SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it makes the necessary updates for airspace areas within the National Airspace System.

History

Federal Aviation Administration Airspace Order JO 7400.11, Airspace Designations and Reporting Points, incorporated by reference in 14 CFR 71.1, is published yearly. Amendments referred to as "effective date straddling amendments" were published under Order JO 7400.11G (dated August 19, 2022, and effective September 15, 2022) but became effective under Order JO 7400.11H (dated August 11, 2023, and effective September 15, 2023). This action incorporates these rules into the current FAA Order JO 7400.11H.

Accordingly, as this is an administrative correction to update final rule amendments into FAA Order JO 7400.11H, notice and public procedure under 5 U.S.C. 553(b) are unnecessary. Also, to bring these rules and legal descriptions current, I find that good cause exists, under 5 U.S.C. 553(d), for making this amendment effective in less than 30 days.

Incorporation by Reference

This document amends FAA Order JO 7400.11H, Airspace Designations and Reporting Points, which is incorporated by reference in 14 CFR 71.1 on an annual basis. This document amends the current version of that order, FAA

Order JO 7400.11H, dated August 11, 2023, and effective September 15, 2023. FAA Order JO 7400.11H is publicly available as listed in the **ADDRESSES** section of this document. These amendments will be published in the next update to FAA Order JO 7400.11.

FAA Order JO 7400.11H lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Rule

This action amends 14 CFR part 71 by incorporating certain final rules into the current FAA Order JO 7400.11H, Airspace Designations and Reporting Points, dated August 11, 2023, and effective September 15, 2023, which are depicted on aeronautical charts.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

SUPPLEMENTARY INFORMATION:

I. Introduction

On February 14, 2023, the Commission proposed amendments to its existing regulations under the Privacy Act, 5 U.S.C. 552a,¹ to reflect changes to clarify, update, and streamline the language of several procedural provisions. The Commission received sixteen comments on the proposed amendments, eleven of which were unrelated to the proposed rule. After consideration of the comments received, the Commission is adopting the amendments to its Privacy Act regulations as proposed. This final rule replaces the Commission’s existing Privacy Act regulations in their entirety (17 CFR 200.301 through 200.313).

II. Amendments

A. Amendments To Update, Clarify, and Streamline the Privacy Act Regulations

The Commission is adopting amendments to certain procedural provisions to clarify, update, and streamline the Commission’s Privacy Act regulations.² The final rule, among other things: clarifies the purpose and scope of the regulations (Section 200.301); updates definitions so that the processes set forth in the regulations are more plainly described (17 CFR 200.302); simplifies the processes for submitting and receiving responses to Privacy Act inquiries, requests, and administrative appeals (17 CFR 200.303, 305, 306, 307, and 308); allows for requesters to electronically verify their identities, including by facsimile, email, or an online Commission form (17 CFR 200.303); provides for a shorter Commission response time to Privacy Act inquiries as to whether a specific system of records maintained by the Commission contains a record pertaining to the requester, which aligns with other relevant time lines (17 CFR 200.304); updates agency contact information (*e.g.*, office names, facsimile numbers, email addresses, and physical addresses) (17 CFR 200.303, 305, 308, and 309); and updates the list of Commission systems of records that have promulgated rules exempting certain records from certain provisions of the Privacy Act (17 CFR 200.310).

¹ See Release No. 34–96906 (Feb. 14, 2023), 88 FR 10483 (Feb. 21, 2023) (“Proposing Release”).

² These amendments are discussed in greater detail in Section IV. Economic Analysis.
