

to identify local contexts and reflect local input. BOEM plans to prepare community characterization summaries using information obtained from members of selected communities with EJ concerns to pilot such an approach. Community characterizations would summarize a community's history, demographics, economic conditions, coastal and marine resource use, coastal land use, identification of key leaders and organizations, and other baseline conditions and trends. With these summaries readily accessible, BOEM analysts will continue improving their understanding of the selected affected communities with EJ concerns and the potential impacts from BOEM-approved activities.

As appropriate, these summaries may be included in the relevant environmental analyses that inform BOEM's decisions. Furthermore, conducting community-informed research could advance earlier community awareness of BOEM activities and increase trust. Gaining first-hand information will help "ground-truth" some of the existing information that would be collated into the selected community characterization summaries.

BOEM plans to use various methods, such as interviews and focus groups, to collect information from members of approximately three communities with EJ concerns in each of the three chosen study areas. BOEM seeks comments on, and suggestions of, appropriate information collection methods and study areas.

BOEM proposes to collect information on topics such as those listed below in order to inform community characterization summaries highlighting vulnerabilities, themes, issues, or concerns of each selected community. Each community summary would include relevant history, demographics, economics, coastal and marine resource use, coastal land use including existing facilities, outreach approaches that are locally appropriate for that specific community with EJ concerns, identification of key community leaders and organizations, and other baseline conditions that will enable BOEM analysts to better incorporate specific community interests into environmental reviews and the decision-making process. BOEM is also seeking comments on whether other topics should be included in the selected community characterization summaries.

OMB Control Number: 1010-NEW.

Form Number: None.

Type of Review: New.

Respondents/Affected Public: 9–15 Selected Communities (including

community leaders, key informants, and community organizations).

Total Estimated Number of Annual Responses: 135–225 community responses.

Total Estimated Number of Annual Burden Hours: 540–900 hours.

Respondent's Obligation: Voluntary.

Frequency of Collection: On occasion.

Total Estimated Annual Non-Hour Burden Cost: None.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number.

The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

Karen Thundiyil,

Chief, Office of Regulations, Bureau of Ocean Energy Management.

INTERNATIONAL TRADE COMMISSION

[USITC SE–23–053]

Sunshine Act Meetings

AGENCY HOLDING THE MEETING: United States International Trade Commission.

TIME AND DATE: November 9, 2023 at 11 a.m.

PLACE: Room 101, 500 E Street SW, Washington, DC 20436, Telephone: (202) 205–2000.

STATUS: Open to the public.

MATTERS TO BE CONSIDERED:

1. Agendas for future meetings: none.
2. Minutes.
3. Ratification List.
4. Commission vote on Inv. No. 731–TA1103 (Third Review)(Activated Carbon from China). The Commission currently is scheduled to complete and file its determinations and views of the Commission on November 17, 2023.
5. Commission vote on Inv. Nos. 701–TA–694 and 731–TA–1641–1642 (Preliminary) (Aluminum Lithographic Printing Plates from China and Japan). The Commission currently is scheduled to complete and file its determinations on November 13, 2023; views of the Commission currently are scheduled to be completed and filed on November 20, 2023.
6. Outstanding action jackets: none.

CONTACT PERSON FOR MORE INFORMATION: Sharon Bellamy, Supervisory Hearings and Information Officer, 202–205–2000.

The Commission is holding the meeting under the Government in the Sunshine Act, 5 U.S.C. 552(b). In accordance with Commission policy, subject matter listed above, not disposed of at the scheduled meeting, may be carried over to the agenda of the following meeting.

By order of the Commission.

Issued: October 31, 2023.

Sharon Bellamy,

Supervisory Hearings and Information Officer.

INTERNATIONAL TRADE COMMISSION

[Investigation Nos. 701–TA–583 and 731–TA–1381 (Review)]

Cast Iron Soil Pipe Fittings From China; Scheduling of Expedited Five-Year Reviews

AGENCY: United States International Trade Commission.

ACTION: Notice.

SUMMARY: The Commission hereby gives notice of the scheduling of expedited reviews pursuant to the Tariff Act of 1930 ("the Act") to determine whether revocation of the antidumping and countervailing duty orders on cast iron soil pipe fittings from China would be likely to lead to continuation or

recurrence of material injury within a reasonably foreseeable time.

DATES: October 6, 2023.

FOR FURTHER INFORMATION CONTACT: Alexis Yim (202–708–1446), Office of Investigations, U.S. International Trade Commission, 500 E Street SW, Washington, DC 20436. Hearing-impaired persons can obtain information on this matter by contacting the Commission's TDD terminal on 202–205–1810. Persons with mobility impairments who will need special assistance in gaining access to the Commission should contact the Office of the Secretary at 202–205–2000. General information concerning the Commission may also be obtained by accessing its internet server (<https://www.usitc.gov>). The public record for this proceeding may be viewed on the Commission's electronic docket (EDIS) at <https://edis.usitc.gov>.

SUPPLEMENTARY INFORMATION:

Background.—On October 6, 2023, the Commission determined that the domestic interested party group response to its notice of institution (88 FR 42753, July 3, 2023) of the subject five-year reviews was adequate and that the respondent interested party group response was inadequate. The Commission did not find any other circumstances that would warrant conducting full reviews.¹ Accordingly, the Commission determined that it would conduct expedited reviews pursuant to section 751(c)(3) of the Act (19 U.S.C. 1675(c)(3)).²

For further information concerning the conduct of these reviews and rules of general application, consult the Commission's Rules of Practice and Procedure, part 201, subparts A and B (19 CFR part 201), and part 207, subparts A, D, E, and F (19 CFR part 207).

