SUPPLEMENTARY INFORMATION:**I. Abstract**

The National Marine Fisheries Service (NMFS), Alaska Regional Office, is requesting extension of a currently approved information collection.

This information collection contains requirements for the Central Gulf of Alaska Rockfish Program (Rockfish Program) and is necessary for NMFS to administer and monitor compliance with the management provisions of the Rockfish Program. This information collection is required in Rockfish Program regulations at 50 CFR part 679.

The Rockfish Program is a limited access privilege program developed to enhance resource conservation and improve economic efficiency in the Central Gulf of Alaska rockfish fisheries. The rockfish fisheries are conducted in Federal waters near Kodiak, Alaska, by trawl vessels and longline vessels. The Rockfish Program assigns quota share (QS) to License Limitation Program (LLP) licenses for rockfish primary and secondary species based on legal landings associated with that LLP.

Each year, an LLP license holder assigns the LLP license with rockfish QS to a rockfish cooperative. Each rockfish cooperative receives an annual cooperative fishing quota (CQ), which is an amount of primary and secondary rockfish species the cooperative is able to harvest in that fishing year.

This collection contains the information collection requirements submitted by the rockfish cooperatives for an annual rockfish CQ permit, inter-cooperative quota transfers, and vessel check-in/check-out and termination of fishing reports.

The Application for Rockfish Cooperative Fishing Quota is submitted annually by a rockfish cooperative to receive the cooperative’s annual CQ
