SUPPLEMENTARY INFORMATION: The National Flood Insurance Program (NFIP) is authorized by the National Flood Insurance Act of 1968, as amended, 42 U.S.C. 4001 *et seq.* The Federal Emergency Management Agency (FEMA) administers the NFIP and maintains the maps that depict flood hazard information. Communities are required to submit technical information concerning flood hazards and plans to avoid potential flood hazards when physical changes occur (see 44 CFR 65.3). Communities are provided the right to submit technical information when inconsistencies on maps are identified (see 44 CFR 65.4). In order to revise the Base (one-percent annual chance) Flood Elevations (BFEs), Special Flood Hazard Areas (SFHAs), and floodways presented on the NFIP maps, a community must submit scientific or technical data demonstrating the need for a revision. The NFIP regulations outline the data that must be submitted for these requests (see 44 CFR part 65). This collection serves to provide a standard

format for the general information requirements outlined in the NFIP regulations and helps establish an organized package of the data needed to revise NFIP maps.
