CFR 46.215 that require further analysis under NEPA. The procedural changes resulting from these amendments have no consequence with respect to the physical environment. This final rule will not alter in any material way natural resource exploration, production, or transportation.

K. Effects on the Energy Supply (E.O. 13211)

This final rule is not a significant energy action under the definition in E.O. 13211 and, therefore does not require a Statement of Energy Effects.

L. Clarity of This Regulation

ONRR is required by E.O. 12866 (section 1(b)(12)), E.O. 12988 (section 3(b)(1)(B)), and E.O. 13563 (section 1(a)), and by the Presidential Memorandum of June 1, 1998, to write all rules in plain language. This means that each rule ONRR publishes must:

- (1) Be logically organized.
- (2) Use the active voice to address readers directly.
- (3) Use common, everyday words and clear language rather than jargon.
- (4) Be divided into short sections and sentences.
- (5) Use lists and tables wherever possible.

If you feel that ONRR has not met these requirements, send your comments to ONRR_RegulationsMailbox@onrr.gov. To better help ONRR revise this final rule, your remarks should be as specific as possible. For example, you should tell ONRR the numbers of the sections or paragraphs that are not clearly written, which sections or sentences are too long, the sections where you feel lists or tables would be useful, etc.

[EPA-R10-OAR-2022-0893, FRL-10419-02-R10]

Air Plan Approval; AK; Revisions to Ice Fog and Sulfur Dioxide Regulations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is approving a revision to the Alaska State Implementation Plan (SIP) submitted on May 16, 2022. In the submission, Alaska revised and repealed State regulations originally put in place to limit water vapor emissions that may contribute to ice fog and to address the use of high-sulfur marine fuels near the communities of St. Paul Island and Unalaska. Alaska determined that the regulations are obsolete due to technology improvements and

regulatory changes, including Federal sulfur content in fuel restrictions. The State requested that the SIP be updated to reflect the revised and repealed State regulations. We have determined the submitted revision will not interfere with attainment of the national ambient air quality standards or other applicable requirements of the Clean Air Act.

DATES: This final rule is effective September 8, 2023.

ADDRESSES: The EPA has established a docket for this action under Docket ID No. EPA-R10-OAR-2022-0893. All documents in the docket are listed on the https://www.regulations.gov website. I. Background

On May 16, 2022, Alaska submitted a SIP revision to the EPA. In the submission, the State revised and repealed certain air quality regulations and requested to update the federally approved SIP.¹ On May 24, 2023, we proposed to approve the submission (88 FR 33555). The reasons for our proposed approval are included in the proposal and will not be restated here. The public comment period closed on June 23, 2023. We received no comments on our proposed action and therefore we are finalizing our action as proposed.

¹The submission also updated the State's adoption by reference of Federal air quality standards and test methods codified at 18 Alaska Administrative Code (AAC) 50.035 and 18 AAC 50.040. We approved these adoption updates in a separate action on March 22, 2023 (88 FR 17159).
