Aluminum Lithographic Printing Plates From the People's Republic of China: Initiation of Countervailing Duty Investigation

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

DATES: Applicable October 18, 2023.

FOR FURTHER INFORMATION CONTACT:

Terre Keaton Stefanova, AD/CVD Operations, Office IX, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–1280.

SUPPLEMENTARY INFORMATION:

The Petition

On September 28, 2023, the U.S. Department of Commerce (Commerce) received a countervailing duty (CVD) petition concerning imports of aluminum lithographic printing plates (printing plates) from the People's Republic of China (China) filed in proper form on behalf of Eastman Kodak Company (the petitioner).¹ The CVD petition was accompanied by antidumping duty (AD) petitions concerning imports of printing plates from China and Japan.²

On October 2 and 3, 2023, Commerce requested supplemental information pertaining to certain aspects of the Petition.³ On October 5 and 6, 2023, the

¹ See Petitioner's Letter, "Aluminum Lithographic Printing Plates from China and Japan—Petition for the Imposition of Antidumping and Countervailing Duties," dated September 28, 2023 (Petition).

² *Id.*

³ See Commerce's Letters, "Petitions for the Imposition of Antidumping and Countervailing Duties on Imports of Aluminum Lithographic Printing Plates from the People's Republic of China

petitioner filed timely responses to these requests for additional information.⁴

In accordance with section 702(b)(1) of the Tariff Act of 1930, as amended (the Act), the petitioner alleges that the Government of China (GOC) is providing countervailable subsidies, within the meaning of sections 701 and 771(5) of the Act, to producers of printing plates in China, and that such imports are materially injuring, or threatening material injury to, the domestic industry producing printing plates in the United States. Consistent with section 702(b)(1) of the Act and 19 CFR 351.202(b), for those alleged programs on which we are initiating a CVD investigation, the Petition is supported by information reasonably available to the petitioner.

Commerce finds that the petitioner filed the Petition on behalf of the domestic industry because the petitioner is an interested party, as defined in section 771(9)(C) of the Act.⁵ Commerce also finds that the petitioner demonstrated sufficient industry support with respect to the initiation of the requested CVD investigation.⁶

Period of Investigation

Because the Petition was filed on September 28, 2023, pursuant to 19 CFR 351.204(b)(2), the period of investigation (POI) is January 1, 2022, through December 31, 2022.

Scope of the Investigation

The products covered by this investigation are printing plates from China. For a full description of the scope of this investigation, see the appendix to this notice.

Comments on Scope of the Investigation

On October 2, 2023, Commerce requested information and clarification from the petitioner regarding the proposed scope to ensure that the scope language in the Petition is an accurate

and Japan: Supplemental Questions," dated October 2, 2023 (General Issues Questionnaire); and "Petition for the Imposition of Antidumping Duties on Imports of Aluminum Lithographic Printing Plates from the People's Republic of China: Supplemental Questions," dated October 3, 2023.

⁴ See Petitioner's Letters, "Aluminum Lithographic Printing Plates from China and Japan—Petitioner's Supplement to Volume I Relating to Request for the Imposition of Antidumping and Countervailing Duties on Imports from China and Japan," dated October 5, 2023 (General Issues Supplement); and "Aluminum Lithographic Printing Plates from the People's Republic of China—Petitioner's Supplemental Questionnaire Response and Amendment to Volume IV Relating to Countervailing Duties," dated October 6, 2023.

⁵ See Petition at Volume I (page 2).

⁶ See, *infra*, section on "Determination of Industry Support for the Petition."

reflection of the products for which the domestic industry is seeking relief.⁷ On October 5, 2023, the petitioner revised the scope.⁸ The description of merchandise covered by this investigation, as described in the appendix to this notice, reflects these clarifications.

