

have lead time challenges should the NOPR be finalized as proposed.

2. Provide information, data, and associated analysis detailing specific challenges regarding to lead time.

Public Participation

DOE will accept data and information responding to this document, but no later than the date provided in the **DATES** section at the beginning of this document. Interested parties may submit the requested data and information using any of the methods described in the **ADDRESSES** section at the beginning of this document.

Submitting responses via www.regulations.gov. The *www.regulations.gov* web page will require you to provide your name and contact information. Your contact information will be viewable to DOE Building Technologies staff only. Your contact information will not be publicly viewable except for your first and last names, organization name (if any), and submitter representative name (if any). If your response is not processed properly because of technical difficulties, DOE will use this information to contact you. If DOE cannot read your response due to technical difficulties and cannot contact you for clarification, DOE may not be able to consider your response.

However, your contact information will be publicly viewable if you include it in the response itself or in any documents attached to your response. Any information that you do not want to be publicly viewable should not be included in your response, nor in any document attached to your response. Persons viewing responses will see only first and last names, organization names, correspondence containing responses, and any documents submitted with the responses.

Do not submit to *www.regulations.gov* information for which disclosure is restricted by statute, such as trade secrets and commercial or financial information (hereinafter referred to as Confidential Business Information (CBI)). Responses submitted through *www.regulations.gov* cannot be claimed as CBI. Responses received through the website will waive any CBI claims for the information submitted. For information on submitting CBI, see the Confidential Business Information section.

DOE processes submissions made through *www.regulations.gov* before posting. Normally, responses will be posted within a few days of being submitted. However, if large volumes of responses are being processed simultaneously, your response may not

be viewable for up to several weeks. Please keep the tracking number that *www.regulations.gov* provides after you have successfully uploaded your response.

Submitting comments via email or postal mail. Responses and documents submitted via email or postal mail also will be posted to *www.regulations.gov*. If you do not want your personal contact information to be publicly viewable, do not include it in your response or any accompanying documents. Instead, provide your contact information in a cover letter. Include your first and last names, email address, telephone number, and optional mailing address. The cover letter will not be publicly viewable as long as it does not include any requested information.

Include contact information each time you submit responses, data, documents, and other information to DOE. If you submit via postal mail please provide all items on a CD, if feasible, in which case it is not necessary to submit printed copies. No telefacsimiles (“faxes”) will be accepted.

Responses, data, and other information submitted to DOE electronically should be provided in PDF (preferred), Microsoft Word or Excel, WordPerfect, or text (ASCII) file format. Provide documents that are not secured, that are written in English, and that are free of any defects or viruses. Documents should not contain special characters or any form of encryption and, if possible, they should carry the electronic signature of the author.

Campaign form letters. Please submit campaign form letters by the originating organization in batches of between 50 to 500 form letters per PDF or as one form letter with a list of supporters’ names compiled into one or more PDFs. This reduces processing and posting time.

Confidential Business Information. Pursuant to 10 CFR 1004.11, any person submitting information that he or she believes to be confidential and exempt by law from public disclosure should submit via email two well-marked copies: one copy of the document marked “confidential” including all the information believed to be confidential, and one copy of the document marked “non-confidential” with the information believed to be confidential deleted. DOE will make its own determination about the confidential status of the information and treat it according to its determination.

It is DOE’s policy that all responses may be included in the public docket, without change and as received, including any personal information provided in the comments (except

information deemed to be exempt from public disclosure).

Signing Authority

This document of the Department of Energy was signed on September 26, 2023, by Jeffrey Marootian, Principal Deputy Assistant Secretary for Energy Efficiency and Renewable Energy, pursuant to delegated authority from the Secretary of Energy. That document with the original signature and date is maintained by DOE. For administrative purposes only, and in compliance with requirements of the Office of the Federal Register, the undersigned DOE Federal Register Liaison Officer has been authorized to sign and submit the document in electronic format for publication, as an official document of the Department of Energy. This administrative process in no way alters the legal effect of this document upon publication in the **Federal Register**.

Signed in Washington, DC, on September 27, 2023.

Treena V. Garrett,

Federal Register Liaison Officer, U.S. Department of Energy.

BILLING CODE 6450–01–P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Parts 25, 27, 29, 91, 121, 125, and 135

[Docket No.: FAA–2019–0491; Notice No. 23–12]

RIN 2120–AK34

Interior Parts and Components Fire Protection for Transport Category Airplanes; Extension of Comment Period

AGENCY: Federal Aviation Administration (FAA), Department of Transportation (DOT).

ACTION: Supplemental notice of proposed rulemaking (SNPRM); Extension of comment period.

SUMMARY: This action extends the comment period for a SNPRM titled “Interior Parts and Components Fire Protection for Transport Category Airplanes” that was published on August 17, 2023. In that document, the FAA provided additional information on its proposed elimination of a smoke emissions testing requirement. The FAA also changed its calculations related to the proposed rule’s costs and benefits. The FAA is extending the comment period closing date to allow commenters

additional time to analyze the proposed rule and prepare a response.

