Federal Energy Regulatory Commission

[Docket No. ER23–2728–000]

All Clean Power, LLC; Supplemental Notice That Initial Market-Based Rate Filing Includes Request for Blanket Section 204 Authorization

This is a supplemental notice in the above-referenced proceeding of All Clean Power, LLC’s application for market-based rate authority, with an accompanying rate tariff, noting that such application includes a request for blanket authorization, under 18 CFR part 34, of future issuances of securities and assumptions of liability.

Any person desiring to intervene or to protest should file with the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission’s Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant.

Notice is hereby given that the deadline for filing protests with regard to the applicant’s request for blanket authorization, under 18 CFR part 34, of future issuances of securities and assumptions of liability, is September 20, 2023.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling

link to log on and submit the intervention or protests.

Persons unable to file electronically may mail similar pleadings to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426. Hand delivered submissions in docketed proceedings should be delivered to Health and Human Services, 12225 Wilkins Avenue, Rockville, Maryland 20852.

In addition to publishing the full text of this document in the **Federal Register**, the Commission provides all interested persons an opportunity to view and/or print the contents of this document via the internet through the Commission’s Home Page (<http://www.ferc.gov>) using the “eLibrary” link. Enter the docket number excluding the last three digits in the docket number field to access the document. At this time, the Commission has suspended access to the Commission’s Public Reference Room, due to the proclamation declaring a National Emergency concerning the Novel Coronavirus Disease (COVID–19), issued by the President on March 13, 2020. For assistance, contact the Federal Energy Regulatory Commission at FERCOnlineSupport@ferc.gov or call toll-free, (886) 208–3676 or TTY, (202) 502–8659.

The Commission’s Office of Public Participation (OPP) supports meaningful public engagement and participation in Commission proceedings. OPP can help members of the public, including landowners, environmental justice communities, Tribal members and others, access publicly available information and navigate Commission processes. For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, the public is encouraged to contact OPP at (202) 502–6595 or OPP@ferc.gov.

Dated: August 31, 2023.

Debbie-Anne A. Reese,
Deputy Secretary.

[Project No. 15312–000]

County of Alameda, CA; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On May 26, 2023, MQR Storage, LLC, filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the MQR Pumped Storage Water Battery Project to be located near the City of Tracy in Alameda County, California. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners’ express permission.

This proposed project would consist of the following: (1) a new 52-acre upper reservoir, with an anticipated maximum water surface elevation is approximately 1,640 feet above means sea level (msl), that would be formed by a 1,052-foot-long, 210-foot-high embankment dam, a 677-foot-long, 150-foot-high embankment dam, and a 508-foot-long, 80-foot-high saddle dam; (2) a 25-foot-diameter steel penstock, shaft, and pressure tunnel connecting the upper reservoir to new 210-foot by 125-foot powerhouse containing two 140-megawatt turbine generator units; (3) a draft tube extension tunnel joining a tailrace tunnel that extends into the new lower reservoir; (4) a new 40-acre lower reservoir, with an anticipated maximum water surface elevation of 940 feet msl, that would be formed by a 946-foot-long, 250-foot-high roller compacted concrete dam; (5) a 30-inch-diameter, 8-mile-long pipeline connecting the upper reservoir to either the City of Tracy’s or the City of Livermore’s water treatment plant for supply water for the initial fill and refill of the reservoir; (6) a new 1.75-mile-long, 230-kilovolt transmission line connecting the powerhouse to PG&E’s Tesla substation; and (7) appurtenant facilities. The average annual energy production of the proposed project is estimated to be approximately 368 gigawatt-hours.

Applicant Contact: Mr. Nicholas Sher, MQR Storage, LLC, 4421 Webster St., Oakland, CA 94609; email: nicholas@mqrstorage.com; phone: (510) 435–9145.
