SUPPLEMENTARY INFORMATION: Section 9 of the ESA and Federal regulations prohibit the ‘taking’ of a species listed as endangered or threatened. The ESA defines “take” to mean harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct. NMFS may issue permits, under limited circumstances to take listed species incidental to, and not the purpose of, otherwise lawful activities. Section 10(a)(1)(B) of the ESA provides for authorizing incidental take of listed species. NMFS governing regulations for permits for incidental taking of threatened and endangered species are promulgated at 50 CFR 222.307.

Background

On July 10, 2023, Clearwater Inc. sent a permit renewal request before permit number 18600 expires December 31, 2023. On August 28, 2023, NMFS met with Clearwater Inc. to discuss reducing the number of requested takes for the permit from 20 to 10 sturgeon over the course of the 10-year project.

Over the course of the 10-year project two sturgeons were captured during the proposed action. The species affected were two Atlantic sturgeon. The two

sturgeon were released back into the Hudson River immediately after they were brought up to the boat. The Clearwater applicant has submitted end of year reports every year. There were no compliance issues throughout the permit that would prevent the application from being renewed for another 10 years.

Conservation Plan

Clearwater’s conservation plan describes measures to minimize, monitor, and mitigate the incidental take of ESA-listed Atlantic and shortnose sturgeon. Clearwater will regularly communicate with New York State Department of Environmental Conservation to avoid known sturgeon habitat and spawning grounds. Clearwater will use small otter trawls (95.52 by 45.72 centimeter doors and weigh less than 0.45 kilograms) and short tow times (= < 5 minutes). Beach seines, which allow for targeted catch, will be used where practicable (*e.g.*, away from urban areas and where tides allow). If Clearwater incidentally captures a sturgeon in its sets, it will follow protocols for safe handling and immediately release any sturgeon caught. Clearwater will maintain a detailed log of all gear sets and will submit to NMFS incident and annual reports of incidental capture, if any, of listed sturgeon.

National Environmental Policy Act

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), as implemented by 40 CFR parts 1500–1508 and NOAA Administrative Order 216–6, Environmental Review Procedures for Implementing the National Policy Act (1999), an initial determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

Next Steps

This notice is provided pursuant to section 10(c) of the ESA. NMFS will evaluate the application, associated documents, and comments received during the comment period to determine whether the application meets the requirements of section 10(a) of the ESA. If NMFS determines that the requirements are met, a permit will be issued for incidental takes of ESA-listed sturgeon. The final NEPA and permit determinations will not be made until after the end of the comment period. NMFS will publish a record of its final action in the **Federal Register**.

SUPPLEMENTARY INFORMATION:

Dolphin Wahoo Advisory Panel (AP) Meeting

The Dolphin Wahoo AP will develop and update a fishery performance report for wahoo, receive a presentation from the National Marine Fisheries Service

Southeast Fisheries Science Center on a Dolphin Management Strategy Evaluation (MSE) under development and will be asked to provide feedback on climate-related and other aspects of the MSE. The Dolphin Wahoo AP will also receive updates on recent Council actions including Dolphin Wahoo Regulatory Amendment 3 (addressing minimum size limits and recreational retention limits for dolphin), the Council's Citizen Science Program, and the "What It Means to Me" outreach initiative. The AP will provide input on other topics as needed.

Mackerel Cobia AP

The Mackerel Cobia AP will discuss Framework Amendment 13 to the Fishery Management Plan for Coastal Migratory Pelagics Resources in the Gulf of Mexico and Atlantic Region, which would update catch levels for Atlantic migratory group Spanish mackerel based on the most recent stock assessment (SEDAR 78) and Scientific and Statistical Committee recommendations. The Mackerel Cobia AP will also provide input on Mackerel Port Meetings, mackerel tournament landings, and complete a fishery performance report for Atlantic migratory group king mackerel. The Mackerel Cobia AP will receive updates on the Council's Citizen Science program, the "What It Means to Me" outreach initiative, and offshore wind activities. The AP will provide input on other topics as needed.

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for auxiliary aid should be directed to the Council office (see **ADDRESSES**) 5 days prior to the meeting.
