SUPPLEMENTARY INFORMATION: On September 5, 2023, NHTSA issued an Initial Decision That Certain Frontal Driver and Passenger Air Bag Inflators Manufactured by ARC Automotive Inc. and Delphi Automotive Systems LLC Contain a Safety Defect pursuant to 49 U.S.C. 30118(a) and 49 CFR 554.10. 88 FR 62140 (Sept. 8, 2023). More specifically, NHTSA initially determined that certain air bag inflators manufactured by ARC Automotive Inc. (ARC) and Delphi Automotive Systems LLC (Delphi) through January 2018 may rupture when the vehicle's air bag is commanded to deploy, causing metal debris to be forcefully ejected into the passenger compartment of the vehicle, and that these rupturing air bag inflators pose an unreasonable risk of serious injury or death to vehicle occupants. In accordance with 49 U.S.C. 30118(b)(1) and 49 CFR 554.10(c)(4), the Initial Decision provided manufacturers and any interested person an opportunity to present information, views, and arguments in response to the Initial Decision at a public meeting and/or by submitting written information to the Agency. The Initial Decision scheduled the public meeting for October 5, 2023 and set a deadline for written submissions of October 20, 2023. At the October 5 public meeting, NHTSA announced that it was granting a request to extend the written submission date to December 4, 2023.

Written Submission Deadline Extension Request

On September 22, 2023, NHTSA received a joint request from 13 manufacturers asking NHTSA to extend the period for written submissions by 45 days. The requestors noted the significant size of the investigative file to which they, along with other affected manufacturers, were provided access.¹

¹The investigative file for this matter contains a significant amount of confidential business information. Manufacturers with potential legal obligations under the Vehicle Safety Act and

The requestors claimed that, in order to meaningfully respond to the Initial Decision, they needed more time to adequately review the information in the investigative file. A copy of the extension request and NHTSA's response will be added to the public docket.

Extension of Written Submission Deadline

After consideration of the request, NHTSA acknowledged the significant size of the investigative file. To ensure there is sufficient opportunity to present information, views, and arguments in response to the Initial Decision, NHTSA has granted the requested 45-day extension of the deadline to provide written submissions. The prior deadline of October 20, 2023 has been extended, and written submissions from any interested person are now due before the close of business on December 4, 2023.

Authority: 49 U.S.C. 30118(a), (b); 49 CFR 554.10; delegations of authority at 49 CFR 1.50(a) and 49 CFR 501.8.