As discussed in the *Preamble* to Commerce's regulations, we are setting aside a period for parties to raise issues regarding product coverage (*i.e.*, scope).⁹ Commerce will consider all scope comments received from interested parties and, if necessary, will consult with interested parties prior to the issuance of the preliminary determination. If scope comments include factual information, all such factual information should be limited to public information.¹⁰ To facilitate preparation of its questionnaires, Commerce requests that scope comments be submitted by 5:00 p.m. Eastern Time (ET) on November 7, 2023, which is 20 calendar days from the signature date of this notice. Any rebuttal comments, which may include factual information, must be filed by 5:00 p.m. ET on November 17, 2023, which is ten calendar days from the initial comment deadline.

Commerce requests that any factual information that the parties consider relevant to the scope of the investigation be submitted during that period. However, if a party subsequently finds that additional factual information pertaining to the scope of the investigation may be relevant, the party must contact Commerce and request permission to submit the additional information. All such submissions must be filed on the record of each of the concurrent AD and CVD investigations.

Filing Requirements

All submissions to Commerce must be filed electronically via Enforcement and Compliance's Antidumping Duty and Countervailing Duty Centralized Electronic Service System (ACCESS), unless an exception applies.¹¹ An

Information on using ACCESS can be found at: <https://access.trade.gov/>

electronically filed document must be received successfully in its entirety by the time and date it is due.

Consultations

Pursuant to sections 702(b)(4)(A)(i) and (ii) of the Act, Commerce notified the GOC of the receipt of the Petition and provided an opportunity for consultations with respect to the Petition.¹² Commerce held consultations with the GOC on October 16, 2023.¹³

Determination of Industry Support for the Petition

Section 702(b)(1) of the Act requires that a petition be filed on behalf of the domestic industry. Section 702(c)(4)(A) of the Act provides that a petition meets this requirement if the domestic producers or workers who support the petition account for: (i) at least 25 percent of the total production of the domestic like product; and (ii) more than 50 percent of the production of the domestic like product produced by that portion of the industry expressing support for, or opposition to, the petition. Moreover, section 702(c)(4)(D) of the Act provides that, if the petition does not establish support of domestic producers or workers accounting for more than 50 percent of the total production of the domestic like product, Commerce shall: (i) poll the industry or rely on other information in order to determine if there is support for the petition, as required by subparagraph (A); or (ii) determine industry support using a statistically valid sampling method to poll the “industry.”

Section 771(4)(A) of the Act defines the “industry” as the producers as a whole of a domestic like product. Thus, to determine whether a petition has the requisite industry support, the statute directs Commerce to look to producers and workers who produce the domestic like product. The U.S. International Trade Commission (ITC), which is responsible for determining whether “the domestic industry” has been injured, must also determine what constitutes a domestic like product in order to define the industry. While both Commerce and the ITC must apply the same statutory definition regarding the domestic like product,¹⁴ they do so for

[help.aspx](https://access.trade.gov/help/Handbook_on_Electronic_Filing_Procedures.pdf) and a handbook can be found at: https://access.trade.gov/help/Handbook_on_Electronic_Filing_Procedures.pdf.

¹² See Commerce’s Letter, “Countervailing Duty Petition on Aluminum Lithographic Printing Plates from the People’s Republic of China,” dated October 3, 2023.

¹³ See Memorandum, “Consultations with Officials with the Government of China,” dated October 16, 2023.

¹⁴ See section 771(10) of the Act.

different purposes and pursuant to a separate and distinct authority. In addition, Commerce’s determination is subject to limitations of time and information. Although this may result in different definitions of the like product, such differences do not render the decision of either agency contrary to law.¹⁵

Section 771(10) of the Act defines the domestic like product as “a product which is like, or in the absence of like, most similar in characteristics and uses with, the article subject to an investigation under this title.” Thus, the reference point from which the domestic like product analysis begins is “the article subject to an investigation” (*i.e.*, the class or kind of merchandise to be investigated, which normally will be the scope as defined in the petition).

