

written agreement templates with State recipients, subrecipients, and project owners, as required by 24 CFR 92.504(c) and 24 CFR 93.404(c).

In addition, participating jurisdictions or HTF grantees that intend to comply with the changes in the NSPIRE final rule as of the effective date should review the deficiencies established in the NSPIRE Standards notice at 88 FR 40832 and compare these requirements to their existing rehabilitation and property standards and their inspection procedures and checklists. While HUD intends to publish a subset of the deficiencies in the NSPIRE Standards that are applicable to HOME and HTF projects, participating jurisdictions and HTF grantees that implement the changes in the NSPIRE final rule before publication of the subset of deficiencies for HOME and HTF must implement the full set of deficiencies in the NSPIRE Standards in their rehabilitation and ongoing property standards and policies and procedures. Further, participating jurisdictions and HTF grantees may not implement the changes in the NSPIRE final rule until such rehabilitation and ongoing property standards and policies and procedures are updated consistent with NSPIRE.

Participating jurisdictions and HTF grantees are required to manage the day-to-day operations of their programs in accordance with all program requirements and written agreements as required at 24 CFR 92.504(a) and 24 CFR 93.404(a) respectively. However, participating jurisdictions and HTF grantees cannot impose new requirements resulting from updated regulations on project owners unless the written agreements with owners for the funds permit the participating jurisdiction or HTF grantee to do so. Consequently, participating jurisdictions or HTF grantees must determine whether the requirements applied in the written agreements that are fully executed before the effective date of the NSPIRE final rule are automatically updated when regulatory changes take effect or if such agreements must be amended to apply the new or updated requirements. This is an important consideration when participating jurisdictions or HTF grantees would like to apply the NSPIRE final rule rehabilitation and ongoing HOME or HTF property standard requirements to projects with commitments made prior to the effective date of the NSPIRE final rule and for HOME or HTF projects that are jointly funded by another HUD program with an earlier NSPIRE final rule effective date.

Instructions for CoC, ESG, and HOPWA

Many CoC, ESG, and HOPWA recipients administer housing choice vouchers or project based vouchers and may adopt NSPIRE standards for those programs beginning October 1, 2023. Nothing in this extension of the compliance date prevents CoC, ESG, and HOPWA recipients or subrecipients from using NSPIRE standards beginning October 1, 2023. HUD also intends to publish, through a **Federal Register** notice, guidance on which NSPIRE standards apply to CoC, ESG, and HOPWA programs.

IV. Conclusion

Accordingly, HUD revises the October 1, 2023, compliance date for the changes made to 24 CFR parts 92, 93, 574, 576, and 578 to October 1, 2024, at which time jurisdictions subject to these parts must comply with the NSPIRE final rule. Until October 1, 2024, participants subject to these parts may instead choose to comply with these parts as they existed prior to October 1, 2023.

Principal Deputy Assistant Secretary for Community Planning and Development.
