**SUPPLEMENTARY INFORMATION:**

**I. Additional Information About the Proposed Consent Decree**

On September 27, 2023, Plaintiffs filed a complaint in Federal district court asserting that the Arizona Department of Environmental Quality (ADEQ) constructively submitted to EPA no TMDLs for copper and lead impairments in Queen Creek. Plaintiffs allege that for this reason EPA has a mandatory duty under the CWA to approve or disapprove the constructive submission and, upon disapproval, establish these TMDLs. Plaintiffs further allege that EPA has failed to meet this duty. Following submission of a Notice of Intent to Sue containing these assertions on August 9, 2022, the parties initiated settlement discussions, which produced the proposed consent decree. Under the consent decree, EPA would be obligated to establish copper and lead TMDLs for Queen Creek by July 31, 2028, unless ADEQ first establishes and submits them to EPA by January 31, 2027. If ADEQ submits the TMDLs to EPA, the proposed consent decree provides that Plaintiffs would not object to EPA taking up to an additional 60 days beyond the 30-day statutory deadline to act on the submittal. If EPA disapproves the TMDLs submitted by ADEQ, Plaintiffs would not object to EPA taking up to 12 additional months beyond the 30-day statutory deadline to establish replacement TMDLs.

For a period of thirty (30) days following the date of publication of this notice, EPA will accept written comments relating to the proposed consent decree from persons who are not parties to the litigation. EPA or the Department of Justice may withdraw or withhold consent to the proposed consent decree if the comments received disclose facts or considerations that indicate that such consent is inappropriate, improper, inadequate, or inconsistent with the requirements of the CWA.

#### II. Additional Information About the Proposed Consent Decree

On May 24, 2022, Plaintiffs filed a complaint in the United States District Court for the District of Columbia alleging that EPA failed to perform its nondiscretionary duty under CAA section 112(d)(6) to “review, and revise as necessary” the CMAS NESHAP, 40 CFR part 63, subpart VVVVVV, at least every 8 years. EPA promulgated the CMAS NESHAP in 2009 (75 FR 77760, December 14, 2010) and most recently revised the standards in 2012 (77 FR 75740, December 21, 2012). The proposed consent decree, if finalized, would resolve Plaintiffs’ complaint and would require that EPA review, and revise as necessary, the CMAS NESHAP, pursuant to CAA section 112(d)(6), by a date certain. Specifically, under the terms of the proposed consent decree, the Administrator would be required to sign a notice of proposed rulemaking for the CMAS source category by November 13, 2024, and a final rule by September 17, 2025.

For a period of thirty (30) days following the date of publication of this notice, the Agency will accept written comments relating to the proposed consent decree. EPA or the Department of Justice may withdraw or withhold consent to the proposed consent decree if the comments disclose facts or considerations that indicate that such consent is inappropriate, improper, inadequate, or inconsistent with the requirements of the Act.