Staff report.—A staff report containing information concerning the subject matter of the reviews has been placed in the nonpublic record, and will be made available to persons on the Administrative Protective Order service list for these reviews on November 21, 2023. A public version will be issued thereafter, pursuant to § 207.62(d)(4) of the Commission's rules.

Written submissions.—As provided in § 207.62(d) of the Commission's rules, interested parties that are parties to the reviews and that have provided

individually adequate responses to the notice of institution,³ and any party other than an interested party to the reviews may file written comments with the Secretary on what determination the Commission should reach in the reviews. Comments are due on or before 5:15 p.m. on November 30, 2023, and may not contain new factual information. Any person that is neither a party to the five-year reviews nor an interested party may submit a brief written statement (which shall not contain any new factual information) pertinent to the reviews by November 30, 2023. However, should the Department of Commerce ("Commerce") extend the time limit for its completion of the final results of its reviews, the deadline for comments (which may not contain new factual information) on Commerce's final results is three business days after the issuance of Commerce's results. If comments contain business proprietary information (BPI), they must conform with the requirements of §§ 201.6, 207.3, and 207.7 of the Commission's rules. The Commission's *Handbook on Filing Procedures*, available on the Commission's website at https://www.usitc.gov/documents/handbook_on_filing_procedures.pdf, elaborates upon the Commission's procedures with respect to filings.

In accordance with §§ 201.16(c) and 207.3 of the rules, each document filed by a party to the reviews must be served on all other parties to the reviews (as identified by either the public or BPI service list), and a certificate of service must be timely filed. The Secretary will not accept a document for filing without a certificate of service.

Determination.—The Commission has determined these reviews are extraordinarily complicated and therefore has determined to exercise its authority to extend the review period by up to 90 days pursuant to 19 U.S.C. 1675(c)(5)(B).

Authority: These reviews are being conducted under authority of title VII of the Act; this notice is published pursuant to § 207.62 of the Commission's rules.

By order of the Commission.

Issued: October 27, 2023.

Katherine Hiner,

Supervisory Attorney.

BILLING CODE 7020–02–P

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

[Docket No. 22–36]

Osmin A. Morales, M.D.; Decision and Order

On May 25, 2022, the Drug Enforcement Administration (DEA or Government) issued an Order to Show Cause (OSC) to Osmin A. Morales, M.D., (Respondent) of Florida seeking to deny his application for a DEA Certificate of Registration, Control No. W20125906C, and alleging that his registration "would be inconsistent with the public interest." OSC, at 1 (citing 21 U.S.C. 823(g)(1) ¹).

A hearing was held before DEA Chief Administrative Law Judge John J. Mulrooney, II (the Chief ALJ). On February 8, 2023, the Chief ALJ issued his Recommended Rulings, Findings of Fact, Conclusions of Law, and Decision (RD), which recommended that the Agency deny Respondent's application. RD, at 22. Respondent did not file exceptions to the RD. Having reviewed the entire record, the Agency adopts and hereby incorporates by reference the entirety ² of the Chief ALJ's rulings, credibility findings,³ findings of fact,

¹ Effective December 2, 2022, the Medical Marijuana and Cannabidiol Research Expansion Act, Pub. L. 117–215, 136 Stat. 2257 (2022) (Marijuana Research Amendments or MRA), amended the Controlled Substances Act (CSA) and other statutes. Relevant to this matter, the MRA redesignated 21 U.S.C. 823(f), cited in the OSC, as 21 U.S.C. 823(g)(1). Accordingly, this Decision cites to the current designation, 21 U.S.C. 823(g)(1), and to the MRA-amended CSA throughout.

² See footnotes 4 and 6, *infra*.

³ The Agency adopts the Chief ALJ's summary of each of the witnesses' testimonies as well as the Chief ALJ's assessment of each of the witnesses' credibility. *See* RD, at 3–10. The Agency agrees with the Chief ALJ that the Diversion Investigator's (DI) testimony, which focused on the investigative steps completed in the case and establishing the foundations for exhibits received into the record, was sufficiently detailed, plausible, and internally consistent to be afforded full credibility. *See id.* at 3–4. The Agency also agrees with the Chief ALJ's assessment of the testimony provided by a Task Force Agent (TFA) on investigative assistance provided to DEA and non-controversial introduction of documentary evidence. *See id.* at 4. The testimony was sufficiently detailed, plausible, and internally consistent to be afforded full credibility. *Id.* M.L., mother of Patient K.L., primarily testified about her observations of K.L. during the time period in which Respondent issued K.L. controlled substance prescriptions, as well as an interaction with Respondent at his medical office. *Id.* at 5–6. Despite M.L.'s apparent anger toward Respondent for the role that she believed he played in her daughter's addiction to pain medication, the Agency agrees with the Chief ALJ that M.L.'s testimony was sufficiently consistent, plausible, and detailed to be afforded credibility. *See id.* at 6. Further, the Agency agrees with the Chief ALJ that Dr. Mark Rubenstein, M.D., the Government's expert witness, provided opinions on

Continued

¹ A record of the Commissioners' votes, the Commission's statement on adequacy, and any individual Commissioner's statements will be available from the Office of the Secretary and at the Commission's website.

² Commissioner Stayin did not participate in the vote on these reviews.

³ The Commission has found the response submitted on behalf of the Cast Iron Soil Pipe Institute and its two individual members to be individually adequate. Comments from other interested parties will not be accepted (*see* 19 CFR 207.62(d)(2)).
