BILLING CODE P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

Submission for Office of Management and Budget Review; Evaluation of Resources To Support the Identification and Care of Children With Prenatal Substance or Alcohol Exposure in the Child Welfare System (Office of Management and Budget #0970–0608)

AGENCY: Children’s Bureau, Administration for Children and Families, United States Department of Health and Human Services.

ACTION: Request for public comments.

SUMMARY: The Children’s Bureau (CB), Administration for Children and Families (ACF), U.S. Department of Health and Human Services, is proposing to collect data for an evaluation of a set of resources that are being developed to support the identification and care of children with prenatal substance or alcohol exposure in the child welfare system.

DATES: *Comments due within 30 days of publication. Office of Management and Budget (OMB) must make a decision about the collection of information between 30 and 60 days after*

publication of this document in the **Federal Register**. Therefore, a comment is best assured of having its full effect if OMB receives it within 30 days of publication.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to <http://www.reginfo.gov/public/do/PRAMain>. Find this particular information collection by selecting “Currently under 30-day Review-Open for Public Comments” or by using the search function. You can also obtain copies of the proposed collection of information by emailing infocollection@acf.hhs.gov. Identify all emailed requests by the title of the information collection.

SUPPLEMENTARY INFORMATION:

Description: Materials to begin this proposed information collection effort were initially approved in April 2023. The study is gathering data from end users of a toolkit of resources sponsored by CB in collaboration with the Centers for Disease Control and Prevention under an interagency agreement. The toolkit is intended to support child welfare agency staff in the identification and support of children living with prenatal exposure to alcohol and other substances. The data collected will be used in a formative evaluation of the toolkit, which will be guided by 3 research questions: (1) To what degree do agency staff find toolkit resource to be relevant and applicable to their work?; (2) To what degree do toolkit resources change agency staff attitudes and increase staff knowledge?; (3) What implementation approaches and organizational supports facilitate toolkit use by child welfare agencies? Data sources for this effort include 5 surveys that have been approved for use: (1) a survey to measure users’ reactions to the toolkit; (2) a survey of users’ attitudes

toward prenatal alcohol exposure (PAE)-related issues; (3) a survey of users’ knowledge about PAE-related issues; and (4 and 5) two versions of a survey of transfer potential and perceived competence, which measures users’ sense of competence in PAE-related knowledge and skills and the extent to which users believe they will transfer knowledge/skills to their work. One version of this instrument contains the full survey and will be administered after users have been exposed to the full toolkit and its resources. The second version contains a smaller selection of key items from the survey, tailored to collect information from users after their exposure to each of 5 key modules of the toolkit. Newly proposed data collection will include (6) one focus group to assess user perspectives on changes to practice as a result of implementation and fit of the toolkit with the agency’s diversity, equity, and inclusion efforts. All data will be collected in 2024 over the course of 6–9 months.

Respondents: Child welfare professionals, including state and/or county-level directors of child welfare agencies; supervisors; program staff (e.g., investigation/intake, case management, foster care/adoption/permanency, etc.); staff working in specialist roles that align with toolkit resources (e.g., data/quality improvement specialists); local or state agency managers involved in determining agency strategic plans and practice guidance (e.g., substance-exposed newborn program manager); training system lead staff.

Annual Burden Estimates

There are no updates to the burden estimates for previously approved instruments. This request adds the burden for the one new focus group protocol on implementation.

Instrument	Total number of respondents	Total number of responses per respondent	Average burden hours per response	Annual burden hours
Survey of reactions to the toolkit	32	1	.05	2
Survey of attitudes	32	2	.17	11
Survey of PAE-related knowledge	32	3	.27	26
Survey of transfer potential and perceived competency	32	1	.09	3
Module-specific transfer potential and perceived competency items	32	5	.03	5
Focus group protocol on implementation	28	1	1.5	42

Estimated Total Annual Burden Hours: 89.

