Title: Patent Trial and Appeal Board Appeals.

OMB Control Number: 0651-0063.

Needs and Uses: The Patent Trial and Appeal Board (PTAB or Board) is established by statute under 35 U.S.C. 6. This statute directs, in relevant part, that PTAB shall “on written appeal of an applicant, review adverse decisions of examiners upon applications for patents pursuant to section 134(a).” PTAB has the authority, under 35 U.S.C. 134 and 306 to decide appeals in applications and *ex parte* reexamination proceedings, and under pre-AIA sections of the Patent Act, *i.e.*, 35 U.S.C. 134, 135, and 315, to decide appeals in *inter partes* reexamination proceedings and interferences. In addition, 35 U.S.C. 6 establishes the membership of PTAB as the Director, the Deputy Director, the Commissioner for Patents, the Commissioner for Trademarks, and the Administrative Patent Judges. Each appeal and interference is decided by a merits panel of at least three members of the Board.

The Board's responsibilities under the statute include the review of *ex parte* appeals from adverse decisions of examiners in those situations where a written appeal is taken by a dissatisfied applicant or patent owner. In *inter partes* reexamination appeals, PTAB reviews examiner's decisions adverse to a patent owner or a third-party

requester. PTAB's opinions and decisions for publicly available files are published on the USPTO website. The Board also conducts interference proceedings.

The items associated with this information collection include appeals in applications and *ex parte* reexamination proceedings, and appeals in *inter partes* reexamination proceedings and interference proceedings that are governed by the regulations in 37 CFR 41. Failure to comply with the appropriate regulations may result in dismissal of the appeal or denial of entry of the submission.

This revision and extension of the information collection includes a line item to expressly specify certain filings made to the Board related to interference proceedings, including statements, motions, oppositions, and replies in preliminary and priority phases of an interference.
