- Federal Acquisition Regulation (FAR) 52.204–2, *Security Requirements*
- FAR 52.204–9, *Personal Identity Verification of Contractor Personnel*
- Homeland Security Presidential Directive 12

This is a new information collection. DHS collects this information from the respondent, so Personnel Security entities can initiate the appropriate screening process for determining whether the respondent should be deemed fit to perform work under a contract for, or on behalf of DHS, and eligible for logical and/or physical access to DHS resources based on the risk levels of the designated position.

This information collection utilizes an automated technological solution (*i.e.*, Personnel Security Forms application) which negates the need for a paper-based DHS Form 11000 25, thereby reducing the burden on the respondent during the initiation phase of the contractor fitness screening process. After receiving an invitation to perform work under a contract, the respondent (*i.e.*, DHS contractor applicant) submits and verifies certain biographical information (*e.g.*, full name, position title, SSN, gender, date and place of birth, U.S. citizenship status, telephone number, and email address) through a public facing web portal. Once the information intake is complete, the Personnel Security Forms application produces an automated electronic version of the DHS Form 11000–25 for use by the appropriate Personnel Security entities to make a fitness determination.

This information collection does not have an impact on small businesses or other small entities.

The information collection for DHS Form 11000–25 is voluntary; however, failure to provide this information may delay or prevent an individual's fitness determination and eligibility for physical and logical access to federally controlled facilities or information systems.

There is no assurance of confidentiality provided to the respondents. Consistent with DHS' information sharing mission, all or a portion of the information collection may be disclosed outside DHS consistent with the routine uses set forth in Privacy Impact Assessment, *DHS/ALL/PIA-038, Integrated Security Management System (ISMS)*, and System of Record Notice, *DHS/ALL-023 Department of Homeland Personnel Security Management*.

This is a new collection.

The Office of Management and Budget is particularly interested in comments which:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
3. Enhance the quality, utility, and clarity of the information to be collected; and
4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submissions of responses.

In 2017, the Congress enacted the Indian Employment Training and Related Services Consolidation Act of 2017, Public Law 115-93, codified at 25 U.S.C. 3401-3417 (2017 Act). The 2017 Act update amended and expanded the Indian Employment and Related Services Demonstration Act of 1992, Public Law 102-477 (as amended in 2017, Public Law 477) by, in part, identifying 12 Federal agencies that are now subject to the amended law. Under Public Law 477, Tribes may propose to integrate eligible grant programs from the Departments of the Interior, Agriculture, Commerce, Education, Energy, Health & Human Services, Homeland Security, Housing & Urban Development, Justice, Labor, Transportation, and Veterans Affairs, consolidate and reprogram grant funds in accordance with a single plan, budget, and report approved by the Secretary of the Interior (477 Plan). As required by the 2017 updates to Public Law 477, the Department of the Interior entered into a Memorandum of Agreement (MOA) among the 12 Federal agencies to implement Public Law 477. Each of the 12 Federal agencies signed a renegotiated MOA in the fall of 2022.
