**SUPPLEMENTARY INFORMATION:** Kronos webTA (Time and Attendance) is an automated, centralized, web-based time and attendance system developed to replace the legacy Enhanced Time and Attendance (ETA) system. Kronos webTA provides a modern take on quick and accurate transmission of data, allows for rapid creation of reports, and establishes a flexible foundation for

future enhancements. The system allows employees to see "day to day" information like hours worked, leave balances, and a transparent approval workflow for timesheet certifications, and leave and premium pay request.

*Defense Civilian Pay System (DCPS)* is the primary interface of VA Payroll personnel with the Defense Finance and Accounting Service (DFAS). DCPS provides the ability to update an employee's payroll information and view payroll reports.

*Nationwide Payroll (SQL)* is primarily used for Retirement & Contingency Pay Audits and Retirement & Contingency Leave Audits. We use the system to validate retirement codes & contributions, OASDI wages, TSP GB & GM, and retirement corrections. It serves as a research tool and provides invaluable Individual Retirement Record, and Military Service Deposit.

*Office of Financial Management Resources Portal (OFMR)* application maintains payroll data for all VA employees, current and separated. It has the capability to create custom reports and export to excel format. It is used to search payroll data by SSN and VA EIN for current and separated VA employees going back to 1999 and forward. It is also used for audit purposes and serves as a repository for payroll data. We can gather historical data as needed from one application. It is used daily by the FSC Payroll Support Division.
