SUPPLEMENTARY INFORMATION: Sections 4041 and 4042 of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"), 29 U.S.C 1301-1461, govern the termination of single-employer defined benefit pension plans that are subject to title IV of ERISA. A plan administrator may initiate a distress termination pursuant to section 4041(c), and PBGC may itself initiate proceedings to terminate a pension plan under section 4042 if PBGC determines that certain conditions are present. Under sections 4041 and 4042 of ERISA, upon a request by an affected party, a plan administrator must disclose information it has submitted to PBGC in connection with a distress termination filing, and a plan administrator or plan sponsor must disclose information it has submitted to PBGC in connection with a PBGC-initiated termination. The provisions also require PBGC to disclose the administrative record relating to a PBGC-initiated termination upon request by an affected party.

The existing collection of information was approved through April 30, 2024, under OMB control number 1212-0065. PBGC intends to request that OMB extend its approval of this collection of information for 3 years. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

PBGC estimates that approximately 30 plans will terminate as distress or PBGC-initiated terminations each year and that two participants or other affected parties of every nine distress terminations or PBGC-initiated terminations filed will annually make requests for termination information, or 2/9 of 30 (approximately 7 per year). PBGC estimates that the hour burden for each request will be about 20 hours. PBGC expects that the staff of plan administrators and sponsors will perform the work in-house and that no work will be contracted to third parties. The total annual hour burden is estimated to be 140 hours (7 plans × 20 hours), and the total annual cost burden is estimated to be \$0.

PBGC is soliciting public comments to—

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodologies and assumptions used;

- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.
