SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for extension of a currently approved information collection.

On February 23, 2021, NMFS published in the **Federal Register** a final rule (86 FR 10857) allowing a Pacific whiting sector cooperative or group of vessels to develop a Salmon Mitigation Plan (SMP) to promote reduction in Chinook salmon bycatch. The SMP is a voluntary agreement by a Pacific whiting fishery Mothership (MS), Catcher/processor (C/P), or Pacific whiting individual fishing quota (IFQ) fishery group to manage Chinook salmon bycatch. The SMP would be approved by NMFS. Those groups with an approved SMP would be required to provide an annual postseason report to the Council and NMFS no later than March 31. The report would describe the group's use of Chinook salmon bycatch avoidance measures and an evaluation of the effectiveness of those measures. It would also describe any amendments to the terms of the SMP that were approved by NMFS during the

fishing year in which the SMP was approved and the reasons that the amendments to the SMP were made. The rule also established that vessels with a NMFS-approved SMP have access to the Chinook salmon bycatch reserve regardless of NMFS implementing other inseason measures to minimize salmon bycatch. Participation in an SMP is voluntary; however, any vessel that chooses not to participate in an SMP would be subject to additional salmon bycatch minimization measures prior to being allowed access to the reserve. The associated regulations are found at 50 CFR part 660. OMB approved the collection-of-information requirements contained in the final rule on March 10, 2021, under OMB Control Number 0648–0794 (Pacific Coast Groundfish Salmon Bycatch Minimization).

II. Method of Collection

The designated SMP representative will have the option of submitting a proposed SMP and/or postseason SMP report to NMFS electronically or by mail.

SUPPLEMENTARY INFORMATION:

Title: Rules Relating to the Operations and Activities of Commodity Pool Operators and Commodity Trading Advisors and to Monthly Reporting by Futures Commission Merchants (OMB Control No. 3038–0005). This is a request for extension of a currently approved information collection.

Abstract: The various collections of information required by part 4 of the Commission’s regulations were previously approved by OMB in accordance with the PRA and assigned OMB control number 3038–0005.² The Commission offers the following summary of the renewal and the resulting impact on existing burden hour estimates associated with this information collection. The Commodity Exchange Act (CEA) empowers the Commission with the authority to require commodity pool operators (CPOs) and commodity trading advisors (CTAs) to maintain books and records and to file reports as required by the Commission.³ The Commission also has the power to promulgate such regulations as it deems necessary to implement the purposes of the CEA.⁴ It is pursuant to this authority that the Commission has promulgated the various compliance requirements for CPOs and CTAs in 17 CFR part 4. The reporting, filing, and recordkeeping requirements within part 4 of the Commission’s regulations were adopted to assist and inform customers, to establish customer protection initiatives for investors, to facilitate monitoring intermediary compliance with part 4 regulations by the Commission and its delegatee, the National Futures Association (NFA), and to enable the Commission to better monitor the market risks posed by its registrants. The information collections are necessary to enable the Commission and NFA to accomplish the purposes of both the CEA and the compliance regime set forth in part 4 of the Commission’s regulations.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. On July 12, 2023, the Commission published in the **Federal Register** notice of the proposed extension of this information collection and provided 60 days for public comment on the proposed extension, 88 FR 44280 (60-Day Notice). The Commission did not receive any relevant substantive comments on the 60-Day Notice.