With regard to the domestic like product, the petitioner does not offer a definition of the domestic like product distinct from the scope of the investigation.¹⁶ Based on our analysis of the information submitted on the record, we have determined that printing plates, as defined in the scope, constitute a single domestic like product, and we have analyzed industry support in terms of that domestic like product.¹⁷

In determining whether the petitioner has standing under section 702(c)(4)(A) of the Act, we considered the industry support data contained in the Petition with reference to the domestic like product as defined in the “Scope of the Investigation,” in the appendix to this notice. To establish industry support, the petitioner provided its own production of printing plates in 2022 and compared this to the estimated total 2022 production of the domestic like product for the entire U.S. industry.¹⁸ We relied on data provided by the petitioner for purposes of measuring industry support.¹⁹

¹⁵ See *USEC, Inc. v. United States*, 132 F. Supp. 2d 1, 8 (CIT 2001) (citing *Algoma Steel Corp., Ltd. v. United States*, 688 F. Supp. 639, 644 (CIT 1988), *aff’d* 865 F.2d 240 (Fed. Cir. 1989)).

¹⁶ See Petition at Volume I (pages 14–16); see also General Issues Supplement at 7–8.

¹⁷ For a discussion of the domestic like product analysis as applied to this case and information regarding industry support, see Countervailing Duty Investigation Initiation Checklist: Aluminum Lithographic Printing Plates from the People’s Republic of China, dated concurrently with this notice (China CVD Initiation Checklist), at Attachment II, Analysis of Industry Support for the Antidumping and Countervailing Duty Petitions Covering Aluminum Lithographic Printing Plates from the People’s Republic of China and Japan (Attachment II).

¹⁸ See Petition at Volume I (pages 3–4 and Exhibits GEN–1 and GEN–2); see also General Issues Supplement at 8 and Attachment 4.

¹⁹ *Id.* For further discussion, see Attachment II of the China CVD Initiation Checklist.

Our review of the data provided in the Petition, General Issues Supplement, and other information readily available to Commerce indicates that the petitioner has established industry support for the Petition.²⁰ First, the Petition established support from domestic producers (or workers) accounting for more than 50 percent of the total production of the domestic like product and, as such, Commerce is not required to take further action in order to evaluate industry support (*e.g.*, polling).²¹ Second, the domestic producers (or workers) have met the statutory criteria for industry support under section 702(c)(4)(A)(i) of the Act because the domestic producers (or workers) who support the Petition accounts for at least 25 percent of the total production of the domestic like product.²² Finally, the domestic producers (or workers) have met the statutory criteria for industry support under section 702(c)(4)(A)(ii) of the Act because the domestic producers (or workers) who support the Petition accounts for more than 50 percent of the production of the domestic like product produced by that portion of the industry expressing support for, or opposition to, the Petition.²³ Accordingly, Commerce determines that the Petition was filed on behalf of the domestic industry within the meaning of section 702(b)(1) of the Act.²⁴

Injury Test

Because China is a “Subsidies Agreement Country” within the meaning of section 701(b) of the Act, section 701(a)(2) of the Act applies to this investigation. Accordingly, the ITC must determine whether imports of the subject merchandise from China materially injure, or threaten material injury to, a U.S. industry.

Allegations and Evidence of Material Injury and Causation

The petitioner alleges that imports of the subject merchandise are benefiting from countervailable subsidies and that such imports are causing, or threaten to cause, material injury to the U.S. industry producing the domestic like product. In addition, the petitioner alleges that subject imports exceed the

²⁰ See Petition at Volume I (pages 3–4 and Exhibits GEN–1 and GEN–2); see also General Issues Supplement at 8 and Attachment 4. For further discussion, see Attachment II of the China CVD Initiation Checklist.

²¹ See Attachment II of the China CVD Initiation Checklist; see also section 702(c)(4)(D) of the Act.

²² See Attachment II of the China CVD Initiation Checklist.

