

the public health emergency with respect to the Coronavirus Disease (COVID–19).

The current information collection is being used to solicit information related to:

- Annual performance reports submitted by CPF recipients that are States, Territories, or freely associated states. This report is being renewed without changes;
- Quarterly project and expenditure reports submitted by CPF recipients that are States, Territories, or freely associated states. The requirements for this report are being amended as described below; and
- Annual project and expenditure reports submitted by CPF recipients that are Tribal governments. The requirements for this report are being amended as described below.

The Compliance and Reporting Guidance for States, Territories, and Freely Associated States, and the Compliance and Reporting Guidance for Tribal Governments provide recipients with information needed to fulfill their reporting requirements and compliance obligations. Data is submitted to Treasury using a web-based portal and in accordance with specific data requirements.

Project and expenditure reports must be submitted quarterly for the duration of the period of performance for States, Territories, and freely associated states, and annually for the duration of the period of performance for Tribal governments. The project and expenditure report contains a set of standardized questions to ascertain the recipient's use of funds received as of the date of reporting, as well as the status of individual projects. Treasury will make the data submitted by recipients publicly available.

Performance reports must be submitted annually for recipients that are States, Territories, and freely associated states for the duration of the period of performance. These performance reports contain detailed performance data corresponding to the "Programs" specified previously in a recipient's Grant Plan. This will include information on efforts to improve equity and engage communities. The performance report is largely freely written text, and while there are certain data and topics that recipients must cover in the performance report, it is mostly free-form written content. Recipients are required to publish the performance report on their website and provide the reports to Treasury.

Proposed Changes: On June 2, 2023, Treasury received approval for a revision to this information collection

on an emergency processing basis. Treasury presently seeks non-emergency approval for the same revision in accordance with normal PRA clearance procedures. The revision is to add two new fields for recipients to report on Federal Communications Commission (FCC) identifiers in order to uniquely identify the precise location of CPF funded broadband projects. The revision is the same for States, Territories, Freely Associated States, and Tribal recipients. Treasury expects that recipients have these FCC identifiers on-hand, and the estimated burden remains unchanged.

1. **Provider ID.** The Provider ID is the identifier that the FCC assigns to every internet Service Provider (ISP). Any entity undertaking a broadband infrastructure project already has this number.

2. **Fabric ID.** The Fabric ID is assigned to every "broadband serviceable location" in the "fabric", a database of all serviceable locations. For example, an apartment building which is broadband serviceable will have a unique Fabric ID assigned by the FCC. CPF recipients who are completing broadband projects are required to provide the Fabric IDs for the locations that they are serving.

Background Justifying the Changes. Section 60105 of the Infrastructure Investment and Jobs Act (Pub. L. 117–58) required the FCC to establish an online mapping tool with broadband locations funded by Federal agencies. As a result, CPF reporting guidance has been updated.

Title: Service Members’ Group Life Insurance—Spouse Coverage (FSGLI) Election and Certification Form SGLV 8286A.

OMB Control Number: 2900–NEW.

Type of Review: New collection.

Abstract: Family Servicemembers’ Group Life Insurance (FSGLI) provides insurance coverage to spouses of Servicemember’s Group Life Insurance (SGLI) insured individuals. SGLI and all associated insurance programs are VA benefits. The SGLV 8286A form is used by Service Members and their spouses when the Service Member is unable to access their Servicemembers Group Life Insurance Online Enrollment System (SOES) account to electronically elect, increase, decrease or decline coverage. If the member is increasing or electing

coverage on their spouse after prior declination or reduction and the spouse has health issues, the member’s uniformed service reviews the request and sends to the primary insurer for the SGLI program, The Prudential Insurance Company of America (Prudential), through its’ Office of Servicemembers’ Group Life Insurance (OSGLI), to underwrite and make a decision on coverage. This form ensures members, and their spouses can continue to use the form to manage their FSGLI spousal benefits.

Affected Public: Individuals and households.

Estimated Annual Burden: 267 hours.

Estimated Average Burden per

Respondent: 10 minutes.

Frequency of Response: One time.

Estimated Number of Respondents: 1,600.

By direction of the Secretary.
