Mid-Atlantic Fishery Management Council (MAFMC); Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; public meeting.

SUMMARY: The Mid-Atlantic Fishery Management Council will hold a public webinar to collect input on NOAA Fisheries' Draft Climate Governance Policy.

DATES: The meeting will be held on Monday, October 16, 2023, from 2 p.m. until 4 p.m., EDT. For agenda details, see **SUPPLEMENTARY INFORMATION**.

ADDRESSES: The meeting will be held via webinar. Connection information will be posted prior to the meeting at www.mafmc.org.

Council address: Mid-Atlantic Fishery Management Council, 800 N State Street, Suite 201, Dover, DE 19901; telephone: (302) 674–2331; www.mafmc.org.

FOR FURTHER INFORMATION CONTACT: Christopher M. Moore, Ph.D., Executive Director, Mid-Atlantic Fishery Management Council, telephone: (302) 526–5255.

SUPPLEMENTARY INFORMATION: The Mid-Atlantic Fishery Management Council (Council) will host a webinar to collect public input on NOAA Fisheries' Draft Climate Governance Policy. Comments provided during the webinar will be compiled for submission to NOAA Fisheries. Instructions for submitting written comments are available at: <https://www.mafmc.org/actions/nmfs-climate-governance-policy>.

In May 2023, NOAA Fisheries released a draft procedural directive titled “Guidance on Council Authority for Preparing Fishery Management Plans for Stocks that May Extend across the Geographic Areas of more than one Council, pursuant to MSA § 304(f)” (also referred to as the “Climate Governance Policy”). Under the Magnuson-Stevens Fishery Conservation and Management Act (MSA), each of the eight regional fishery management councils has responsibility for fisheries within specified geographic areas and is required to prepare and submit fishery management plans (FMPs) for fisheries that “require conservation and management.” In situations where a fishery extends beyond the geographic area of any one Council, section 304(f) of the MSA authorizes the Secretary of Commerce to either designate a single Council to prepare an FMP or require two or more Councils to prepare an FMP jointly. The draft policy is intended to provide guidance on when and how the Secretary will review and assign management authority over existing (and potentially new) fisheries found across more than one Council jurisdiction. NOAA Fisheries has stated that additional guidance is needed to

address governance issues associated with climate-related shifts in stock distributions.

Given the Mid-Atlantic Council's shared regional boundaries with two other East coast Councils, as well as the number of Mid-Atlantic stocks that extend beyond the Council region boundaries, this policy has the potential to directly impact a number of Mid-Atlantic Council fishery management plans. The purpose of this webinar is to inform Mid-Atlantic Council stakeholders on the development of this draft policy, and to ensure that Council stakeholders have the opportunity to provide feedback to NOAA Fisheries on this issue.

Additional information, background documents, and instructions for providing written comments will be posted to the Council's website at: <https://www.mafmc.org/actions/nmfs-climate-governance-policy>.

SUPPLEMENTARY INFORMATION:

Agenda

The Advisory Panel will review Framework Adjustment (FW) 38: Receive an update and provide input on a range of potential access area and DAS allocations for the 2024 and 2025 fishing years. Council staff will update the group on any modifications the Council may make to the scope of this action at the September Council meeting. FW 38 will set specifications including ABC/ACLs, days-at-sea, access area allocations, total allowable landings for the Northern Gulf of Maine (NGOM) management area, targets for General Category incidental catch, General Category access area trips, and set-asides for the observer and research programs for fishing year 2024 and default specifications for fishing year 2025. They also plan to discuss the Northern Edge Framework: Receive an update on progress and review the timeline for this action. They will also develop recommendations for possible 2024 scallop work priorities. Other business will be discussed, if necessary.

Although non-emergency issues not contained on the agenda may come before this Council for discussion, those issues may not be the subject of formal action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency. The public also should be aware that the meeting will be recorded. Consistent with 16 U.S.C. 1852, a copy of the recording is available upon request.

Endangered Species; File No. 27686

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; receipt of application and conservation plan for renewal of an incidental take permit.

SUMMARY: Notice is hereby given that the Hudson River Sloop Clearwater, Incorporated (hereinafter 'Clearwater') has applied in due form to renew a permit pursuant to the Endangered Species Act of 1973, as amended (ESA). The renewal permit application is for the incidental take of Atlantic sturgeon (*Acipenser oxyrinchus oxyrinchus*) and shortnose sturgeon (*A. brevirostrum*) associated with the otherwise lawful environmental education program conducted on the Hudson River, New York. The education program uses small otter trawls and beach seines to collect fish and invertebrate specimens that are held onboard the vessels for educational purposes. The duration of the proposed permit is 10 years. NMFS is providing this notice in order to allow other agencies and the public an opportunity to review and comment on the application materials. All comments received will become part of the public record and will be available for review.

DATES: Written comments must be received at the appropriate address or fax number (see **ADDRESSES**) on or before October 30, 2023.

ADDRESSES: The application is available for download and review at <https://www.fisheries.noaa.gov/national/endangered-species-conservation/incidental-take-permits> and at <https://www.regulations.gov>. The application is also available upon request (see **FOR FURTHER INFORMATION CONTACT**).
