SUPPLEMENTARY INFORMATION:

I. Background

FDA is announcing the availability of a final guidance entitled “Enforcement Policy for Certain Supplements for Approved Premarket Approval (PMA) or Humanitarian Device Exemption (HDE) Submissions.” This guidance describes FDA’s general recommendations for limited modifications to devices required to have an approved PMA or HDE to help address manufacturing limitations or supply chain disruptions. This guidance supersedes “Supplements for Approved Premarket Approval (PMA) or Humanitarian Device Exemption (HDE) Submissions During the Coronavirus Disease 2019 (COVID–19) Public Health Emergency (Revised)”, issued in May 2020 and updated in May 2022 (COVID–19 PMA/HDE guidance). In the **Federal Register** of March 13, 2023 (88 FR 15417), FDA announced that COVID–19 PMA/HDE guidance was being revised to continue in effect for 180 days after the expiration of the COVID–19 PHE declaration issued under the Public Health Service Act, during which time FDA intended to further revise the guidance.

Following expiration of the PHE declaration on May 11, 2023, FDA has continued to observe supply chain challenges and shortages of medical devices remain widespread. Therefore, consistent with the **Federal Register** of March 13, 2023, FDA is issuing this final guidance. Although this guidance has been revised to remove any expiration date for the enforcement policy, the Agency will continue to monitor the situation and may make

further revisions to the guidance, withdraw the guidance, or pursue other regulatory actions, as appropriate.

FDA has determined that this guidance document presents a less burdensome policy that is consistent with public health. This guidance is being implemented without prior public comment because FDA has determined that prior public participation for this less burdensome policy is neither feasible nor appropriate (see section 701(h)(1)(C) of the Federal Food, Drug, and Cosmetic Act (FD&C Act) (21 U.S.C. 371(h)(1)(C)) and 21 CFR 10.115(g)(2)) because delaying this policy is likely to exacerbate ongoing supply chain issues. This guidance document is being implemented immediately, but it remains subject to comment in accordance with the Agency’s good guidance practices.

This guidance is being issued consistent with FDA’s good guidance practices regulation (21 CFR 10.115). The guidance represents the current thinking of FDA on “Enforcement Policy for Certain Supplements for Approved Premarket Approval (PMA) or Humanitarian Device Exemption (HDE) Submissions.” It does not establish any rights for any person and is not binding on FDA or the public. You can use an alternative approach if it satisfies the requirements of the applicable statutes and regulations.

II. Electronic Access
