RIN 1082–AA03

Reorganization of Title 30—Renewable Energy and Alternate Uses of Existing Facilities on the Outer Continental Shelf; Correction

AGENCY: Bureau of Safety and Environmental Enforcement (BSEE), Interior.

ACTION: Correcting amendment.

SUMMARY: BSEE is publishing a correcting amendment to substitute new Office of Management and Budget (OMB) Control Number 1014–0034 for the placeholder included in the Paperwork Reduction Act statements—information collection promulgated in the final rule.

DATES: This correcting amendment is effective on August 14, 2023.

FOR FURTHER INFORMATION CONTACT: Nikki Mason, Program Analyst, at regs@bsee.gov, 703–787–1607.

SUPPLEMENTARY INFORMATION: BSEE is publishing a correction to the final rule, *Reorganization of Title 30—Renewable Energy and Alternate Uses of Existing Facilities on the Outer Continental Shelf*, which published in the **Federal Register** on January 31, 2023 [88 FR 6376], to add the OMB control number to BSEE’s new § 285.114, *Paperwork Reduction Act statements—information collection*. Because the OMB control number could not be issued prior to publication of the final rule, BSEE included a placeholder for the control number at the relevant location in the regulation. OMB has since issued the control number, and this correction substitutes that number for the placeholder. Because this correction is clerical in nature only and does not impact the rights or interests of any party under the final rule, BSEE has good cause for not publishing this

correction for notification and public comment, since such a publication is unnecessary.

II. Background Information and Regulatory History

The Coast Guard is issuing this temporary rule without prior notice and opportunity to comment pursuant to authority under section 4(a) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). This provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are “impracticable, unnecessary, or contrary to the public interest.” Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing a notice of proposed rulemaking (NPRM) with respect to this rule because it is impracticable and contrary to the public interest. This safety zone must be established by August 23, 2023, to provide for the safety of life on the navigable waters during a floating lantern festival, and we lack sufficient time to provide a reasonable comment period and then consider those comments before issuing this rule. The NPRM process would delay the establishment of the safety zone until
