

ACTION: Notice of availability.

SUMMARY: We are advising the public that we are proposing to recognize the regions of Tuscany and Umbria, Italy as being free of swine vesicular disease. This proposed recognition is based on a risk evaluation we have prepared in connection with this action, which we are making available for review and comment.

DATES: We will consider all comments that we receive on or before October 23, 2023.

ADDRESSES: You may submit comments by either of the following methods:

- **Federal eRulemaking Portal:** Go to www.regulations.gov. Enter APHIS–2023–0028 in the Search field. Select the Documents tab, then select the Comment button in the list of documents.

- **Postal Mail/Commercial Delivery:** Send your comment to Docket No. APHIS–2023–0028, Regulatory Analysis and Development, PPD, APHIS, Station 3A–03.8, 4700 River Road, Unit 118, Riverdale, MD 20737–1238.

Supporting documents and any comments we receive on this docket may be viewed at regulations.gov or in our reading room, which is located in room 1620 of the USDA South Building, 14th Street and Independence Avenue SW, Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 799–7039 before coming.

FOR FURTHER INFORMATION CONTACT: Dr. Chip Wells, Senior Veterinary Medical Officer, Regionalization Evaluation Services (RES), Strategy & Policy, Veterinary Services, APHIS, 4700 River Road, Unit 38, Riverdale, MD 20737–1231; (301) 851–3317; email: AskRegionalization@usda.gov.

SUPPLEMENTARY INFORMATION: The regulations in 9 CFR part 94 (referred to below as the regulations) govern the importation of certain animals and animal products into the United States in order to prevent the introduction of various animal diseases, including swine vesicular disease (SVD). This is a dangerous and communicable disease of swine.

Within part 94, § 94.12 contains requirements governing the importation of pork or pork products from regions where SVD exists. Section 94.14 prohibits the importation of domestic swine that are moved from or transit any region in which SVD is known to exist.

In accordance with § 94.12(a)(1), the Animal and Plant Health Inspection Service (APHIS) maintains a web-based

list of regions which the Agency considers free of SVD. Paragraph (a)(2) of this section states that APHIS will add a region to this list after it conducts an evaluation of the region and finds that SVD is not present.

The regulations in § 92.2 contain requirements for requesting the recognition of the animal health status of a region (as well as for the approval of the export of a particular type of animal or animal product to the United States from a foreign region). If, after review and evaluation of the information submitted in support of the request, APHIS believes the request can be safely granted, APHIS will make its evaluation available for public comment through a document published in the **Federal Register**. Following the close of the comment period, APHIS will review all comments received and will make a final determination regarding the request that will be detailed in another document published in the **Federal Register**.

The Government of Italy has requested that APHIS evaluate the SVD disease status of the regions of Tuscany and Umbria. In response to Italy's request, we have prepared an evaluation, titled "APHIS Evaluation of Toscana and Umbria, Italy for Swine Vesicular Disease" (November 2022).¹ Based on the evaluation, we have determined that the regions of Tuscany and Umbria, Italy are free of SVD. APHIS has also determined that the surveillance, prevention, and control measures implemented by Italy are sufficient to minimize the likelihood of introducing SVD into the United States via imports of species or products susceptible to these diseases. Our determination supports adding the regions of Tuscany and Umbria, Italy to the web-based list of regions that APHIS considers free of SVD.

Therefore, in accordance with § 92.2(g), we are announcing the availability of our evaluation of the SVD status of the regions of Tuscany and Umbria, Italy for public review and comment. We are also announcing the availability of an environmental assessment (EA), which has been prepared in accordance with: (1) The National Environmental Policy Act of 1969 (NEPA), as amended (42 U.S.C. 4321 *et seq.*), (2) regulations of the Council on Environmental Quality for implementing the procedural provision of NEPA (40 CFR parts 1500–1508), (3) USDA regulations implementing NEPA (7 CFR part 1b), and (4) APHIS' NEPA Implementing Procedures (7 CFR part 372). The evaluation and EA may be

viewed on the Regulations.gov website or in our reading room. (Instructions for accessing Regulations.gov and information on the location and hours of the reading room are provided under the heading ADDRESSES at the beginning of this notice.) The documents are also available by contacting the person listed under **FOR FURTHER INFORMATION CONTACT**.

