[Docket No. FWS–HQ–ES–2023–N021; FF09E42000–FXES111609BFEDR–234]

John H. Chafee Coastal Barrier Resources System; Availability of Final Revised Maps for Michigan, Minnesota, Mississippi, Ohio, South Carolina, Texas, and Wisconsin

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability.

SUMMARY: The Coastal Barrier Resources Act requires the Secretary of the Interior to review the maps of the John H. Chafee Coastal Barrier Resources System (CBRS) at least once every 5 years and make any minor and technical modifications to the boundaries of the CBRS as are necessary to reflect changes that have occurred in the size or location of any unit as a result of natural forces. We, the U.S. Fish and Wildlife Service, have conducted this review for all of the CBRS units in Michigan, Minnesota, Mississippi, North Carolina, Ohio, Texas, and Wisconsin, and 10 units in South Carolina. This notice announces the findings of our review and the availability of final revised maps for 116 CBRS units in the project area, except for the North Carolina units. We did not prepare final revised maps for the North Carolina units because sufficient data was not available in some areas.

DATES: Changes to the CBRS depicted on the final revised maps, dated December 30, 2022, become effective on August 16, 2023.

ADDRESSES: For information about how to get copies of the maps or where to go to view them, see the Availability of Final Maps and Related Information section.

FOR FURTHER INFORMATION CONTACT: Katie Niemi, Coastal Barriers Coordinator, via telephone at 703–358–2071 or email at CBRA@fws.gov. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. SUPPLEMENTARY INFORMATION:

Background and Methodology

Background information on the Coastal Barrier Resources Act (CBRA; 16 U.S.C. 3501 *et seq.*) and the John H. Chafee Coastal Barrier Resources System (CBRS), as well as information on the 5-year review effort and the methodology used to produce the revised maps, can be found in a notice the U.S. Fish and Wildlife Service (Service) published in the *Federal Register* on November 22, 2022 (87 FR 71352).

Announced Map Modifications

This notice announces modifications to the maps for several CBRS units in Michigan, Minnesota, Mississippi, Ohio, South Carolina, Texas, and Wisconsin. Most of the modifications were made to reflect changes to the CBRS units as a result of natural forces (*e.g.*, erosion and accretion). CBRA requires the Secretary of the Interior (Secretary) to review the maps of the CBRS at least once every 5 years and make, in consultation with the appropriate Federal, State, and local officials, such minor and technical modifications to the boundaries of the CBRS as are necessary solely to reflect changes that have occurred in the size or location of any unit as a result of natural forces (16 U.S.C. 3503(c)).

The Service's review resulted in a set of 118 final revised maps, dated December 30, 2022, depicting a total of 116 CBRS units. The set of maps includes:

- 36 maps for 46 CBRS units located in Michigan
- 1 map for 1 CBRS unit located in Minnesota
- 9 maps for 7 CBRS units located in Mississippi
- 7 maps for 10 CBRS units located in Ohio
- 7 maps for 10 CBRS units located in South Carolina
- 53 maps for 35 CBRS units located in Texas
- 5 maps for 7 CBRS units located in Wisconsin

The Service made modifications to a total of 18 CBRS units (of the 133 units reviewed) due to natural changes in their size or location since they were last mapped. No revised maps were prepared for the 17 North Carolina units that were included in our initial review. Because of ongoing geomorphic change in certain units and the need for additional data, the North Carolina units will be reviewed again in the future.
