SUPPLEMENTARY INFORMATION: This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA. The determinations in this notice are the sole responsibility of the PMAE. The National Park Service is not responsible for the determinations in this notice. Additional information on the determinations in this notice, including the results of consultation, can be found in the inventory or related records held by the PMAE.

Description

Human remains representing, at minimum, one individual were collected at the Sherman Institute in Riverside County, CA. The human remains are hair clippings collected from one individual who was recorded as being 18 years old and identified as "Paiute." Samuel R. Gilliam took the hair clippings at the Sherman Institute between 1930 and 1933. Gilliam sent the hair clippings to George Woodbury, who donated the hair clippings to the PMAE in 1935. No associated funerary objects are present.

Cultural Affiliation

The human remains in this notice are connected to one or more identifiable earlier groups, tribes, peoples, or cultures. There is a relationship of shared group identity between the identifiable earlier groups, tribes, peoples, or cultures and one or more Indian Tribes or Native Hawaiian organizations. The following types of information were used to reasonably trace the relationship: kinship and anthropological.

Determinations

Pursuant to NAGPRA and its implementing regulations, and after consultation with the appropriate lineal descendants, Indian Tribes, and Native Hawaiian organizations, the PMAE has determined that:

- The human remains described in this notice represent the physical remains of one individual of Native American ancestry.
- There is a relationship of shared group identity that can be reasonably traced between the human remains described in this notice and the Fort Independence Indian Community of Paiute Indians of the Fort Independence Reservation, California.

Requests for Repatriation

Written requests for repatriation of the human remains in this notice must be sent to the Responsible Official

identified in **ADDRESSES**. Requests for repatriation may be submitted by:

1. Any one or more of the Indian Tribes or Native Hawaiian organizations identified in this notice.

2. Any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or a culturally affiliated Indian Tribe or Native Hawaiian organization.

Repatriation of the human remains in this notice to a requestor may occur on or after September 27, 2023. If competing requests for repatriation are received, the PMAE must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the human remains are considered a single request and not competing requests. The PMAE is responsible for sending a copy of this notice to the Indian Tribe identified in this notice.

Notice of Inventory Completion: California State University, Los Angeles, Los Angeles, CA

AGENCY: National Park Service, Interior.

ACTION: Notice.

SUMMARY: In accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), California State University, Los Angeles has completed an inventory of human remains (hereafter referred to as "ancestors") in consultation with the appropriate Indian Tribes or Native Hawaiian organizations and has determined that there is a cultural affiliation between the ancestors and Indian Tribes or Native Hawaiian organizations in this notice. The ancestors were removed from Los Angeles County, CA.

DATES: Repatriation of the ancestors in this notice will occur on or after September 27, 2023.

SUPPLEMENTARY INFORMATION: This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA. The determinations in this notice are the sole responsibility of California State University, Los Angeles. The National Park Service is not responsible for the determinations in this notice. Additional information on the determinations in this notice, including the results of consultation, can be found in the inventory or related records held by California State University, Los Angeles.

Description

A minimum of two ancestors were removed from Los Angeles County, CA. Located in the City of Carson, CA-LAN-98 is the site of Suangna, a known Gabrielino-Tongva village. According to one source, it may have been occupied as late as 1813 (McCawley, 1996). Another source notes that, based on artifact comparisons, CA-LAN-98 was occupied for approximately 600 years, from A.D. 1200-1800 (Eggers, 1977:44). It was first excavated by Racer in 1910. In the late 1960s and early 1970s, Hal Eberhart from LA City College and Ken Kuykendall and A. Van D. Eggers from Dominguez College conducted excavations there, as did Charles Irwin of the Bowers Museum in 1972-1973. The collection from CA-LAN-98 at California State University, Los Angeles is assumed to have arrived in the late 1960s or early 1970s with Hal Eberhart, at that time a faculty member. (No reports or documents regarding this collection have been found at California State University, Los Angeles.) As no current faculty have examined the human remains, the following descriptions derive solely from box and bag labels. One bag is labeled "Watson Site, Burial #1" and another is labeled "Watson Site, Burial #2." There is also one small bag labeled "Skull fragments, no location, Watson" along with what appears to be added, in faint pencil, "associated with Burial #1." No associated funerary objects are present. (Additional collections from CA-LAN-98 are housed at California State

University, Dominguez Hills, and a master's thesis from California State University, Fullerton indicates that additional materials from this site are curated with the Pacific Coast Archaeological Society (Graling, 2004).)

Cultural Affiliation

The ancestors in this notice are connected to one or more identifiable earlier groups, tribes, peoples, or cultures. There is a relationship of shared group identity between the identifiable earlier groups, tribes, peoples, or cultures and one or more Indian Tribes or Native Hawaiian organizations. The following types of information were used to reasonably trace the relationship: geographical, archeological, and expert opinion.

Determinations

Pursuant to NAGPRA and its implementing regulations, and after consultation with the appropriate Indian Tribes and Native Hawaiian organizations, California State University, Los Angeles has determined that:

- Pursuant to 25 U.S.C. 3001(9), the ancestors described in this notice represent the physical remains of at least two individuals of Native American ancestry.
- Pursuant to 25 U.S.C. 3001(2), there is a relationship of shared group identity that can be reasonably traced between the Native American ancestors described in this notice and the Santa Rosa Band of Cahuilla Indians, California and the Soboba Band of Luiseno Indians, California.

Requests for Repatriation

Written requests for repatriation of the ancestors in this notice must be sent to the Responsible Officials identified in **ADDRESSES**. Requests for repatriation may be submitted by:

1. Any one or more of the Indian Tribes or Native Hawaiian organizations identified in this notice and, if joined to a request from one or more of the Indian Tribes, the following non-federally recognized Indian groups: the Gabrielino Band of Mission Indians-Kizh Nation; Gabrielino/Tongva San Gabriel Band of Mission Indians; Gabrielino/Tongva Nation; Gabrielino Tongva Indians of California Tribal Council (Bellflower and Simi Valley); and the Gabrielino-Tongva Tribe.

2. Any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or a culturally affiliated Indian Tribe or Native Hawaiian organization.
