

patent, whether claim 15 is anticipated by Gabriella, and whether claims 1, 2, 10, and 13 are obvious based on Troutman and Song or Hsia and Song; (2) for the '694 patent, whether claim 18 is anticipated by Hsia and whether claims 1 and 10 are obvious based on Troutman and Tharalson; (3) the '919 patent in its entirety; and (4) whether the technical and economic prongs of the domestic industry requirement are met for all three patents. In connection with its review of the ID, the Commission sought briefing from the parties on several questions germane to the issues on review. The Commission also requested briefing from the parties, interested government agencies, and other interested persons on remedy, bonding, and the public interest.

On July 20, 2023, the parties submitted briefs responding to the questions posed in the Commission's Notice of Review and on remedy, the public interest, and bond. Thereafter, on July 27, 2023, each submitted a reply to the other's brief on review. No additional submissions were received.

Having considered the parties' submissions, the ID, and the record in this investigation, the Commission has determined that no violation of section 337 has occurred based on Respondents' importation into the United States, sale for importation, or sale within the United States after importation of certain playards and strollers. The Commission has further determined to affirm in part, modify in part, reverse in part, and take no position on certain portions of the ID, as explained in the Commission's opinion issued concurrently herewith. This investigation is terminated.

The Commission vote for this determination took place on August 28, 2023.

The authority for the Commission's determination is contained in section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), and in part 210 of the Commission's Rules of Practice and Procedure (19 CFR part 210).

By order of the Commission.

### Certain Pea Protein From China

#### Determinations

On the basis of the record<sup>1</sup> developed in the subject investigations, the United States International Trade Commission ("Commission") determines, pursuant to the Tariff Act of 1930 ("the Act"), that there is a reasonable indication that an industry in the United States is materially injured by reason of imports of certain pea protein from China, provided for in subheadings 3504.00.10, 3504.00.50, and 2106.10.00 of the Harmonized Tariff Schedule of the United States, that are alleged to be sold in the United States at less than fair value ("LTFV") and to be subsidized by the government of China.<sup>2</sup>

#### Commencement of Final Phase Investigations

Pursuant to section 207.18 of the Commission's rules, the Commission also gives notice of the commencement of the final phase of its investigations. The Commission will issue a final phase notice of scheduling, which will be published in the **Federal Register** as provided in § 207.21 of the Commission's rules, upon notice from the U.S. Department of Commerce ("Commerce") of affirmative preliminary determinations in the investigations under §§ 703(b) or 733(b) of the Act, or, if the preliminary determinations are negative, upon notice of affirmative final determinations in those investigations under §§ 705(a) or 735(a) of the Act. Parties that filed entries of appearance in the preliminary phase of the investigations need not enter a separate appearance for the final phase of the investigations. Industrial users, and, if the merchandise under investigation is sold at the retail level, representative consumer organizations have the right to appear as parties in Commission antidumping and countervailing duty investigations. The Secretary will prepare a public service list containing the names and addresses of all persons, or their representatives, who are parties to the investigations.

The public record for this proceeding may be viewed on the Commission's electronic docket (EDIS) at <https://edis.usitc.gov>.

**SUPPLEMENTARY INFORMATION:**

*Background.*—On August 31, 2012, the Department of Commerce ("Commerce") issued an antidumping duty order on imports of large power transformers from South Korea (77 FR 53177). Following the first five-year reviews by Commerce and the Commission, effective October 16, 2018, Commerce issued a continuation of the antidumping duty order on imports of large power transformers from South Korea (83 FR 52206). The Commission is now conducting a second review pursuant to section 751(c) of the Act, as amended (19 U.S.C. 1675(c)), to determine whether revocation of the order would be likely to lead to continuation or recurrence of material injury to the domestic industry within a reasonably foreseeable time. Provisions concerning the conduct of this proceeding may be found in the Commission's Rules of Practice and Procedure at 19 CFR part 201, subparts A and B, and 19 CFR part 207, subparts A and F. The Commission will assess the adequacy of interested party responses to this notice of institution to determine whether to conduct a full review or an expedited review. The Commission's determination in any expedited review will be based on the facts available, which may include information provided in response to this notice.

*Definitions.*—The following definitions apply to this review:

(1) *Subject Merchandise* is the class or kind of merchandise that is within the scope of the five-year review, as defined by Commerce.

(2) The *Subject Country* in this review is South Korea.

(3) The *Domestic Like Product* is the domestically produced product or products which are like, or in the absence of like, most similar in characteristics and uses with, the *Subject Merchandise*. In its original determination and its full first five-year review determination, the Commission found a single *Domestic Like Product* consisting of large power transformers coextensive with Commerce's scope.

(4) The *Domestic Industry* is the U.S. producers as a whole of the *Domestic Like Product*, or those producers whose collective output of the *Domestic Like Product* constitutes a major proportion of the total domestic production of the product. In its original determination and its full first five-year review determination, the Commission defined the *Domestic Industry* as all domestic producers of large power transformers.

(5) An *Importer* is any person or firm engaged, either directly or through a parent company or subsidiary, in importing the *Subject Merchandise* into the United States from a foreign manufacturer or through its selling agent.

*Participation in the proceeding and public service list.*—Persons, including industrial users of the *Subject Merchandise* and, if the merchandise is sold at the retail level, representative consumer organizations, wishing to participate in the proceeding as parties must file an entry of appearance with the Secretary to the Commission, as provided in § 201.11(b)(4) of the Commission's rules, no later than 21 days after publication of this notice in the **Federal Register**. The Secretary will maintain a public service list containing the names and addresses of all persons, or their representatives, who are parties to the proceeding.

Former Commission employees who are seeking to appear in Commission five-year reviews are advised that they may appear in a review even if they participated personally and substantially in the corresponding underlying original investigation or an earlier review of the same underlying investigation. The Commission's designated agency ethics official has advised that a five-year review is not the same particular matter as the underlying original investigation, and a five-year review is not the same particular matter as an earlier review of the same underlying investigation for purposes of 18 U.S.C. 207, the post-employment
