Overview of This Information Collection

Title: Vessel Entrance and Clearance System (VECS).

OMB Number: 1651–0019.

Form Number: CBP Form 1300.

Current Actions: Extension.

Type of Review: Extension.

Affected Public: Individuals.

Abstract: CBP Form 1300, Vessel Entrance or Clearance Statement, is used to collect essential commercial vessel data at time of formal entrance and clearance in U.S. ports, allows the master to attest to the truthfulness of all CBP forms associated with the manifest package, and collects relevant information about the vessel and cargo. The form was developed through agreement by the United Nations Intergovernmental Maritime Organization (IMO) in conjunction with the United States and various other countries. The form was developed as a single form to replace the numerous other forms used by various countries for the entrance and clearance of vessels. CBP Form 1300 is authorized by 5 U.S.C. 301, and 19 U.S.C. 66, 1415, 1624, 2071, 1431, 1433, and 1434, as well as 46 U.S.C. 501, 60105 and provided for by 19 CFR 4. This form is accessible at: <http://www.cbp.gov/newsroom/publications/forms?title=1300&=Apply>.

This form is currently submitted in paper format and is anticipated to be submitted electronically as part of CBP's efforts to automate maritime forms through the Vessel Entrance and Clearance System (VECS), which will reduce the need for paper submission of

any vessel entrance or clearance requirements under the above referenced statutes and regulations. VECS will still collect and maintain the same data as CBP Form 1300 but will automate the capture of data to reduce or eliminate redundancy with other data collected by CBP.

Respondents are enabled to create a new ACE Account type for Vessel Agencies through the ACE Portal. The new account type within ACE will operate as a portal that leads to the Vessel Entrance and Clearance System (VECS), which will run as its own independent system.

Vessel Agents will be required to provide identifying information such as: their name, their employer identification number (EIN), company address, and their phone numbers, which will be requested at the time Vessel Agents apply for the new ACE account type.

After creating an ACE account, Vessel Agencies, Vessel Operating Common Carriers (VOCCs), and their designees are able to use the new Vessel Entrance and Clearance System (VECS) as part of the ongoing pilot program to test the functionality of VECS, and will be able to file vessel entrance, clearance, and related data to CBP electronically.

CBP is currently running a small public VECS Pilot on several ports. VECS will automate and digitize the collection and processing of the data and filing requirements for which the CBP Form 1300 is used. CBP plans to run an initial public pilot to test the system. All users who obtained a Vessel Agency Account through the ACE Portal will be automatically enrolled into the VECS public pilot. Initially, the pilot began at one of eleven ports where VECS was previously internally tested. CBP is providing training to each CBP port and the Vessel Agency personnel at each port, prior to beginning/expanding the public pilot in another port.

The VECS public pilot will continue to expand to additional ports, in an effort to progressively test and implement the system nationwide. There will be no change to the paper format of CBP Form 1300, and CBP Form 1300 in paper format will continue to be accepted.

New Submission

The VECS Pilot will be live for 51 port codes as of August 2023 enabling fully electronic processing of vessel entrance and clearance. The public pilot has allowed CBP to identify areas for additional enhancement and automation, fix minor errors with the system's operation, and simultaneously deploy to new locations while

continuing to test fixes and new capabilities. VECS pilot will continue to expand to other port codes while implementing training for port staff.

To facilitate public participation, we are inviting public comment on the issues the committee will consider prior to the formulation of recommendations as listed in the AGENDA section below.

There will be multiple public comment periods held during the meeting on September 20, 2023. Speakers are requested to limit their comments to two minutes or less to facilitate greater participation. Please note that the public comment period for speakers may end before the time indicated on the schedule that is posted on the CBP web page: <http://www.cbp.gov/trade/stakeholder-engagement/coac>.

Agenda

The COAC will hear from the current subcommittees on the topics listed below:

1. The Intelligent Enforcement Subcommittee will provide updates on the work completed and topics discussed in its working groups. The Antidumping/Countervailing Duty (AD/CVD) Working Group will provide updates regarding its work and discussions on importer compliance with AD/CVD requirements. The Intellectual Property Rights (IPR) Process Modernization Working Group will report on, and anticipates providing recommendations for the committee’s consideration relating to, the development of a portal on the CBP IPR web page and other enhancements in communications between CBP, rights holders, and the trade community regarding enforcement actions. The Bond Working Group will report on the ongoing discussions and status updates for eBond requirements. The Forced Labor Working Group (FLWG) has been working on the implementation of recommendations and updates, as well as revisions to its statement of work. The FLWG will also provide updates and anticipates making recommendations for the committee’s consideration at the September public meeting.

2. The Next Generation Facilitation Subcommittee will provide updates on its working groups. There will be an update and potential recommendations for the committee’s consideration from the Automated Commercial Environment (ACE) 2.0 Working Group regarding progress on the ACE 2.0 initiative resulting from the working group’s recent in-person sessions held to review the CBP ACE 2.0 Concept of Operations processes. The Customs Interagency Industry Working Group (CII) (formerly the One U.S. Government Working Group) will provide an update on the work accomplished this quarter, which includes discussions with Partner Government Agencies and an update on ACE 2.0. The Passenger Air Operations (PAO) Working Group has been focusing its discussions on CBP

security seal processing and access to international aircraft and passengers, landing rights, and elimination of outdated or obsolete forms, and will provide an update on those discussions.

3. The Rapid Response Subcommittee will provide updates from the Broker Modernization Working Group and the United States-Mexico-Canada Agreement (USMCA) Chapter 7 Working Group. The Broker Modernization Working Group currently meets monthly and continues to focus on the 19 CFR part 111 final rules relating to Modernization of the Customs Broker Regulations and Continuing Education for Licensed Customs Brokers, as well as Customs Broker Licensing Exams matters. The subcommittee anticipates the Broker Modernization Working Group will provide one recommendation for the committee’s consideration. The USMCA Chapter 7 Working Group meets bi-weekly with the expectation that recommendations will be developed and submitted for consideration at an upcoming COAC public meeting. The current focus of this working group is to review the Chapter 7 articles of the USMCA and identify gaps in implementation between the United States, Mexico, and Canada.

4. The Secure Trade Lanes Subcommittee will provide updates on its five active working groups: the Export Modernization Working Group, the In-Bond Working Group, the Trade Partnership and Engagement Working Group, the Pipeline Working Group, and the Cross-Border Recognition Working Group. The Export Modernization Working Group has continued its work on the electronic export manifest pilot program. The In-Bond Working Group has continued its focus on the implementation of previously submitted recommendations. The Trade Partnership and Engagement Working Group has focused its work on implementing previous recommendations for Customs Trade Partnership Against Terrorism (CTPAT) Trade Compliance partners and is working to update its statement of work to include CTPAT security. The Pipeline Working Group expects to submit a recommendation for the committee’s consideration that CBP develop a pilot to use Distributed Ledger Technology to enhance transparency in supply chains for pipeline-borne goods. Although the Cross-Border Recognition Working Group did not meet this quarter, it remains an active working group within the subcommittee and will resume meetings next quarter.

Meeting materials will be available by September 11, 2023, at: <http://www.cbp.gov/trade/stakeholder-engagement/coac/coac-public-meetings>.

Dated: August 25, 2023.