Information submitted in support of Italy's request is available by contacting the person listed under **FOR FURTHER INFORMATION CONTACT**.

After reviewing any comments we receive, we will announce our decision regarding the disease status of the regions of Tuscany and Umbria, Italy with respect to SVD in a subsequent notice.

Authority: 7 U.S.C. 1633, 7701–7772, 7781–7786, and 8301–8317; 21 U.S.C. 136 and 136a; 31 U.S.C. 9701; 7 CFR 2.22, 2.80, and 371.4.

Done in Washington, DC, this 17th day of August 2023.

Michael Watson,

Acting Administrator, Animal and Plant Health Inspection Service.

BILLING CODE 3410–34-P

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

[Docket No. APHIS–2023–0044]

Addition of the Republic of Ecuador and the Republic of Peru to the List of Regions Affected With Highly Pathogenic Avian Influenza

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice.

SUMMARY: We are advising the public that we added the Republic of Ecuador and the Republic of Peru to the list of regions that the Animal and Plant Health Inspection Service considers to be affected by highly pathogenic avian influenza (HPAI). These actions follow our imposition of HPAI-related restrictions on avian commodities originating from or transiting the Republic of Ecuador and the Republic of Peru, as a result of the confirmation of HPAI in these countries.

DATES: The Republic of Ecuador and the Republic of Peru were added to the list of regions APHIS considers to be affected with HPAI, effective respectively on December 3, 2022, and December 12, 2022.

FOR FURTHER INFORMATION CONTACT: Dr. La'Toya Lane, APHIS Veterinary

¹Tuscany and Toscana are equivalent.

Services, Regionalization Evaluation Services, 920 Main Campus Drive, Suite 300, Raleigh, NC 27606; phone: (301) 550-1671; email: AskRegionalization@usda.gov.

SUPPLEMENTARY INFORMATION: The regulations in 9 CFR part 94 (referred to below as the regulations) govern the importation of certain animals and animal products into the United States to prevent the introduction of various animal diseases, including Newcastle disease and highly pathogenic avian influenza (HPAI). The regulations prohibit or restrict the importation of live poultry, poultry meat, and other poultry products from regions where these diseases are considered to exist.

Section 94.6 of the regulations contains requirements governing the importation into the United States of carcasses, meat, parts or products of carcasses, and eggs (other than hatching eggs) of poultry, game birds, or other birds from regions of the world where HPAI exists or is reasonably believed to exist. HPAI is an extremely infectious and potentially fatal form of avian influenza in birds and poultry that, once established, can spread rapidly from flock to flock. The Animal and Plant Health Inspection Service (APHIS) maintains a list of restricted regions it considers affected with HPAI of any subtype on the APHIS website at <https://www.aphis.usda.gov/aphis/ourfocus/animalhealth/animal-and-animal-product-import-information/animal-health-status-of-regions>.

APHIS receives notice of HPAI outbreaks from veterinary officials of the exporting country, from the World Organization for Animal Health (WOAH),¹ or from other sources the Administrator determines to be reliable.

On November 28, 2022, the veterinary authorities of the Republic of Ecuador reported to the WOAHA the occurrence of HPAI in that country. On December 3, 2022, after confirming that HPAI occurred in commercial birds and poultry, APHIS added the Republic of Ecuador to the list of regions where HPAI exists. On that same day, APHIS issued an import alert notifying stakeholders that APHIS imposed import restrictions on poultry, commercial birds, ratites, avian hatching eggs, unprocessed avian products and byproducts, and certain fresh poultry commodities from the Republic of Ecuador to mitigate risk of

HPAI introduction into the United States.

