SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: United States Army Medical Research Institute of Infectious Diseases (RIID) Incoming Workforce Personnel Data Sheet; OMB Control Number 0720-RIID.

Needs and Uses: The Incoming Workforce Personnel Data Sheet is being used for basic workforce (WF) tracking. It is entered into the United States Army Medical Research Institute of Infectious Diseases (RIID) system of record (*i.e.*, WF System) for its combined workforce which comprises of Federal employees, active duty service members, contractors, and external workers (*i.e.*, other agency personnel, interns, volunteers, etc.). The collected information is used to track basic personnel data (*i.e.*, name, work email, division, supervisor, etc.), facilitate workflows and processes needed to maintain such data, and provide methods that integrate the individuals' organizational related data (*i.e.*, workforce type, work email, office location, division, supervisor, etc.) with

other internal functions/systems. The application housing this information will not be accessible via mobile means and will be protected behind a firewall that is only accessible when connected to the organization's local area network (LAN). The application will be solely owned and operated by the organization.

The recipient either (1) completes the data sheet or (2) provides the requested information in-person at the time of in-processing. If the document is prepared in advance to in-processing, it is either submitted by their employer (*i.e.*, contract company) or by themselves via a secured means of transmission (*i.e.*, encrypted email) or in-person (*i.e.*, hand-delivered) at the time of their in-processing.

SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: Fielding Successful Medical Products Survey; OMB Control Number 0720-VOIP.

Needs and Uses: Companies use multiple strategies, funding streams, and tactics to field medical products that the military can use in the Military Health System (MHS) and military operations. Little is known about the critical factors affecting medical product research, development, and acquisition by the DoD. This gap in knowledge hinders the DoD's ability to effectively influence the commercial development of life-saving medical technologies and impedes the DHA's and Services' advanced development functions.

As part of 59th Medical Wing's Science & Technology, Technology Transfer and Transition (59 MDW/ST-T3) Office's continuous process improvement effort, this proposed information collection will gather feedback from companies that have successfully developed and marketed

commercially-available medical products to the DoD over the last five (5) years. The questionnaire elicits information about (a) funding streams, processes, ideas, partnerships, and pathways, (b) Food & Drug Administration (FDA) approval/clearance, (c) teaming arrangements, management strategies, and leadership approaches, and (d) barriers and enablers to marketing to the DoD.

By performing this market analysis, we aim to develop actionable, data-driven recommendations for improving acquisition of innovative medical solutions. An analysis of responses permits a clear understanding of how the DoD can influence, emulate, and facilitate successful production and provisioning of new/novel medical products (capabilities) to address existing requirements or enhance existing medical/health capabilities. Specifically, this effort will support the DHA's mission of driving innovative solutions to improve health and build readiness.

Affected Public: Individuals or households.

SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: Certificate of Death; DD Form 2064; OMB Control Number: 0720-COFD.

Needs and Uses: DD 2064, Certificate of Death, is used by family members of deceased DoD employees and contractors to settle estates, insurance claims, and other post death related matters. The form is also used by the DoD to track the cause and manner of death of service members, federal employees, as well as their family members and dependents when a death occurs outside the continental United States (OCONUS). DD 2064 generates a death certificate that is accessible to next-of-kin. The form is also used by OCONUS hospitals and allows for the transportation of human remains. In
