

2023, and issuance of the final environmental impact statement is scheduled for spring of 2024, with a Record of Decision issued soon thereafter.

Public Scoping Process

This notice of intent initiates the scoping process, which helps guide the development of the EIS. NMFS is hosting public webinars for informational purposes within the scoping period. Information on the webinar dates and times, and instructions for connecting or calling into the webinar will be posted at: <https://www.fisheries.noaa.gov/action/review-prey-increase-program-southern-resident-killer-whales>. Accommodations for persons with disabilities are available; accommodation requests should be directed to Lance Kruzic (see **FOR FURTHER INFORMATION CONTACT**) at least 10 working days prior to the webinar.

Public comments will not be accepted during the webinars.

Request for Identification of Potential Alternatives, Information, and Analyses Relevant to the Proposed Action

The primary purpose of the scoping process is for the public to assist NMFS in developing the EIS. NMFS requests that the comments be specific. In particular, we request information regarding: any science that would be relevant in this assessment; significant issues; identification of impacts of concern; review and input regarding monitoring; possible alternatives that meet the purpose and need; effects or impacts to the human environment from the proposed action or alternatives.

Decision Maker

Regional Administrator for the West Coast Region, NMFS.

Nature of Decision To Be Made

If after publication of the Record of Decision, we determine that all requirements are met for NMFS' NEPA and ESA responsibilities, we may continue to provide funding for the production of additional prey for SRKWs.

Authority: 42 U.S.C. 4321 *et seq.*; 40 CFR parts 1500–1508; and Companion Manual for NOAA Administrative Order 216–6A, 82 FR 4306.

Dated: August 7, 2023.

Angela Somma,

Chief, Endangered Species Division, Office of Protected Resources, National Marine Fisheries Service.

Request for Information; Data for Marine Spatial Studies in Puerto Rico and the U.S. Virgin Islands

AGENCY: National Marine Fisheries Service (NMFS), National Ocean Service (NOS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; request for information.

SUMMARY: NOAA's National Ocean Service (NOS), National Centers for Coastal Ocean Science (NCCOS) in partnership with the NOAA National Marine Fisheries Service (NMFS), Southeast Fisheries Science Center (SEFSC) and Southeast Regional Office (SERO), hereafter NOAA, are working to build spatial science capacity in the U.S. Caribbean Region. Through this Request for Information, we are seeking public input to identify coastal and marine spatial data or other critical information to inform marine spatial analyses. Additionally, we are seeking feedback on data shortcomings and gaps that should be addressed prior to commencing marine spatial studies. The input we receive from meetings, as well as the responses to the items listed in the **SUPPLEMENTARY INFORMATION** section of this document, will be used to inform potential coastal and ocean development activities in Puerto Rico and the U.S. Virgin Islands (USVI), such as development of renewable energy facilities, aquaculture, and other blue economy sectors.

DATES: Interested persons are invited to provide input in response to this Request for Information through September 30, 2023. Late-filed input will be considered to the extent practicable.

Verbal input will be accepted during two public meetings to be held in St. Croix, USVI on August 28–29 and in San Juan, Puerto Rico on August 31–September 1.

ADDRESSES: Interested persons are invited to provide input using one of the following methods:

Electronic Submission: Submit electronic written public comments via the Federal e-Rulemaking Portal. Go to <https://www.regulations.gov> and enter NOAA–NMFS–2023–0097 in the Search box. Click on the “Comment” icon, complete the required fields, and enter or attach your comments. All comments received are a part of the public record

and will generally be posted for public viewing on <https://www.regulations.gov> without change. All personal identifying information (e.g., name, address, etc.), confidential business information, or otherwise sensitive information submitted voluntarily by the sender will be publicly accessible. NOAA will accept anonymous comments (enter “N/A” in the required fields if you wish to remain anonymous).

Verbal submission: NOAA will accept verbal input at two meetings. The first meeting will be held at The Buccaneer Resort in St. Croix, USVI on Monday August 28, 2023 from 8:30am to 5:00pm (AST) and Tuesday, August 29, 2023 from 8:30am to 12:00pm (AST). There will be a registration window from 8:30am to 9:00am (AST) each day before the start of the meeting. The second meeting will be held at the Courtyard Marriott Isla Verde Beach Resort in San Juan, Puerto Rico on Thursday, August 31, 2023 from 8:30am to 5:00pm (AST) and Friday, September 1, 2023 from 8:30am to 12:00pm (AST). There will be a registration window from 8:30am to 9:00am (AST) each day before the start of the meeting. Simultaneous language interpretation in English and Spanish will be provided in the Puerto Rico meetings. Advanced registration is requested for the meetings by completing the registration form at <https://docs.google.com/forms/d/e/1FAIpQLSf1B1QOXhd7EJEDflyok-ATW4ZGLHRloJLSzcntmopDjh86A/viewform?usp=sf> link or by providing an RSVP to Erica Rule at erica.rule@noaa.gov. The registration deadline is Monday, August 21, 2023.

Reports of meeting results will also be published and made available to the public in the weeks following the meetings. If you are unable to provide electronic written comments or participate in the meetings, please contact Jennifer Wright at jennifer.wright@noaa.gov or (252)418–1308 for alternative submission methods.

FOR FURTHER INFORMATION CONTACT: James Morris (james.morris@noaa.gov), (252)666–7433.

