

markets for consumer financial products and services. To improve its understanding of how consumers engage with financial markets, the CFPB has successfully used credit record data as a sampling frame to survey people about their experiences in consumer credit markets.

The CFPB now seeks to obtain approval for a new one-time survey of student loan borrowers to understand their borrowing decisions, their experience managing their loans, and their expectations for the future. The survey will be sent to a random sample selected from individuals in the CFPB's new Consumer Credit Information Panel (CCIP) which is itself a sample of de-identified credit records from one of the nationwide consumer reporting agencies. The survey responses will be matched to the CFPB's CCIP data to provide a more complete picture of borrowers' financial standing. The survey will follow similar methods to the CFPB's prior Making Ends Meet and Survey of Consumer Views on Debt surveys but sample a different population of borrowers and focus primarily on student loans.

The CFPB will not receive personally identifiable information. Any such information will be removed by the contractor prior to delivering final products. We will collect demographics, measures of financial well-being, consumers' feelings about their financial well-being, and experience with the student loan system, as well as behavioral measures related to seeking out financial information or willingness to take financial-related actions.

Request for Comments: Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the CFPB, including whether the information will have practical utility; (b) The accuracy of the CFPB's estimate of the burden of the collection of information, including the validity of the methods and the assumptions used; (c) Ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Comments submitted in response to this notice will be summarized and/or included in the request for OMB's approval. All

comments will become a matter of public record.

Information on the RACs can be found at <https://oese.ed.gov/offices/office-of-formula-grants/program-and-grantee-support-services/comprehensive-centers-program/regional-advisory-committees/>. The RACs advise the Secretary of Education (Secretary) regarding the educational needs of their regions, as described in section 174(b) of the Education Sciences Reform Act of 2002, in order to assist in making decisions regarding the regional educational priorities.

The RACs' responsibilities include assessing the educational needs within their regions (Assessment). In conducting the Assessment, RACs seek input from chief executive officers of States, chief State school officers, educators, and parents. The RACs conduct open hearings to solicit the views and needs of schools (including public charter schools), teachers, administrators, members of the regional educational laboratory governing board, parents, local educational agencies, librarians, businesses, State educational agencies, and other customers, such as adult education programs, within the region regarding the need for the activities described in 20 U.S.C. 9564 and 9602, and how those needs would be most effectively addressed. RACs submit the Assessment to the Secretary and to the Director of the Institute of Education Sciences, at such time, in such a manner, and containing such information as the Secretary may require.

Purpose of Open Meetings: The open meetings are designed to—

(1) Provide members of the 10 RACs an opportunity to participate in two open virtual meetings to assess the educational needs within the region served and to deliberate on the findings to prepare their region's Assessment.

(3) Provide an opportunity for the public to observe and listen to RAC discussions on the top challenges in

each region for improving student academic achievement and educational outcomes.

(4) Provide an opportunity for the public to observe and listen to RAC discussions on recommendations on the educational needs of each region and how those needs may be addressed through technical assistance activities provided by comprehensive centers described in section 203 of the Educational Technical Assistance Act (ETAA) that would help States, districts, and schools successfully address the critical educational challenges identified by each of the RACs.

(5) Provide an opportunity for the public to observe and listen to discussions and recommendations from each of the RACs on the priorities for federally funded technical assistance in their region.

Agenda

Meeting 1: The RACs will (1) review educational data from each region and public comments received and deliberate and make recommendations about the critical education needs of the region; and (2) discuss how those needs can most effectively be addressed through technical assistance activities.

Meeting 2: The RACs will (1) review additional input received from stakeholders and public comments received and, based on the information received, finalize their assessment of the critical educational needs of each region; and (2) deliberate on the education needs assessment for their region and finalize recommendations to be included in the Assessment.
