### Commodity Credit Corporation

#### Domestic Sugar Program—FY 2023 Reassignment and FY 2024 Overall Sugar Marketing Allotment, Cane Sugar and Beet Sugar Marketing Allotments and Company Allocations

**AGENCY:** Commodity Credit Corporation, USDA.

**ACTION:** Notice.

**SUMMARY:** The United States Department of Agriculture (USDA) is issuing this notice to: revise fiscal year (FY) 2023 (crop year 2022) State cane sugar allotments and allocations to sugarcane processors; reassign FY 2023 cane sugar marketing allocations to raw cane sugar imports already anticipated; and announce the FY 2024 (crop year 2023) overall sugar marketing allotment quantity (OAQ), State cane sugar allotments, and sugar beet and sugarcane processor allocations. The actions to revise and reassign apply to all domestic cane sugar marketed for human consumption in the United States from October 1, 2022, through September 30, 2023, and the action to announce the allocations applies to all domestic beet and cane sugar marketed for human consumption in the United States from October 1, 2023, through September 30, 2024.

**SUPPLEMENTARY INFORMATION:**

#### Revisions and Reassignments of FY 2023 Sugar Cane Allotments and Allocations

The Agricultural Adjustment Act of 1938, as amended requires USDA to establish the OAQ at a quantity not less than 85 percent of the estimated quantity of sugar for domestic human consumption for the crop year. On September 30, 2022, USDA announced the initial FY 2023 OAQ, which was established at 10,646,250 short tons, raw value (STRV), equal to 85 percent of 12,525,000 STRV, the estimated quantity of sugar for domestic human consumption for the year as forecast in the September 2022 World Agricultural Supply and Demand Estimates report (WASDE). The notice was issued in the **Federal Register** on September 30, 2022 (87 FR 59390–59391). USDA requires that 54.35 percent of the OAQ be distributed among beet processors and 45.65 percent be distributed among the sugarcane States and cane processors. The beet and cane sector allotments were distributed to individual processors according to formulas prescribed by the Agricultural Adjustment Act of 1938 (7 U.S.C. 1359aa–1359jj) and 7 CFR part 1435.

In the March 2023 WASDE release, USDA increased the FY 2023 estimate of sugar consumption for food use to 12,600,000 STRV. As a result, USDA increased the FY 2023 OAQ to 10,710,000 STRV, increased the beet sector allotment to 5,820,885 STRV, raised the cane sector allotment to 4,889,115 STRV, and revised beet and cane processor allocations accordingly. This notice was issued in the **Federal Register** notice on April 11, 2023 (88 FR 21704–21606).

In accordance with section 359e of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1359ee), after evaluating each sugarcane processor's ability to market its full allocation, USDA is transferring FY 2023 allocations from sugarcane processors with surplus allocation to those with deficit allocation as shown in the table below. USDA has also determined that domestic cane sugar supplies are inadequate to fill the FY 2023 cane sugar marketing allotment.

In accordance with 7 U.S.C. 1359ee(b)(2), USDA is reassigning 100,000 STRV of the deficit to raw cane sugar imports already anticipated, given the absence of any Commodity Credit Corporation (CCC) stocks of sugar. In