SUPPLEMENTARY INFORMATION:

Background

NOAA is an agency of the United States Federal government that works to conserve and manage coastal and marine ecosystems and resources. We work to make fisheries sustainable and productive, provide safe seafood to consumers, conserve threatened and endangered species and other protected resources, and maintain healthy ecosystems. NOAA has jurisdiction and

responsibility for its trust marine resources in the U.S. Caribbean as well as significant interest in supporting the resilience of coastal and marine-dependent communities in the Territories, and promoting equity and environmental justice. For these reasons, is it important for NOAA to invest in research that informs marine spatial studies in the Caribbean region, including socioeconomic research that ensures meaningful participation of Caribbean communities and supports equitable processes for planning and siting of new and existing marine industries and conservation areas.

NOAA has recently been involved in planning for the expansion of offshore aquaculture in U.S. Federal waters through the development of Aquaculture Opportunity Areas (<https://www.fisheries.noaa.gov/national/aquaculture/aquaculture-opportunity-areas>). NOAA has also been engaged with the Bureau of Ocean Energy Management (BOEM) to support siting and environmental review for offshore wind energy areas in U.S. Federal waters (<https://www.boem.gov/renewable-energy>) to ensure protection of trust resources in any offshore development activities.

Purpose of This Request for Information

The purpose of this Request for Information is to promote data development to inform marine spatial studies in Puerto Rico and the USVI, with an emphasis on data needs for offshore wind energy and aquaculture development. In addition to input received from the public through the electronic and verbal submissions, NOAA aims to inform the public about its coastal and ocean planning processes and capabilities, discuss the current data available for each ocean sector (e.g., military, fisheries, industry, natural resources), and gather ideas for other data sources. NOAA hopes to come out of the meetings with a strengthened relationship with the public and a list of data gaps and needs to pursue going forward.

Specific Information Requested To Inform Marine Spatial Studies in Puerto Rico and USVI

Through this Request for Information, NOAA seeks written public input to inform the marine spatial studies in Puerto Rico and USVI. NOAA is particularly interested in receiving input concerning the items listed below. Responses to this Request for Information are voluntary, and respondents need not reply to items listed. When providing input, please

specify if you are providing general feedback on marine spatial studies and/or if you are responding to one of the specific item number(s) below:

(1) Specific datasets related to ocean sectors, natural resources, and/or human activities you recommend NOAA use in marine spatial studies.

(2) Major concerns you have related to use of any specific datasets that may be used in marine spatial studies.

(3) Major concerns you have related to the impacts of new marine industries on ecological systems in Puerto Rico and/or the USVI.

(4) Major concerns you have related to the impact of new marine industries on other ocean industries in Puerto Rico and/or the USVI.

(5) Major concerns you have related to gaps in scientific knowledge or data that could impact marine spatial study efforts.

(6) Specific data or information you recommend NOAA or other partners collect, if it is not currently available or has not been previously collected.

(7) Ways in which NOAA can better engage and collaborate with the public and Territorial communities to promote economic, social, and ecological resilience as well as protect trust resources.

Dated: August 4, 2023.

Samuel D Rauch, III,

Deputy Assistant Administrator for Regulatory Programs, National Marine Fisheries Service.

Notice of Availability of Draft Environmental Assessment on the Effects of Issuing an Incidental Take Permit No. 27106

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; availability of a Draft Environmental Assessment; request for comments.

SUMMARY: NMFS announces the availability of the Draft Environmental Assessment (EA) on the effects of issuing an Incidental Take Permit (ITP) (No. 27106) to North Carolina Department of Environment and Natural Resources, Division of Marine Fisheries (NCDMF), pursuant to the Endangered

Species Act (ESA) of 1973, as amended, for the incidental take of ESA-listed sea turtles and sturgeon associated with the otherwise lawful gill net fisheries operating in the inshore waters of North Carolina. The duration of the requested permit is 10 years. NMFS is requesting comment on the draft EA.

DATES: Written comments must be received at the appropriate address or fax number (see **ADDRESSES**) on or before September 11, 2023.

ADDRESSES: The EA is available for download and review at <https://www.fisheries.noaa.gov/national/endangered-species-conservation/incidental-take-permits> under the section heading Related Documents for the Incidental Take Permit to North Carolina Division of Marine Fisheries (Sea Turtles and Sturgeon). The draft EA is also available upon written request (see **FOR FURTHER INFORMATION CONTACT**).

You may submit comments on this document, identified by NOAA-NMFS-2023-0098, by any of the following methods:

- **Electronic Submission:** Submit all electronic public comments via the Federal e-Rulemaking Portal. Go to <https://www.regulations.gov> and enter NOAA-NMFS-2023-0098 in the Search box. Click on the "Comment" icon, complete the required fields, and enter or attach your comments.

Instructions: Comments sent by any other method, to any other address or individual, or received after the end of the comment period, may not be considered by NMFS. All comments received are a part of the public record and will generally be posted for public viewing on www.regulations.gov without change. All personal identifying information (e.g., name, address, etc.), confidential business information, or otherwise sensitive information submitted voluntarily by the sender will be publicly accessible. NMFS will accept anonymous comments (enter "N/A" in the required fields if you wish to remain anonymous).

FOR FURTHER INFORMATION CONTACT: Celeste Stout, NMFS, Office of Protected Resources at celeste.stout@noaa.gov, 301-427-8403; Wendy Piniak, NMFS, Office of Protected Resources at wendy.piniak@noaa.gov, 301-427-8402.

SUPPLEMENTARY INFORMATION: Publication of this notice begins the official public comment period for this draft EA. Per the National Environmental Policy Act (NEPA), the purpose of the draft EA is to evaluate the potential direct, indirect, and cumulative impacts caused by the issuance of Permit No. 27106 to NCDMF for the incidental take of ESA-listed sea