On December 2, 2022, the veterinary authorities of the Republic of Peru reported to the WOAHA the occurrence of HPAI in that country. On December 12, 2022, after confirming that the HPAI occurred in commercial birds or poultry, APHIS added the Republic of Peru to the list of regions where HPAI exists. On that same day, APHIS issued an import alert notifying stakeholders that APHIS imposed import restrictions on poultry, commercial birds, ratites, avian hatching eggs, unprocessed avian products and byproducts, and certain fresh poultry commodities from the Republic of Peru to mitigate risk of HPAI introduction into the United States.

With the publication of this notice, we are informing the public that we added: The Republic of Ecuador to the list of regions APHIS considers affected with HPAI of any subtype, effective December 3, 2022; and the Republic of Peru to the list of regions APHIS considers affected with HPAI of any subtype, effective December 12, 2022. This notice serves as an official record and public notification of these actions.

Congressional Review Act

Pursuant to the Congressional Review Act (5 U.S.C. 801 *et seq.*), the Office of Information and Regulatory Affairs designated this action as not a major rule, as defined by 5 U.S.C. 804(2).

Authority: 7 U.S.C. 1633, 7701-7772, 7781-7786, and 8301-8317; 21 U.S.C. 136 and 136a; 31 U.S.C. 9701; 7 CFR 2.22, 2.80, and 371.4.

Done in Washington, DC, this 15th day of August 2023.

Michael Watson,

Acting Administrator, Animal and Plant Health Inspection Service.

[Docket No. APHIS-2022-0038]

Notice of Availability of a Pest Risk Analysis for the Importation of Fresh Table Beet Root (*Beta vulgaris* L.) for Consumption From the United Kingdom Into the Continental United States, Hawaii, Puerto Rico, and the U.S. Virgin Islands

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice of availability.

SUMMARY: We are advising the public that we have prepared a pest risk analysis that evaluates the risks associated with importation of fresh table beet root (*Beta vulgaris* L.) for consumption from the United Kingdom into the continental United States, Hawaii, Puerto Rico, and the U.S. Virgin Islands. Based on the analysis, we have determined that the application of one or more designated phytosanitary measures will be sufficient to mitigate the risks of introducing or disseminating plant pests or noxious weeds via the importation of fresh table beet root from the United Kingdom. We are making the pest risk analysis available to the public for review and comment.

DATES: We will consider all comments that we receive on or before October 23, 2023.

ADDRESSES: You may submit comments by either of the following methods:

- **Federal eRulemaking Portal:** Go to www.regulations.gov. Enter APHIS-2022-0038 in the Search field. Select the Documents tab, then select the Comment button in the list of documents.

- **Postal Mail/Commercial Delivery:** Send your comment to Docket No. APHIS-2022-0038, Regulatory Analysis and Development, PPD, APHIS, Station 3A-03.8, 4700 River Road, Unit 118, Riverdale, MD 20737-1238.

Supporting documents and any comments we receive on this docket may be viewed at www.regulations.gov or in our reading room, which is located in room 1620 of the USDA South Building, 14th Street and Independence Avenue SW, Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 799-7039 before coming.

FOR FURTHER INFORMATION CONTACT: Ms. Claudia Ferguson, Senior Regulatory Policy Specialist, Regulatory Coordination and Compliance, PPQ, APHIS, 4700 River Road, Unit 133, Riverdale, MD 20737-1231; (301) 851-2352; Claudia.Ferguson@usda.gov.

SUPPLEMENTARY INFORMATION:

Background

Under the regulations in “Subpart L—Fruits and Vegetables” (7 CFR 319.56-1 through 319.56-12, referred to below as the regulations), the Animal and Plant Health Inspection Service (APHIS) prohibits or restricts the importation of fruits and vegetables into the United States from certain parts of the world to prevent plant pests from being introduced into or disseminated within the United States.

¹ The World Organization for Animal Health internationally follows a British English spelling of “organisation” in its name; also, it was formerly the Office International des Epizooties, or OIE, but on May 28, 2022, the Organization announced that the acronym was changed from OIE to WOAHA.
