

the environment. The ROD stated that the preferred alternative would have less-than-significant impacts on the natural and social environment of the study area and International Falls, including minor changes or impacts to surface water, surface water runoff, traffic, increased lighting, and hazardous substances.

Since 2011, GSA has identified the following changes to the project, which differ from the preferred alternative described in the 2011 EIS:

- There have been proposed changes in tenants and use of the space. U.S. Food and Drug Administration (FDA) no longer requires space at the LPOE; however, the U.S. Department of Agriculture/Animal Plant Health Inspection Services/Plant Protection and Quarantine (USDA/APHIS-PPQ), and U.S. Fish and Wildlife Service (USFWS) will need space and facilities at the LPOE.

- The Packaging Corporation of America (PCA) has acquired Boise, Inc. and has a different timber unloading operation occurring adjacent to the proposed acquisition parcel, which will require modifications to the original site plan at the LPOE and offsite on PCA lands. This includes PCA's proposed trailer parking lot that was shifted further east (beyond First Creek) and includes a paved 90-trailer parking lot for PCA, which will modify traffic patterns for the LPOE.

- A section of First Creek between Route 11 and the Rainy River that was previously contained in a culvert was identified following the 2011 EIS. The culvert has been removed and is now daylighted, requiring impacts analysis.

- There has been an increase in the proposed usable square feet (USF) for overall building space needed from 42,282 to 80,611, based on the addition of a maintenance building and expansion in the sizes of all other buildings per updated agency requirements.

- Stormwater management would be redesigned in the 300-foot section of First Creek due to two new areas of pavement crossing the creek.

- The Resolute Paper Mill in Fort Frances, Ontario has since closed and has decreased rail traffic.

- New renewable energy technologies are being considered for implementation at the expanded and modernized LPOE, including solar, geothermal, and river water cooling geothermal technologies.

GSA has prepared a Draft SEIS to assess the potential impacts of these updates, which were not assessed in the 2011 EIS.

Alternatives Under Consideration:

The Proposed Action would comprise of modernization and expansion of existing International Falls LPOE facilities as previously considered in the 2011 EIS, but to consider the above project changes. GSA also considered the No Action Alternative, which assumes that GSA would not expand or modernize the International Falls LPOE.

The purpose of the Proposed Action is for GSA to support CBP's mission by bringing the International Falls LPOE operations in line with current land port design standards and operational requirements of CBP while addressing existing deficiencies identified with the ongoing port operations. Generally, the deficiencies described in the 2011 EIS remain at the LPOE. The deficiencies fall into two broad categories: deficiencies in the overall site layout and substandard building conditions. Therefore, in order to bring the International Falls LPOE operations in line with CBP's design standards and operational requirements, the Proposed Action is needed to (1) improve the capacity and functionality of the International Falls LPOE to meet future demand, while maintaining the capability to meet border security initiatives; (2) address spatial and layout constraints that lead to traffic congestion and safety issues for the employees and users of the LPOE; and (3) provide adequate space and facilities for the federal agencies to accomplish their missions.

The Draft SEIS addresses the potential environmental impacts of the proposed alternatives on environmental resources including geology and soils, water resources, biological resources, air quality, noise, transportation and traffic, land use and visual resources, infrastructure and utilities, socioeconomic, cultural resources, human health and safety, and environmental justice. Based on the analysis presented in the Draft SEIS, impacts to all resource areas would be less-than-significant (*i.e.*, negligible, minor, or moderate) adverse or beneficial. Impact reduction measures are presented in the Draft SEIS to reduce potential adverse effects.

GSA is currently undergoing formal consultation with the State Historic Preservation Officer (SHPO) and consulting parties to follow coordination procedures as required under Section 106 of the NHPA to determine impacts to historic properties. Mitigation measures may be determined in consultation between GSA, SHPO, and applicable consulting parties.

Under the Endangered Species Act (ESA), GSA coordinated with USFWS

per Section 7 requirements to determine effects to federally protected species. There would be no adverse effects to federally threatened or endangered species. Correspondence with USFWS and findings are incorporated in the Draft SEIS.

The Proposed Action would take place within the 1-percent-annual-chance floodplain (also referred to as the base flood or 100-year flood) and 0.2-percent-annual-chance floodplain (also referred to as the 500-year flood) at the International Falls LPOE. In compliance with Executive Order 11988 (Floodplain Management), GSA prepared a Draft FONPA addressing potential impacts on floodplains, which is included in the Draft SEIS for public review and comment. As described in the Draft SEIS, GSA would follow federal, state, and local regulatory compliance requirements and incorporate design standards at the International Falls LPOE to minimize impacts to floodplains.

William Renner,

Director, Facilities Management and Services Programs Division, Great Lakes Region 5, U.S. General Services Administration.

BILLING CODE 6820-CF-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Medicare & Medicaid Services

[Document Identifier: CMS-10143]

Agency Information Collection Activities: Submission for OMB Review; Comment Request

AGENCY: Centers for Medicare & Medicaid Services, Health and Human Services (HHS).

ACTION: Notice.

SUMMARY: The Centers for Medicare & Medicaid Services (CMS) is announcing an opportunity for the public to comment on CMS' intention to collect information from the public. Under the Paperwork Reduction Act of 1995 (PRA), Federal agencies are required to publish notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension or reinstatement of an existing collection of information, and to allow a second opportunity for public comment on the notice. Interested persons are invited to send comments regarding the burden estimate or any other aspect of this collection of information, including the necessity and

utility of the proposed information collection for the proper performance of the agency's functions, the accuracy of the estimated burden, ways to enhance the quality, utility, and clarity of the information to be collected, and the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

DATES: Comments on the collection(s) of information must be received by the OMB desk officer by November 27, 2023.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

To obtain copies of a supporting statement and any related forms for the proposed collection(s) summarized in this notice, please access the CMS PRA website by copying and pasting the following web address into your web browser: <https://www.cms.gov/Regulations-and-Guidance/Legislation/PaperworkReductionActof1995/PRA-Listing>.

FOR FURTHER INFORMATION CONTACT: William Parham at (410) 786-4669.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501-3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. The term "collection of information" is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA (44 U.S.C. 3506(c)(2)(A)) requires federal agencies to publish a 30-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension or reinstatement of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, CMS is publishing this notice that summarizes the following proposed collection(s) of information for public comment:

1. *Type of Information Collection Request:* Revision of a currently approved collection; *Title of Information Collection:* State Data for the Medicare Modernization Act

(MMA); *Use:* The monthly data file is provided to CMS by states on dual eligible beneficiaries. The phase-down process requires a monthly count of all full benefit dual eligible beneficiaries with an active Part D plan enrollment in the month. CMS will make this selection of records using dual eligibility status codes contained in the person-month record to identify all full-benefit dual eligible beneficiaries. *Form Number:* CMS-10143 (OMB Control Number: 0938-0958); *Frequency:* Monthly; *Affected Public:* State, Local, or Tribal Governments; *Number of Respondents:* 51; *Total Annual Responses:* 612; *Total Annual Hours:* 4,896. (For policy questions regarding this collection contact Linda King at 410-786-1312.)

Dated: October 24, 2023.

William N. Parham, III,

Director, Paperwork Reduction Staff, Office of Strategic Operations and Regulatory Affairs.
