

certain changes to an FRA-certified PTC system or the associated FRA-approved PTC Safety Plan or disabling the PTC system, a host railroad must submit, and obtain FRA's approval of, an RFA under 49 CFR 236.1021.

Under 49 CFR 236.1021(e), FRA's regulations provide that FRA will publish a notice in the **Federal Register** and invite public comment in accordance with 49 CFR part 211, if an RFA includes a request for approval of a material modification or discontinuance of a signal or train control system. Accordingly, this notice informs the public that, on August 28, 2023, NS submitted an RFA to its PTC system under 49 CFR 236.1021(m), and that RFA is available in Docket No. FRA-2010-0060. Interested parties are invited to comment on NS's RFA by submitting written comments or data.

FRA typically invites the public to comment on such RFAs for a period of 20 days, as FRA must issue a decision to the railroad within 45 days of receipt of the RFA. 49 CFR 236.1021(e), (m)(3)(i). However, FRA's PTC regulations, at § 236.1021(m)(3)(ii), recognize that FRA may issue a decision before the standard 45-day decision deadline in emergencies or under other circumstances necessitating immediate approval. Given the circumstances and impact to NS's entire network, FRA intends to issue a decision immediately, subject to conditions and other limitation to ensure rail safety. FRA will review and consider any comments received during the comment period, even after issuing a decision.

Privacy Act Notice

In accordance with 49 CFR 211.3, FRA solicits comments from the public to better inform its decisions. DOT posts these comments, without edit, including any personal information the commenter provides, to <https://www.regulations.gov>, as described in the system of records notice (DOT/ALL-14 FDMS), which can be reviewed at <https://www.transportation.gov/privacy>.
