

Submit written comments to OMB for the proposed information collection within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open to the Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT:

Muntasir Ali, Sector Policies and Program Division (D243-05), Office of Air Quality Planning and Standards, U.S. Environmental Protection Agency, Research Triangle Park, North Carolina 27711; telephone number: (919) 541-0833; email address: ali.muntasir@epa.gov.

SUPPLEMENTARY INFORMATION: This is a proposed extension of the ICR, which is currently approved through July 31, 2023. An agency may neither conduct nor sponsor, and a person is not required to respond to, a collection of information unless it displays a currently-valid OMB control number.

Public comments were previously requested, via the **Federal Register**, on January 31, 2023 during a 60-day comment period (87 FR 43843). This notice allows for an additional 30 days for public comments. Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov, or in person at the EPA Docket Center, WJC West Building, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA’s public docket, visit <http://www.epa.gov/dockets>.

Abstract: The EPA is required under section 183(e) of the Clean Air Act (Act) to regulate VOC emissions from the use of consumer and commercial products. Pursuant to section 183(e)(3), the EPA published a list of consumer and commercial products and a schedule for their regulation on March 23, 1995 (60 FR 15264). Consumer products were included in Group I of the list, and standards were promulgated on September 11, 1998 and are codified at 40 CFR part 59, subpart C. The National Volatile Organic Compound Emission Standards for Consumer Products (40 CFR part 59, subpart C) were proposed on April 2, 1996; promulgated on September 11, 1998; and most-recently amended on June 25, 2013. These standards apply to manufacturers, importers, and distributors of consumer products. This information is being collected to ensure compliance with 40 CFR part 59, subpart C.

Form Numbers: None.

Respondents/affected entities:

Manufacturers, importers, and distributors of consumer products.

Respondent’s obligation to respond: Mandatory (40 CFR part 59, subpart C).

Estimated number of respondents: 337 (total).

Frequency of response: Initially and occasionally.

Total estimated burden: 17,500 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$2,210,000 (per year). There are no annualized capital/startup and/or operation & maintenance costs.

Changes in the Estimates: The adjustment increase in burden from the most-recently approved ICR is due to a correction in the calculation for clerical labor hours. The most-recently approved ICR incorrectly estimated clerical labor hours by multiplying technical labor hours by 0.01 (1%). This calculation was corrected to multiply technical labor hours by 0.1 (10%). As described above in section 6(e)(i), clerical burdens are assumed to take 10% of the time required for technical tasks because the typical duties of clerical staff are to proofread the reports, make copies, and maintain records. Although the supporting statement for the most-recently approved ICR indicated there are 732 respondents, this was based on the sum of all values listed in column D of Table 1, which resulted in double counting. This has been corrected to 337 respondents as described in Sections 1(b) and 6(d), above. However, the number of respondents listed for each line item of Table 1 is unchanged; therefore, this correction did not result in a decrease in the estimated burden.

Courtney Kerwin,

Director, Regulatory Support Division.

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OAR-2022-0038; FRL-11348-01-OMS]

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; NSPS for Stationary Spark Ignition Internal Combustion Engines (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an

information collection request (ICR), NSPS for Stationary Spark Ignition Internal Combustion Engines (EPA ICR Number 2227.07, OMB Control Number 2060-0610), to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through September 30, 2023. Public comments were previously requested via the **Federal Register** on July 22, 2022 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

DATES: Comments may be submitted on or before September 18, 2023.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OAR-2022-0038, to EPA online using <https://www.regulations.gov/> (our preferred method); or by email to a-and-r-docket@epa.gov; or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460. EPA’s policy is that all comments received will be included in the public docket without change, including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this specific information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

SUPPLEMENTARY INFORMATION: This is a proposed extension of the ICR, which is currently approved through September 30, 2023. An agency may not conduct nor sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

Public comments were previously requested via the **Federal Register** on July 22, 2022 during a 60-day comment period (87 FR 43843). This notice allows

for an additional 30 days for public comments. Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov, or in person, at the EPA Docket Center, WJC West Building, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: The New Source Performance Standards (NSPS) for Stationary Spark Ignition Internal Combustion Engines (40 CFR part 60, subpart JJJJ) were promulgated on January 18, 2008; and most-recently amended on August 10, 2022. These regulations apply to existing and new manufacturers, owners, and operators of stationary spark ignition (SI) internal combustion engines (ICE) that commenced construction, modification, or reconstruction either on or after the dates specified at 40 CFR 60.4230(a)(1)–(6). New facilities include those that commenced construction, modification or reconstruction after the date of proposal. This information is being collected to assure compliance with 40 CFR part 60, subpart JJJJ.