²³ *Id.*

²⁴ *Id.*

negligibility threshold provided for under section 771(24)(A) of the Act.²⁵

The petitioner contends that the industry's injured condition is illustrated by a significant and increasing volume of subject imports; declining market share; underselling and price suppression; lost sales and revenues; plant closures; declining employment variables; and adverse impact on financial performance.²⁶ We assessed the allegations and supporting evidence regarding material injury, threat of material injury, causation, as well as negligibility, and we have determined that these allegations are properly supported by adequate evidence, and meet the statutory requirements for initiation.²⁷

Initiation of CVD Investigation

Based upon the examination of the Petition and supplemental responses, we find that they meet the requirements of section 702 of the Act. Therefore, we are initiating a CVD investigation to determine whether imports of printing plates from China benefit from countervailable subsidies conferred by the GOC. Based on our review of the Petition, we find that there is sufficient information to initiate a CVD investigation on 14 of 16 programs alleged by the petitioner. For a full discussion of the basis for our decision to initiate an investigation of each program, see the China CVD Initiation Checklist. A public version of the initiation checklist for this investigation is available on ACCESS. In accordance with section 703(b)(1) of the Act and 19 CFR 351.205(b)(1), unless postponed, we will make our preliminary determination no later than 65 days after the date of this initiation.

Respondent Selection

In the Petition, the petitioner identified eight companies in China as producers/exporters of printing plates.²⁸ Following standard practice in CVD investigations, in the event Commerce determines that the number of exporters or producers is large such that Commerce cannot individually examine each company based on its resources, Commerce intends to select mandatory

respondents based on U.S. Customs and Border Protection (CBP) entry data for U.S. imports under the appropriate Harmonized Tariff Schedule of the United States (HTSUS) subheadings listed in the scope of the investigation.

On October 12, 2023, Commerce released CBP data on imports of printing plates from China under administrative protective order (APO) to all parties with access to information protected by APO and indicated that interested parties wishing to comment on CBP data and/or respondent selection must do so within three business days of the publication date of the notice of initiation of this investigation.²⁹ Comments must be filed electronically using ACCESS. An electronically-filed document must be received successfully in its entirety via ACCESS by 5:00 p.m. ET on the specified deadline. Commerce will not accept rebuttal comments regarding the CBP data or respondent selection.

Distribution of Copies of the Petition

In accordance with section 702(b)(4)(A) of the Act and 19 CFR 351.202(f), a copy of the public version of the Petition has been provided to the GOC via ACCESS. To the extent practicable, we will attempt to provide a copy of the public version of the Petition to each exporter named in the Petition, as provided under 19 CFR 351.203(c)(2).

ITC Notification

Commerce will notify the ITC of our initiation, as required by section 702(d) of the Act.

Preliminary Determination by the ITC

The ITC will preliminarily determine, within 45 days after the date on which the Petition was filed, whether there is a reasonable indication that imports of printing plates from China are materially injuring, or threatening material injury to, a U.S. industry.³⁰ A negative ITC determination will result in the investigation being terminated.³¹ Otherwise, this CVD investigation will proceed according to statutory and regulatory time limits.

Submission of Factual Information

Factual information is defined in 19 CFR 351.102(b)(21) as: (i) evidence submitted in response to questionnaires; (ii) evidence submitted in support of allegations; (iii) publicly available information to value factors under 19

CFR 351.408(c) or to measure the adequacy of remuneration under 19 CFR 351.511(a)(2); (iv) evidence placed on the record by Commerce; and (v) evidence other than factual information described in (i)–(iv). Section 351.301(b) of Commerce's regulations requires any party, when submitting factual information, to specify under which subsection of 19 CFR 351.102(b)(21) the information is being submitted³² and, if the information is submitted to rebut, clarify, or correct factual information already on the record, to provide an explanation identifying the information already on the record that the factual information seeks to rebut, clarify, or correct.³³ Time limits for the submission of factual information are addressed in 19 CFR 351.301, which provides specific time limits based on the type of factual information being submitted. Interested parties should review the regulations prior to submitting factual information in this investigation.