DATES: The comment period for the SNPRM published on August 17, 2023, at 88 FR 55941, is extended. Comments should be received on or before November 30, 2023.

ADDRESSES: Send comments identified by docket number FAA–2019–0491 using any of the following methods:

- *Federal eRulemaking Portal:* Go to www.regulations.gov and follow the online instructions for sending your comments electronically.

- *Mail:* Send comments to Docket Operations, M–30; U.S. Department of Transportation (DOT), 1200 New Jersey Avenue SE, Room W12–140, West Building Ground Floor, Washington, DC 20590–0001.

- *Hand Delivery or Courier:* Take comments to Docket Operations in Room W12–140 of the West Building Ground Floor at 1200 New Jersey Avenue SE, Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

- *Fax:* Fax comments to Docket Operations at 202–493–2251.

Privacy: In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its rulemaking process. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL–14 FDMS), which can be reviewed at www.dot.gov/privacy.

Docket: Background documents or comments received may be read at www.regulations.gov at any time. Follow the online instructions for accessing the docket or go to the Docket Operations in Room W12–140 of the West Building Ground Floor at 1200 New Jersey Avenue SE, Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Jeff Gardlin, AIR–20, Office of Senior Technical Experts, Aircraft Certification Service, Federal Aviation Administration, 2200 South 216th Street, Des Moines, WA 98198; telephone (206) 231–3146; email Jeff.Gardlin@faa.gov.

SUPPLEMENTARY INFORMATION:

A. Comments Invited

The FAA invites interested persons to participate in this rulemaking by submitting written comments, data, or views. The agency also invites comments relating to the economic, environmental, energy, or federalism impacts that might result from adopting the proposals in this document. The

most helpful comments reference a specific portion of the proposal, explain the reason for any recommended change, and include supporting data. To ensure the docket does not contain duplicate comments, commenters should send only one copy of written comments, or if comments are filed electronically, commenters should submit only one time.

The FAA will file in the docket all comments it receives, as well as a report summarizing each substantive public contact with FAA personnel concerning this proposed rulemaking. Before acting on this proposal, the FAA will consider all comments it receives on or before the closing date for comments. The FAA will consider comments filed after the comment period has closed if it is possible to do so without incurring expense or delay. The agency may change this proposal in light of the comments it receives.

B. Availability of Rulemaking Documents

An electronic copy of rulemaking documents may be obtained from the internet by—

1. Searching the Federal eRulemaking Portal at www.regulations.gov;
2. Visiting the FAA’s Regulations and Policies web page at www.faa.gov/regulations_policies/; or
3. Accessing the Government Printing Office’s web page at www.GovInfo.com.

Copies may also be obtained by sending a request to the Federal Aviation Administration, Office of Rulemaking, ARM–1, 800 Independence Avenue SW, Washington, DC 20591, or by calling (202) 267–9680. Commenters must identify the docket or notice number of this rulemaking.

All documents the FAA considered in developing this proposed rule, including economic analyses and technical reports, may be accessed from the internet through the Federal eRulemaking Portal referenced in item (1) above.

Background

On August 17, 2023, the FAA published a SNPRM titled “Interior Parts and Components Fire Protection for Transport Category Airplanes” in the **Federal Register** (88 FR 55941; Notice No. 23–12). In the SNPRM, the FAA provided additional information on its proposed elimination of a smoke emissions testing requirement. The FAA also changed its calculations related to the proposed rule’s costs and benefits. Although the rule language is repeated in the SNPRM for completeness, there are no changes to the rule language as originally proposed in the associated

NPRM. The FAA is extending the comment period closing date to allow commenters additional time to analyze the proposed rule and prepare a response. Commenters were instructed to provide comments on or before October 2, 2023 (*i.e.*, 45 days from the date of publication of the SNPRM).

Since publication, the FAA has received five requests to extend the comment period by an additional one hundred and twenty (120) days. The commenters requested more time to review the proposed rule and develop comments and recommendations.

The FAA grants the petitioners’ request for an extension of the comment period. The FAA recognizes the importance of the proposed rule and that an extension would help commenters craft complete and thoughtful responses. However, the FAA believes that an additional sixty (60) days provides sufficient opportunity to review the SNPRM and provide comments. With this extension, the comment period will now close on November 30, 2023. This will provide the public with a total of one hundred and five (105) days to conduct its review and submit comments to the docket.

The FAA will not grant any additional requests to further extend the comment period for this rulemaking.

Extension of Comment Period

In accordance with § 11.47(c) of Title 14, Code of Federal Regulations, the FAA has reviewed the petitions for extension of the comment period for this notice. The petitioners have shown a substantive interest in the proposed policy and good cause for the extension of the comment period. The FAA has determined that an extension of the comment period for an additional sixty (60) days to November 30, 2023 is consistent with the public interest, and that good cause exists for taking this action.

Accordingly, the comment period for Notice No. 23–12 is extended until November 30, 2023.

Issued under authority provided by 49 U.S.C. 106(f), 44701(a), and 44703 in Washington, DC.

Brandon Roberts,

Executive Director, Office of Rulemaking.