In general, all NSPS standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance, and are required of all affected facilities subject to the NSPS.

Form Numbers: 5900–596.

Respondents/affected entities: Manufacturers, owners, and operators of stationary spark ignition internal combustion engines.

Respondent's obligation to respond: Mandatory (40 CFR part 60, subpart JJJJ).

Estimated number of respondents: 20,088 (total).

Frequency of response: Initially and annually.

Total estimated burden: 38,000 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$7,540,000 (per year), which includes \$2,920,000 in annualized capital/startup and/or operation & maintenance costs.

Changes in the Estimates: There is an increase in the total estimated burden as currently identified in the OMB

Inventory of Approved Burdens. This increase is not due to any program changes or changes in regulatory requirements. The change in the burden and cost estimates is due primarily to an increase in the number of existing sources subject to rule requirements. This increase is based on the growth rate from the prior ICR and assumes continued growth in the manufacture and use of SI ICE. This has led to an increase in O&M costs, as well as for recordkeeping and reporting costs.

BILLING CODE 6560–50–P

EXPORT-IMPORT BANK OF THE UNITED STATES

[Public Notice: EIB 2023–0010]

Application for Final Commitment for a Long-Term Loan or Financial Guarantee in Excess of \$100 Million: AP089461XX

AGENCY: Export-Import Bank of the United States.

ACTION: Notice.

SUMMARY: This Notice is to inform the public, in accordance with the Export-Import Bank Act of 1945, as amended, the Export-Import Bank of the United States (“EXIM”) has received an application for final commitment for a long-term loan or financial guarantee in excess of \$100 million. Comments received within the comment period specified below will be presented to the EXIM Board of Directors prior to final action on this Transaction. Comments received within the comment period specified below will be presented to the EXIM Board of Directors prior to final action on this Transaction.

DATES: Comments must be received on or before September 12, 2023 to be assured of consideration before final consideration of the transaction by the Board of Directors of EXIM.

ADDRESSES: Comments may be submitted through *Regulations.gov* at WWW.REGULATIONS.GOV. To submit a comment, enter EIB 2023–0010 under the heading “Enter Keyword or ID” and select Search. Follow the instructions provided at the Submit a Comment screen. Please include your name, company name (if any) and EIB 2023–0010 on any attached document.

SUPPLEMENTARY INFORMATION:

Reference: AP089461XX.

Purpose and Use:

Brief description of the purpose of the transaction: to support the export of

U.S.-manufactured locomotive and shunter kits to Kazakhstan.

Brief non-proprietary description of the anticipated use of the items being exported: to provide rail freight and passenger transport services in Kazakhstan and between Kazakhstan and other countries.

To the extent that EXIM is reasonably aware, the item(s) being exported are not expected to produce exports or provide services in competition with the exportation of goods or provision of services by a United States industry.

Parties:

Principal Supplier: Wabtec Corporation.

Obligor: KTZ Passenger LLC and KTZ Freight LLC.

Guarantor(s): National Company Kazakhstan Temir Zholy.

Description of Items Being Exported: Locomotive and shunter kits.

Information on Decision: Information on the final decision for this transaction will be available on <https://www.exim.gov/news/meeting-minutes>.

Confidential Information: Please note that this notice does not include confidential or proprietary business information; information which, if disclosed, would violate the Trade Secrets Act; or information which would jeopardize jobs in the United States by supplying information that competitors could use to compete with companies in the United States.

Joyce B. Stone,

Assistant Corporate Secretary.