Extensions of Time Limits

Parties may request an extension of time limits before the expiration of a time limit established under 19 CFR 351.301, or as otherwise specified by Commerce. In general, an extension request will be considered untimely if it is filed after the expiration of the time limit established under 19 CFR 351.301.³⁴ For submissions that are due from multiple parties simultaneously, an extension request will be considered untimely if it is filed after 10:00 a.m. ET on the due date. Under certain circumstances, Commerce may elect to specify a different time limit by which extension requests will be considered untimely for submissions which are due from multiple parties simultaneously. In such a case, Commerce will inform parties in a letter or memorandum of the deadline (including a specified time) by which extension requests must be filed to be considered timely. An extension request must be made in a separate, stand-alone submission; under limited circumstances we will grant untimely filed requests for the extension of time limits, where we determine, based on 19 CFR 351.302, that extraordinary circumstances exist. Parties should review Commerce's regulations concerning the extension of time limits and the *Time Limits Final Rule* prior to

submitting factual information in this investigation.³⁵

Certification Requirements

Any party submitting factual information in an AD or CVD proceeding must certify to the accuracy and completeness of that information.³⁶ Parties must use the certification formats provided in 19 CFR 351.303(g).³⁷ Commerce intends to reject factual submissions if the submitting party does not comply with the applicable certification requirements.

Notification to Interested Parties

Interested parties must submit applications for disclosure under APO in accordance with 19 CFR 351.305. Parties wishing to participate in this investigation should ensure that they meet the requirements of 19 CFR 351.103(d) (e.g., by filing the required letters of appearance). Note that Commerce has temporarily modified certain of its requirements for serving documents containing business proprietary information, until further notice.³⁸

This notice is issued and published pursuant to sections 702 and 777(i) of the Act, and 19 CFR 351.203(c).

Dated: October 18, 2023.

Abdelali Elouaradia,

Deputy Assistant Secretary for Enforcement and Compliance.

Appendix

Scope of the Investigation

The merchandise covered by this investigation is aluminum lithographic printing plates. Aluminum lithographic printing plates consist of a flat substrate containing at least 90 percent aluminum. The aluminum-containing substrate is generally treated using a mechanical, electrochemical,

or chemical graining process, which is followed by one or more anodizing treatments that form a hydrophilic layer on the aluminum-containing substrate. An image-recording, oleophilic layer that is sensitive to light, including but not limited to ultra-violet, visible, or infrared, is dispersed in a polymeric binder material that is applied on top of the hydrophilic layer, generally on one side of the aluminum lithographic printing plate. The oleophilic light-sensitive layer is capable of capturing an image that is transferred onto the plate by either light or heat. The image applied to an aluminum lithographic printing plate facilitates the production of newspapers, magazines, books, yearbooks, coupons, packaging, and other printed materials through an offset printing process, where an aluminum lithographic printing plate facilitates the transfer of an image onto the printed media. Aluminum lithographic printing plates within the scope of this investigation include all aluminum lithographic printing plates, irrespective of the dimensions or thickness of the underlying aluminum substrate, whether the plate requires processing after an image is applied to the plate, whether the plate is ready to be mounted to a press and used in printing operations immediately after an image is applied to the plate, or whether the plate has been exposed to light or heat to create an image on the plate or remains unexposed and is free of any image.

Subject merchandise also includes aluminum lithographic printing plates produced from an aluminum sheet coil that has been coated with a light-sensitive image-recording layer in a subject country and that is subsequently unwound and cut to the final dimensions to produce a finished plate in a third country (including the United States), or exposed to light or heat to create an image on the plate in a third country (including in a foreign trade zone within the United States).

Excluded from the scope of this investigation are lithographic printing plates manufactured using a substrate produced from a material other than aluminum, such as rubber or plastic.

Aluminum lithographic printing plates are currently classifiable under Harmonized Tariff of the United States (HTSUS) subheadings 3701.30.0000 and 3701.99.6060. Further, merchandise that falls within the scope of this investigation may also be entered into the United States under HTSUS subheadings 3701.99.3000 and 8442.50.1000. Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of this investigation is dispositive.
