

proceeding must file a petition to intervene through Bonneville's secure website (<https://ratecase.bpa.gov/>). A first-time user of Bonneville's secure website must create a user account to submit an intervention. Returning users may request access to the TC-25 tariff proceeding through their existing accounts and may submit interventions once their permissions have been updated. The secure website contains a link to the user guide, which provides step-by-step instructions for creating user accounts, generating filing numbers, submitting filings, and uploading interventions. Please contact the Hearing Coordinator via email at cwgriffen@bpa.gov or, if the question is time-sensitive, via telephone at (503) 230-5107 with any questions regarding the submission process. A petition to intervene must conform to the format and content requirements set forth in Bonneville's Rules of Procedure Sections 1010.6 and 1010.11 and must be uploaded to the TC-25 tariff proceeding secure website by the deadline established in the procedural schedule.

A petition to intervene must state the name and address of the entity or person requesting party status and the entity or person's interest in the hearing. Bonneville customers and affiliated customer groups will be granted intervention based on petitions filed in conformance with Rules of Procedure. Other petitioners must explain their interests in sufficient detail to permit the Hearing Officer to determine whether the petitioners have a relevant interest in the hearing. The deadline for opposing a timely intervention is two business days after the deadline for filing petitions to intervene. Bonneville or any party may oppose a petition for intervention. All petitions will be ruled on by the Hearing Officer. Late interventions are strongly disfavored. Opposition to an untimely petition to intervene must be filed within two business days after service of the petition.

C. Developing the Record

The hearing record will include, among other things, the transcripts of the hearing, written evidence and arguments entered into the record by Bonneville and the parties, written comments from participants, and other material accepted into the record by the Hearing Officer. Upon conclusion of the hearing, the Hearing Officer will develop a recommended decision for the Bonneville Administrator. The Hearing Officer's recommended decision must be based on the record and include the Hearing Officer's

findings and conclusions, including the reasons or bases thereof, on all material issues of fact, law, or discretion raised by the parties in their initial briefs. The Hearing Officer will review and certify the record to the Bonneville Administrator for final decision.

The Bonneville Administrator will make a final determination establishing or modifying Tariff terms and conditions based on the record, the Hearing Officer's recommended decision, and such other materials and information as may have been submitted to or developed by the Bonneville Administrator. The Final ROD will be made available to all parties.

Part IV—Summary of Proposed Modifications to Bonneville's Tariff

In this proceeding, Bonneville proposes to adopt, effective June 30, 2024, modifications to the large generator interconnection procedures (LGIP) in Attachment L to the Tariff and a new Attachment R to the Tariff that would provide for a transition to the modified LGIP. As described above, the specific Tariff modifications at issue are reflected in the TC-25 Settlement Agreement that was developed in discussions with customers and other stakeholders earlier this year.

The LGIP is Bonneville's procedure for interconnecting generating facilities larger than 20 megawatts to the FCRTS. The proposed LGIP would replace the first-come, first-served serial interconnection study process in the current Tariff with a first-ready, first-served cluster study process. Under the proposed first-ready, first-served cluster study process, Bonneville will study a cluster of large generator interconnection requests that meet readiness requirements as opposed to studying each request serially. The proposed modifications to the LGIP include the details necessary to implement the new study process. The proposed modifications also provide for giving customers high-level information early in the interconnection process and allow customers to share costs of identified network upgrades.

The proposed Attachment R includes a process ("Transition Process") to transition pending interconnection requests received prior to 15 after the publication of this **Federal Register** Notice ("Transition Close Date") to the first-ready, first-served cluster study process. Under this Transition Process, interconnection requests may apply to continue to be processed in a serial study process or to be included in a Transition Cluster Study. Bonneville will not process any interconnection request submitted after the Transition

Close Date until the opening of a new Cluster Request Window, following the requirements in the proposed revisions to the LGIP in Attachment L of Bonneville's Tariff.

Part V—Proposed Tariff

Bonneville's proposed Tariff and the TC-25 Settlement Agreement are part of this notice and available to view and download on Bonneville's website at <https://www.bpa.gov/goto/tc25>.
