The following information is provided for these information collections: (1) Title of the information collection; (2) OMB control number; (3) Current expiration date; (4) Type of request; (5) Abstract of the information collection activity; (6) Description of affected public; (7) Estimate of total annual reporting and recordkeeping burden; and (8) Frequency of collection.

PHMSA will request a three-year term of approval for each of the following information collection activities.

PHMSA requests comments on the following information:

1. *Title:* Pipeline Safety: Integrity Management Program for Gas Distribution Pipelines.

*OMB Control Number:* 2137-0625.

*Current Expiration Date:* 5/31/2024.

*Type of Request:* Renewal with no change of a currently approved collection.

*Abstract:* The Federal Pipeline Safety Regulations require operators of gas distribution pipelines to develop and implement integrity management (IM) programs. The purpose of these programs is to enhance safety by identifying and reducing pipeline integrity risks. PHMSA requires that operators maintain records demonstrating compliance with these requirements for 10 years and that these records must include superseded IM plans.

*Affected Public:* Operators of gas distribution pipeline systems.

*Annual Reporting and Recordkeeping Burden:*

*Estimated number of responses:* 3,882.

*Estimated annual burden hours:* 723,192.

*Frequency of collection:* On occasion.

2. *Title:* Post-Accident Drug Testing for Pipeline Operators.

*OMB Control Number:* 2137-0632.

*Current Expiration Date:* 8/31/2024.

*Type of Request:* Renewal with no change of a currently approved information collection.

*Abstract:* Pursuant to 49 CFR 199.227, operators are required to maintain records of its alcohol misuse prevention program. The post-accident drug testing for pipeline operators information

collection pertains specifically to 49 CFR 199.227(b)(4), that requires operators to maintain records of decisions not to administer post-accident employee alcohol tests for a minimum of three years. Operators must make those records available to PHMSA upon request.

*Affected Public:* Operators of PHMSA-regulated pipelines.

*Annual Reporting and Recordkeeping Burden:*

*Total Annual Responses:* 609.

*Total Annual Burden Hours:* 1,218.

*Frequency of Collection:* On occasion.

*Current Expiration Date:* 11/30/2024.

*Type of Request:* Renewal with no change of a currently approved information collection.

*Abstract:* Pursuant to the Federal Pipeline Safety Regulations, liquefied natural gas facility operators are required to maintain records, make reports, and provide information regarding their liquefied natural gas facilities to PHMSA upon request.

*Affected Public:* Operators of liquefied natural gas facilities.

*Annual Reporting and Recordkeeping Burden:*

*Estimated number of responses:* 40,400.

*Estimated annual burden hours:* 12,120.

*Frequency of Collection:* On occasion.

4. *Title:* Customer-Owned Service Lines.

*OMB Control Number:* 2137-0594.

*Current Expiration Date:* 11/30/2024.

*Type of Request:* Renewal with no change of a currently approved information collection.

*Abstract:* Pursuant to 49 CFR 192.16, operators of gas service lines who do not maintain their customers' buried piping between service lines and building walls or gas utilization equipment are required to send written notices to their customers prescribing the proper maintenance of these gas lines and of the potential hazards of not properly maintaining these gas lines. Operators also must maintain records that include a copy of the notice currently in use and evidence that notices were sent to customers within the previous three years. The purpose of the collection is to provide PHMSA with adequate information about how customer-owned service lines are being maintained to prevent the potential hazards associated with not maintaining the lines. Examples of sufficient notification include a prepared notification with the customer's bill.

*Affected Public:* State and local governments.

*Annual Reporting and Recordkeeping Burden:*

*Estimated number of responses:* 550,000.

*Estimated annual burden hours:* 9,167.

*OMB Control Number:* 2137-0618.

*Current Expiration Date:* 11/30/2024.

*Type of Request:* Renewal with no change of a currently approved information collection.

*Abstract:* The Federal Pipeline Safety Regulations at 49 CFR 192.612 and 49 CFR 195.413 require operators of pipelines in the Gulf of Mexico and its inlets in waters less than 15 feet (4.6 meters) deep to conduct periodic underwater inspections to determine whether the pipelines are exposed to navigation. If an operator discovers that its underwater pipeline is exposed or poses a hazard to navigation, among other remedial actions, the operator must contact the National Response Center by telephone within 24 hours of discovery and report the location of the exposed pipeline or hazardous pipeline.

PHMSA's regulations for reporting the abandonment of underwater pipelines can be found at 49 CFR 192.727 and 49 CFR 195.59. These provisions contain certain requirements for disconnecting and purging abandoned pipelines and require operators to notify PHMSA of each abandoned offshore pipeline facility and each abandoned onshore pipeline facility that crosses over, under, or through a commercially navigable waterway.