Authority: This information collection is related to and funded by CB, is authorized by the Child Abuse

Prevention and Treatment Act Reauthorization Act, 42 U.S.C. 5105, (2010), and is being conducted by CB. This information collection complies with the statutory requirement to carry

out research designed to provide information needed to improve the well-being of victims of child abuse or neglect. Specifically, this information collection complies with the

requirement for evaluation of practices and programs to improve activities such as identification, screening, medical diagnosis, forensic diagnosis, health evaluations, and services, including activities that promote collaboration between (1) the child protective service system; and (2) (i) the medical community, including providers of mental health and developmental disability services; and (ii) providers of early childhood intervention services and special education for children who have been victims of child abuse or neglect.

Mary B. Jones,

ACF/OPRE Certifying Officer.

BILLING CODE 4184–29–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

Proposed Information Collection Activity; Tribal Child Support Enforcement Direct Funding Request: (Office of Management and Budget #0970–0218)

AGENCY: Office of Child Support Services, Administration for Children and Families, United States Department of Health and Human Services.

ACTION: Request for public comments.

SUMMARY: The Office of Child Support Services (OCSS), Administration for Children and Families (ACF) is requesting proposed revisions to an approved information collection the

Tribal Child Support Enforcement Direct Funding Requests—(Office of Management and Budget (OMB) #0970–0218, expiration March 31, 2026). We are proposing a new requirement for tribes or tribal organizations to provide that charging fees and recovering costs will not be permitted.

DATES: *Comments due within 60 days of publication.* In compliance with the requirements of the Paperwork Reduction Act (PRA) of 1995, ACF is soliciting public comment on the specific aspects of the information collection described above.

ADDRESSES: You can obtain copies of the proposed collection of information and submit comments by emailing infocollection@acf.hhs.gov. Identify all requests by the title of the information collection.

SUPPLEMENTARY INFORMATION:

Description: The final rule within 45 CFR part 309, published in the **Federal Register** on March 30, 2004, contains a regulatory reporting requirement that, in order to receive funding for a tribal IV–D program, a tribe or tribal organization must submit a plan describing how the tribe or tribal organization meets or plans to meet the objectives of section 455(f) of the Social Security Act, including establishing paternity; establishing, modifying, and enforcing support orders; and locating noncustodial parents. The plan is required for all tribes requesting funding; however, once a tribe has met the requirements to operate a comprehensive program, a new plan is not required annually unless a tribe makes changes to its title IV–D program. If a tribe or tribal organization intends

to make any substantial or material changes, a tribal IV–D plan amendment must be submitted for approval. Tribes and tribal organizations must have an approved plan and submit any required plan amendments to receive funding to operate a tribal IV–D program.

With this request to revise an approved information collection, OCSS proposes a new requirement for tribes and tribal organizations to provide that charging fees and recovering costs will not be permitted. This is due to the Elimination of the Non-Federal Share notice of proposed rulemaking published on April 21, 2023 (see 88 FR 24526). Tribes and tribal organizations that charge fees and recover costs must submit a plan amendment demonstrating compliance with the proposed new requirement, in accordance with 45 CFR 309.35(d). This notice invites comments on this proposed change and the related burden implications. This would be a onetime submission that would be implemented in conjunction with the issuing of a Final Rule. Only three tribal child support programs report data on the collection of fees and recovered costs.

Respondents: Tribes and tribal Organizations.

Burden Estimates

The following burden estimates are specific to burden associated with the proposed change in requirement. For information about currently approved burden under OMB #: 0970–0218, which is not expected to change, see information here: https://www.reginfo.gov/public/do/PRAViewICR?ref_nbr=20212-0970-012.

Instrument	Total number of respondents	Number of responses per respondent	Average burden hours per response	Total burden hours
45 CFR part 309—Plan Amendment—Charging fees and recovering costs ..	3	1	3	9

Comments: The Department specifically requests comments on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency’s estimate of the burden of the proposed collection of information; (c) the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given

to comments and suggestions submitted within 60 days of this publication.

Authority: Title IV–D of the Social Security Act; 45 CFR part 309.

Mary B. Jones,

ACF/OPRE Certifying Officer.
