

drinking, cooking, or infant formula; and whether the filter is being used per manufacturer's instructions.

Form Numbers: 6700–009.

Respondents/affected entities:

Households served by Denver Water that have a known, suspected, or possible lead service line or a galvanized line in need of replacing (per the 2022 Variance), and who have been distributed a pitcher filter through the filter distribution program.

Respondent's obligation to respond: Voluntary.

Estimated number of respondents: 2,000 (total).

Frequency of response: Once in 2025, then biennially.

Total estimated burden: 323 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$22,111 (per year), which includes \$667 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is decrease of 947.34 hours per year in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease is a result of Denver Water reducing their estimates of per survey burden as well as the fact that only one survey will be conducted in this three-year period versus three in the period covered by the previous ICR.

Director, Regulatory Support Division.

Metamitron; Receipt of Application for Emergency Exemption, Solicitation of Public Comment

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has received specific exemption requests from the Colorado and Nebraska Departments of Agriculture to use the pesticide metamitron (CAS No. 41394–05–2) to treat up to 69,596 acres of sugar beets to control the invasive weed, Palmer amaranth. The applicants propose the use of a new chemical which has not been registered by EPA. EPA is soliciting public comment before making the decision whether or not to grant the exemptions, in accordance

with the regulation at 40 Code of Federal Regulations (CFR) part 166.24(a)(1).

DATES: Comments must be received on or before October 13, 2023.

ADDRESSES: Submit your comments, identified by docket identification (ID) number EPA–HQ–OPP–2023–0463, through the *Federal eRulemaking Portal* at <https://www.regulations.gov>. SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

You may be potentially affected by this action if you are an agricultural producer, food manufacturer, or pesticide manufacturer. The following list of North American Industrial Classification System (NAICS) codes is not intended to be exhaustive, but rather provides a guide to help readers determine whether this document applies to them. Potentially affected entities may include:

- Crop production (NAICS code 111).
- Animal production (NAICS code 112).
- Food manufacturing (NAICS code 311).
- Pesticide manufacturing (NAICS code 32532).

B. What should I consider as I prepare my comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through <https://www.regulations.gov> or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD–ROM that you mail to EPA, mark the outside of the disk or CD–ROM as CBI and then identify electronically within the disk or CD–ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not

contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When preparing and submitting your comments, see the commenting tips at <https://www.epa.gov/dockets/commenting-epa-dockets>.

3. *Environmental justice.* EPA seeks to achieve environmental justice, the fair treatment and meaningful involvement of any group, including minority and/or low-income populations, in the development, implementation, and enforcement of environmental laws, regulations, and policies. To help address potential environmental justice issues, the Agency seeks information on any groups or segments of the population who, as a result of their location, cultural practices, or other factors, may have atypical or disproportionately high and adverse human health impacts or environmental effects from exposure to the pesticide discussed in this document, compared to the general population.

II. What action is the Agency taking?

Under section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) (7 U.S.C. 136p), at the discretion of the EPA Administrator, a Federal or State agency may be exempted from any provision of FIFRA if the EPA Administrator determines that emergency conditions exist which require the exemption. The Colorado and Nebraska Departments of Agriculture have requested the EPA Administrator to issue specific exemptions for the use of metamitron on sugar beets to control Palmer amaranth. Information in accordance with 40 CFR part 166 was submitted as part of the requests.

As part of this request, the applicants assert that emergency conditions exist due to insufficient means to control Palmer amaranth in sugar beets, and the use of metamitron will help avert significant economic losses.

The Applicants propose to apply a total of 64 fluid ounces per acre of the unregistered product, Goltix 700 SC (containing 58.3% metamitron, equivalent to 5.84 lbs. of metamitron per gallon of product) on up to 22,468 acres of sugar beets in Colorado, and 47,128 acres in Nebraska (total of 69,596 acres) from April 1 to May 31, 2024, using a potential product maximum of 11,234 gallons in Colorado and 23,564 gallons in Nebraska (total of 34,798 gallons of Goltix 700 SC, equivalent to 203,221 lbs. of metamitron).

This notice does not constitute a decision by EPA on the applications themselves. The regulations governing FIFRA section 18 at 40 CFR part 166.24(a)(1) require publication of a notice of receipt of an application for a specific exemption proposing use of a new chemical (*i.e.*, an active ingredient) which has not been registered by EPA. The notice provides an opportunity for public comment on the applications.

The Agency will review and consider all comments received during the comment period in determining whether to issue the specific exemptions requested by the Colorado and Nebraska Departments of Agriculture.

Authority: 7 U.S.C. 136 *et seq.*

Dated: September 21, 2023.

Charles Smith,

Director, Registration Division, Office of Pesticide Programs.
