## SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–98185; File No. SR–Phlx–2023–37]

### Self-Regulatory Organizations; Nasdaq PHLX LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Set Fees for the Purchase of Field-Programmable Gate Array Technology as an Optional Delivery Mechanism for PSX TotalView

August 21, 2023.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”) <sup>1</sup>, and Rule 19b–4 thereunder, <sup>2</sup> notice is hereby given that on August 11, 2023, Nasdaq PHLX LLC (“Phlx” or “Exchange”) filed with the Securities and Exchange Commission (“SEC” or “Commission”) the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

#### I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to set fees for the purchase of field-programmable gate array (“FPGA”) technology as an optional delivery mechanism for PSX TotalView.

The text of the proposed rule change is available on the Exchange's website at <https://listingcenter.nasdaq.com/rulebook/phlx/rules>, at the principal office of the Exchange, and at the Commission's Public Reference Room.

#### II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

#### A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

##### 1. Purpose

The purpose of the proposed rule change is to establish a fee schedule for the purchase of field-programmable gate array (“FPGA”) technology as an optional delivery mechanism for PSX TotalView (“PSX FPGA Service”).<sup>3</sup> This follows a recently-filed proposal to offer FPGA technology as an optional delivery mechanism for PSX TotalView.<sup>4</sup>

##### FPGA

FPGA is a hardware-based delivery mechanism that utilizes an integrated circuit that is programmed to reduce “jitter”—a technical term of art referring to the deviation in amplitude, phase timing or width of a signal pulse in a digital signal—that will allow data to be processed in a more predictable, or “deterministic,” fashion. Reducing jitter can be useful for certain customers due to the variability in the timing of market data packets transmitted by an exchange over the course of the trading day. Orders, and therefore market data packets, typically accumulate in larger numbers at the beginning and end of the trading day, as well as during the peaks of activity that occur at random intervals during the day. These bursts of activity may alter the time interval between the delivery of data packets because software processes information at variable rates depending on load to the system. Processing times may increase at higher loads, and decrease during periods of lesser activity. FPGA technology processes data packets at a constant time interval, without regard to the number of packets processed. Higher levels of determinism mean less variable queuing, which improves the predictability of data transfer,

<sup>3</sup> This Proposal was initially filed by the Exchange on May 23, 2023. See Securities Exchange Act Release No. 97628 (May 31, 2023), 88 FR 37116 (June 6, 2023) (SR–Phlx–2023–21). On July 7, 2023, that filing was withdrawn and replaced to provide supplemental information. See Securities Exchange Act Release No. 97947 (July 19, 2023), 88 FR 47932 (July 25, 2023) (SR–Phlx–2023–30). On August 9, 2023, the second filing was withdrawn and replaced with SR–Phlx–2023–35 to provide additional information without changing the Proposal in substance. On August 11, 2023, SR–Phlx–2023–35 was replaced with the instant filing to correct a typographical error.

<sup>4</sup> See SR–Phlx–2023–18 (“A proposal to offer field-programmable gate array (‘FPGA’) technology as an optional delivery mechanism for PSX TotalView.”), available at <https://listingcenter.nasdaq.com/assets/rulebook/Phlx/filings/SR-Phlx-2023-18.pdf>. A proposal to establish a fee schedule for the use of FPGA technology for the BX exchange is being filed concurrently with this proposal.
