*Needs and Uses:* This notice and request for comments seeks to establish a new information collection as it pertains to the *Targeting and Eliminating Unlawful Text Messages, Rules and Regulations Implementing the Telephone Consumer Protection Act of 1991, CG Docket No. 21–402, CG Docket No. 02–278, Report and Order and Further Notice of Proposed Rulemaking, FCC 23–21, (rel. Mar. 17, 2023) (Text Blocking Report and Order)*. Text message-based scams can include links to well-designed phishing websites that appear identical to the website of a legitimate company and can fool a victim into providing personal or financial information. Texted links can also load unwanted software onto a device, including malware that steals passwords, credentials, or other personal information. The Federal Communications Commission (Commission) is therefore, for the first time, requiring all mobile wireless providers to block certain text messages that are highly likely to be illegal, so that all subscribers have a basic level of protection. In the *Text Blocking Report and Order*, adopted on March 16, 2023 and released on March 17, 2023, the Commission is requiring mobile wireless providers to block certain text messages that are highly likely to be illegal. The Commission is requiring mobile wireless providers to block—at the network level—texts purporting to be from North American Numbering Plan (NANP) numbers on a reasonable Do-Not-Originate (DNO) list, which include numbers that purport to be from invalid, unallocated, or unused numbers, and NANP numbers for which the subscriber to the number has requested that texts purporting to originate from that number be blocked. *Text Blocking Report and Order, FCC 23–21, para. 16.*

We adopt our proposal to require mobile wireless providers to block text messages at the network level (*i.e.*, without requiring consumer opt in or opt out). The rule we adopt requires that they block texts purporting to be from numbers on a reasonable DNO list. As the Commission determined with calls, we find that no reasonable consumer would wish to receive text messages that spoof a number that is not in operation or, worse, purports to be from a well-known, trusted organization that does not send text messages and thus is highly likely to be a scam. Our requirement to block texts that purport to be from numbers on a reasonable DNO list does not include text messages from short codes.

The new information collection for which OMB approval is sought comes from the affirmative obligation adopted in the *Text Blocking Report and Order* that all mobile wireless providers must block calls using a reasonable DNO list. Currently, the Commission requires gateway providers to block voice calls purporting to originate on a reasonable DNO list, under section 47 CFR 64.1200(o) of the Commission's rules, but this is the first time that the Commission has required mobile wireless providers to block texts. The Commission is also ensuring that any erroneous blocking can be quickly remedied by requiring mobile wireless providers and other entities to maintain a point of contact for texters to report erroneously blocked texts.

Federal Communications Commission.
