

centralized mailbox or website would not be a practical method of submission. Submission of protest information through contracting officers' email or through facsimile are the best methods to use to document receipt of protest information, and are the methods most commonly used in the Government protest process. This information collection may involve small business contractors, depending on the particular transaction. The burden applied to small businesses is minimal and consistent with the goals of achieving timely resolution of agency protests. This information is collected only when contractors choose to file a protest to the agency. The information is requested from contractors so that the Government will be able to evaluate protests effectively and provide prompt resolution of issues in dispute when contractors file such claims.

DHS/ALL/PIA-006 General Contact Lists covers the basic contact information that must be collected for DHS to address these protests. The other information collected will typically pertain to the contract itself, and not individuals. However, all information for this information collection is submitted voluntarily. Technically, because this information is not retrieved by personal identifier, no SORN is required. However, DHS/ALL-021 DHS Contractors and Consultants provides coverage for the collection of records on DHS contractors and consultants, to include resume and qualifying employment information. There is no assurance of confidentiality provided to the respondents.

The burden estimates provided in response to Item 12 above are based upon the Department's findings in its FY 2022 Procurement Line of Business, Operational Status Report. No program changes have occurred or changes to the information being collected, however, the burden was adjusted to reflect an agency adjustment increase of 33 respondents within DHS for Fiscal Year 2022, as well as an increase in the average hourly wage rate.

SUPPLEMENTARY INFORMATION: This notice informs the public that HUD is seeking approval from OMB for the information collection described in Section A.

The **Federal Register** notice that solicited public comment on the information collection for a period of 60 days was published on July 14, 2023 at 88 FR 45233.

A. Overview of Information Collection

Title of Information Collection: 2024 Rental Housing Finance Survey.

OMB Approval Number: 2528-0276.

Type of Request: Revision of a currently approved collection.

Form Number: N/A.

Description of the need for the information and proposed use: The Rental Housing Finance Survey (RHFS) provides a measure of financial, mortgage, and property characteristics of rental housing properties in the United States. RHFS focuses on mortgage financing of rental housing properties, with emphasis on new originations for purchase-money mortgages and refinancing, and the characteristics of these new originations.

The RHFS will collect data on property values of residential structures, characteristics of residential structures, rental status and rental value of units within the residential structures, commercial use of space within residential structures, property management status, ownership status, a detailed assessment of mortgage financing, and benefits received from Federal, state, local, and non-governmental programs.

Many of the questions are the same or similar to those found on the 1995 Property Owners and Managers Survey, the rental housing portion of the 2001 Residential Finance Survey, and previous collections of the Rental Housing Finance Survey. This survey does not duplicate work done in other existent HUD surveys or studies that deal with rental units' financing.

Policy analysts, program managers, budget analysts, and Congressional staff can use the survey's results to advise executive and legislative branches about the mortgage finance characteristics of the rental housing stock in the United States and the suitability of public

policy initiatives. Academic researchers and private organizations also will utilize the data to facilitate their research and projects.

The Department of Housing and Urban Development (HUD) needs the

RHFS data for the following two reasons:

1. This is the only source of information on the rental housing finance characteristics of rental properties.
2. HUD needs this information to gain a better understanding of the mortgage

finance characteristics of the rental housing stock in the United States to evaluate, monitor, and design HUD programs.

Respondents: Owners and managers of rental properties.

Information collection	Number of respondents	Frequency of response	Responses per annum	Burden hour per response	Annual burden hours	Hourly cost per response	Annual cost
RHFS	10,000	1	10,000	1	10,000	\$40.51	\$405,100

B. Solicitation of Public Comment

This notice is soliciting comments from members of the public and affected parties concerning the collection of information described in Section A on the following:

(1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) The accuracy of the agency’s estimate of the burden of the proposed collection of information;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) Ways to minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

(5) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

HUD encourages interested parties to submit comments in response to these questions.

C. Authority

Section 3507 of the Paperwork Reduction Act of 1995, 44 U.S.C. chapter 35.
