Instructions for submitting written comments are available at: <https://www.mafmc.org/actions/nmfs-climate-governance-policy>.

In May 2023, NOAA Fisheries released a draft procedural directive titled "Guidance on Council Authority for Preparing Fishery Management Plans for Stocks that May Extend across the Geographic Areas of more than one Council, pursuant to MSA § 304(f)" (also referred to as the "Climate Governance Policy"). Under the Magnuson-Stevens Fishery Conservation and Management Act (MSA), each of the eight regional fishery management councils has responsibility for fisheries within specified geographic areas and is required to prepare and submit fishery management plans (FMPs) for fisheries that "require conservation and management." In situations where a fishery extends beyond the geographic area of any one Council, section 304(f) of the MSA authorizes the Secretary of Commerce to either designate a single Council to prepare an FMP or require two or more Councils to prepare an FMP jointly. The draft policy is intended to provide guidance on when and how the Secretary will review and assign management authority over existing (and potentially new) fisheries found across more than one Council jurisdiction. NOAA Fisheries has stated that additional guidance is needed to
