

(4) revising the PSLW price structure that focused on destination entry only.⁴

Proposal. The Postal Service proposes that the PS/PRS mail processing and transportation cost models be modified to accommodate both the previous price structure and the new price structure. Petition, Proposal Five at 2–3. The Postal Service confirms that both price structures were in place for portions of FY 2023. *Id.* at 3.

Rationale and impact. The Postal Service provided a modified mail processing cost model in the Excel file “USPS–FY22–NP15.PROP.FIVE.xls” and a modified transportation cost model in the Excel file “USPS–FY22–NP16.PROP.FIVE.xls” under seal in Library Reference USPS–RM2023–10–NP1. *Id.* at 3, 11.

The Postal Service states that the Docket No. ACR2022 Cost and Revenue Analysis (CRA) proportional adjustment factor is incorporated in the model as a value so that the factor does not recalculate based on proposed FY 2023 modifications and the CRA proportional adjustment factor will be calculated as usual when the Docket No. ACR2023 cost model input data become available. *Id.* at 3.

The Postal Service has incorporated DHUB cost estimates for machinable, nonmachinable, oversize PSHW, and PSLW mailpieces into the summary worksheet of the modified mail processing cost model. *Id.* The new price structure consists of four destination entry levels: destination network distribution center, destination sectional center facility, DHUB, and destination delivery unit (DDU). *Id.* at 4. There are numerous other changes to other pages in the workbook described. *Id.* at 4–11.

The Postal Service states that the transportation cost model has been expanded to include both DHUB and DDU transportation cost estimates. *Id.* However, since there is no DHUB data currently available the Postal Service used intermediate and long distance PSLW DDU costs as proxies for PSLW DHUB costs. *Id.* The Postal Service states that the current methodology used to develop the DHUB cost estimates in the transportation cost model is a temporary solution. *Id.* at 13. The Postal Service assures that the cost model will be modified so that the DHUB transportation costs will be estimated using the same methodology as other price categories once DHUB volume and cubic feet data become available. *Id.*

Finally, the Postal Service has provided the mail processing unit cost estimates and the transportation cost estimate impacts under seal in an Excel file in Library Reference USPS–RM2023–10–NP1. *Id.* The Postal Service asserts that adoption of the proposed cost models would have no impact on the FY 2022 CRA-level costs. *Id.*

III. Notice and Comment

The Commission establishes Docket No. RM2023–10 for consideration of matters raised by the Petition. More information on the Petition may be accessed via the Commission’s website at <https://www.prc.gov>. SUPPLEMENTARY INFORMATION:

Rationale. On July 31, 2023, the Environmental Protection Agency (EPA) issued a proposal titled, “National Emission Standards for Hazardous Air Pollutants: Integrated Iron and Steel Manufacturing Facilities Technology Review,” 88 FR 49402 (July 31, 2023). In the proposal, the EPA provided a public comment period until September 14, 2023. The EPA has received requests for additional time to review and comment on the proposed rule. After considering these requests, the EPA has decided to extend the public comment period another 15 days, until September 29, 2023, so that the comment period will be a total of 60 days. This extension will ensure that the public has additional time to review and comment on the proposed rule.

Docket. The EPA has established a docket for this rulemaking under Docket ID No. EPA-HQ-OAR-2002-0083. All documents in the docket are listed in <https://www.regulations.gov/>. Although listed, some information is not publicly available, e.g., Confidential Business Information (CBI) or other information

whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not available through the internet based docket and will be publicly available only in hard copy. With the exception of such material, publicly available docket materials are available electronically in *Regulations.gov*.

Instructions. Direct your comments to Docket ID No. EPA-HQ-OAR-2002-0083. The EPA's policy is that all comments received will be included in the public docket without change and may be made available online at <https://www.regulations.gov/>, including any personal information provided, unless the comment includes information claimed to be CBI or other information whose disclosure is restricted by statute. Do not submit electronically to <https://www.regulations.gov/> any information that you consider to be CBI or other information whose disclosure is restricted by statute. This type of information should be submitted as discussed below.

The EPA may publish any comment received to its public docket. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. The EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.*, on the Web, cloud, or other file sharing system). For additional submission methods, the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <https://www.epa.gov/dockets/commenting-epa-dockets>.

The <https://www.regulations.gov/> website allows you to submit your comment anonymously, which means the EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an email comment directly to the EPA without going through <https://www.regulations.gov/>, your email address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the internet. If you submit an electronic comment, the EPA recommends that you include your name and other contact information in the body of your comment and with any digital storage media you submit. If the EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, the EPA may not be able to consider your comment. Electronic files should not include
